

## **Exam Prep - AWS Certified Solutions Architect – Associate**

### **Description**

Designed to complement Architecting on AWS, this half-day workshop is intended for individuals who are preparing for the AWS Certified Solutions Architect – Associate exam. In this workshop, we review what to expect at the testing centre and while taking the exam. We walk you through how the exam is structured, including question formats, content domains, and the breakdown of questions across those domains. We also teach you how to interpret the concepts being tested by a question so that you can better eliminate incorrect responses. During the workshop, you will have the chance to apply knowledge and test concepts through a series of practice exam questions.

### **Course Objectives**

This workshop is designed to teach you how to:

- Navigate the logistics of the examination process
- Understand the exam structure and question types
- Identify how questions are written to test AWS architectural concepts
- Interpret the concepts being tested by an exam question
- Allocate your time in studying for the AWS Certified Solutions Architect – Associate exam

### **Intended Audience**

This workshop is intended for:

- Individuals who are preparing to take the AWS Certified Solutions Architect – Associate exam

### **Prerequisites**

We recommend that attendees of this workshop have the following prerequisites:

- Attended the Architecting on AWS course (or have equivalent knowledge)
- One or more years of hands-on experience designing and deploying scalable, highly available, and fault tolerant systems on AWS

**Delivery Method** This workshop will be delivered through a mix of instructor-led presentation, group discussion, and sample question exercises.

**Duration** • 4 hours

**Course Outline**

- Testing Center Information and Expectations
- Exam Overview and Structure
- Content Domains and Question Breakdown
- Topics and Concepts with Content Domains
- Question Structure and Interpretation Techniques
- Practice Exam Questions
