

Contents

1 Course Introduction

Learning Objectives	1-2
Introduction to Oracle Fusion Applications Suite	1-3
Oracle Fusion Strategy	1-5
Oracle Fusion Applications Strategy	1-6
One Cloud for Your Entire Business	1-7
Getting Started in Oracle Fusion Applications Suite	1-8
Using the Navigator	1-9
Setting User Preferences	1-10
Work Areas	1-12
Tasks Panel	1-13
Saved Searches	1-14
Task Tabs and Controls	1-15
Configuring Table Columns	1-16
Dialog Window	1-17
Train Stops	1-18
Demonstrations	1-19
Practice	1-20
Summary	1-21

2 Overview of Oracle Fusion Cloud Procurement

Learning Objectives	2-2
Topics	2-3
Oracle Procurement Overview	2-4
Oracle Procurement Applications	2-5
Oracle Procurement: Applications Ecosystem	2-6
Oracle Procurement: Product Strategy	2-7
Oracle Procurement: Source-to-Settle	2-8
Oracle Procurement: Strategic Procurement	2-9
Sourcing	2-10
Oracle Supplier Qualification Management	2-11
Procurement Contracts	2-12
Oracle Procurement: Transactional Procurement	2-13
Oracle Procurement: Streamlined Procure-to-Pay	2-14
Oracle Procurement: Unified Approval Workflow	2-15

Oracle Supplier Portal	2-16
Oracle Purchasing	2-17
Oracle Transactional Business Intelligence	2-18
Oracle Social Network	2-19
The Complete Solution	2-20
Oracle Procurement	2-21
Procurement for Manufacturers	2-22
Procurement Flow	2-23
Oracle Procurement: Setup Flow	2-24
Oracle Procurement: Deployment Environments	2-25
Production Environment	2-26
Nonproduction Environment	2-27
How to Know When Your Oracle Procurement Is Ready	2-28
Resources	2-29
Summary	2-31

3 Introducing Functional Setup Manager

Learning Objectives	3-2
Topics	3-3
Knowledge Prerequisites	3-4
Key Resources for Prerequisite Knowledge	3-5
What is Functional Setup Manager?	3-6
Offering, Functional Area and Feature Hierarchy	3-7
Streamline Support for Strategic Procurement	3-8
Review Offerings and Prepare to Opt In	3-9
Opt into Offering, Functional Areas, and Features	3-10
Review What's New and Opt into New Features After Upgrade	3-11
Demonstration	3-12
Practice	3-13
Manage Setup Data with Complete Transparency to Requirements	3-14
Manage Setup Data Using Functional Areas	3-15
Related Setup Tasks	3-16
Tasks with Scope	3-17
Manage Setup Data Using Implementation Projects	3-18
Create an Implementation Project	3-19
Review and Assign Tasks	3-20
Perform Assigned Implementation Tasks	3-21
Practice	3-22
Use Rapid Implementation to Simplify Setup	3-23
Demonstration	3-25
Manage Setup Data Entry in Bulk	3-26

Export and Import CSV Processes 3-27
Practice 3-28
Efficient Setup Data Migration 3-29
Setup Data Key Resources 3-30
Resources 3-31
Summary 3-32

4 Common Application Configuration and Procurement

Learning Objectives 4-2
Procurement Setup Flow 4-3
Topics 4-4
Common Applications Configuration: Overview 4-5
Demonstration 4-7
The Vision Corporation Story 4-8
Vision Global Enterprise Model 4-10
Defining Enterprise Structures Setup and Maintenance 4-11
Enterprise Structures and Oracle Fusion Applications Suite 4-12
Oracle Fusion Applications Enterprise Structures 4-13
Oracle Fusion Applications Financial Enterprise Structures 4-14
Enterprise Structures: Key Features 4-15
Managing Locations for Procurement 4-20
Manage Locations 4-21
Location Sets 4-22
Enhanced Global Search Framework 4-23
Demonstration 4-24
Reference Data: Overview 4-25
Reference Data Sharing 4-26
Reference Groups 4-27
Determinant Types 4-28
Sharing Supplier Site Reference Data 4-29
Demonstration 4-30
Defining Legal Entities for Procurement 4-31
Legal Entities: Overview 4-32
Defining Business Units for Procurement 4-33
Managing Business Units 4-34
Business Unit Model 4-35
Using Business Units 4-36
Business Unit Considerations 4-37
Business Unit Security 4-38
Business Unit Functions 4-39
Other Business Unit Functions 4-40

Business Unit Hierarchy: Example	4-41
Business Units in the Procure-to-Pay Flow	4-42
Assigning Business Unit Business Function	4-44
Service Provider Model	4-45
Service Provider Model: Example	4-47
Procurement Business Unit Models	4-48
Business Unit Scope in Setup and Maintenance Tasks	4-49
Demonstration	4-50
Inventory Organizations for Procurement	4-51
Managing Inventory Organizations: Overview	4-52
Inventory Organization Usage	4-53
Demonstration	4-54
Resources	4-55
Practices	4-57
Summary	4-58

5 Securing Oracle Procurement

Learning Objectives	5-2
Topics	5-3
Oracle Fusion Cloud ERP: Security Implementation	5-4
Oracle Fusion Cloud Applications Security Methodology	5-5
Oracle Fusion Applications Security Key Concepts	5-6
Security Reference Implementation	5-7
Defining Data Security	5-9
Practice	5-10
Using Security Console	5-11
Security Console Features Overview	5-12
Practices	5-13
Security Resources	5-14
Summary	5-15

6 Defining and Managing Approvals

Learning Objectives	6-2
Topics	6-3
Procurement Flow	6-4
Approval Management for Procurement Setup and Maintenance	6-5
Approval Management Foundation	6-6
Approval Management: Overview	6-7
Approval Management: Key Concepts	6-8
Hierarchies and Job Levels	6-10
Requisition Approval Stages	6-11

Task Configurations	6-12
Demonstration	6-15
Managing Approval Groups	6-16
Demonstration	6-18
Approval Management for Procurement Using Approval Rules Setup Interface	6-19
Defining Approval Management Rules for Procurement	6-20
Managing Requisition Approvals	6-21
Set Up Approval Notification Prefixes	6-22
Conditions Using the Procurement Category Hierarchy Top Ten	6-23
User-Defined Attributes	6-24
Currency-Based Attributes	6-25
Summation-Based Attributes	6-27
Standard Attributes	6-30
Troubleshoot Requisition Approvals	6-31
Demonstration	6-32
Practice	6-33
Resources	6-34
Summary	6-35

7 Setting Up Procurement: Common Functions

Learning Objectives	7-2
Procurement Setup Flow	7-3
Common Procurement Setup and Maintenance	7-4
Common Procurement Topics	7-5
Purchasing Categories and Catalogs	7-6
Using Basic Catalogs	7-7
Common Procurement Topics	7-8
Configuring a Catalog	7-9
Defining Categories to a Catalog	7-11
Defining Default Catalogs	7-13
Procurement Category Hierarchy	7-14
Common Procurement Topics	7-15
Defining Supplier Configuration	7-16
Specifying Supplier Numbering	7-17
Specifying Supplier Lookups	7-18
Defining Lookups	7-19
Demonstration	7-21
Defining Supplier Products and Services Hierarchy	7-22
Demonstration	7-24
Communicate New Supplier Notification and Documents	7-25
Common Procurement Topics	7-26

Defining Procurement Agents	7-27
Common Procurement Topics	7-28
Transaction Accounting for Procurement	7-29
Transaction Account Builder	7-30
Common Procurement Topics	7-31
Defining Payment Terms	7-32
Defining Payment Term Discounts	7-34
Demonstration	7-35
Defining Units of Measure	7-36
Dual Units of Measure	7-37
Dual Units of Measure: Example	7-38
Dual Units of Measure: Item Setup in PIM	7-39
Defining Carriers	7-40
Defining Hazard Classes and United Nations (UN) Numbers	7-41
Defining Freight Lookups	7-42
Setting Purchasing Profile Options	7-43
Managing Procurement Document Numbering	7-44
Configuring Purchasing Tasks	7-45
Purchasing Configuration Setup and Maintenance	7-46
Purchasing Configuration Topics	7-47
Purchasing Document Configuration	7-48
Purchasing Line Types	7-49
Demonstration	7-50
Purchasing Document Styles	7-51
Purchasing Change Order Templates	7-52
Purchasing Document Descriptive Flexfields and Value Sets	7-53
Purchasing Configuration Topics	7-55
Defining Master Items for Purchasing	7-56
Oracle Product Master Data Management	7-57
Purchasing Configuration Topics	7-59
Requisition Flexfields and Value Sets	7-60
Purchasing Configuration Topics	7-62
Defining Business Function Configuration	7-63
Configuring Procurement Business Function – Main Tab	7-64
Procurement Business Function Terms and Conditions	7-65
Configuring Procurement Business Function – Document Types	7-66
Procurement Business Function - Document Types	7-67
Demonstration	7-68
Configuring Requisition Business Function	7-69
Configuring One-Time Addresses	7-71
Managing Common Options for Payables and Procurement	7-72

Financial Options and Procurement	7-73
Default Distributions	7-74
Automatic Offsets	7-76
Automatic Offset by Primary Balancing Segment	7-77
Automatic Offset by All Segments, Except Natural Account	7-78
Currency Conversion	7-79
Expense Accruals	7-80
Self-Billed Invoices	7-81
Demonstration	7-82
Purchasing Configuration Topics	7-83
Buyer Assignment for Requisitions	7-84
Buyer Assignment from Source Agreement	7-85
Manage Buyer Assignment Rules	7-86
Defining Receiving Parameters for Procurement	7-87
Manage Receiving Parameters	7-88
Additional Purchasing-Related Setup	7-89
Set up Transaction Manager to Monitor and Manage Workflow Tasks	7-90
Set Up Access to Transaction Manager	7-92
Transaction Manager Auto-Refresh	7-93
Procurement Business Unit as Shared Service Center	7-94
Shared Service Center Setup Steps	7-95
Procurement by Way of a Subsidiary	7-96
Subsidiary Procurement Setup Steps	7-97
Business-to-Business Messaging	7-98
Oracle Fusion Collaboration Messaging Framework	7-99
Oracle B2B e-Commerce Gateway	7-101
Use Deep Links to Speed Navigation	7-102
Practices	7-103
Resources	7-104
Summary	7-105

8 Suppliers

Learning Objectives	8-2
Procurement Flow	8-3
Topics	8-4
Oracle Supplier Model	8-5
Supplier Work Area	8-6
Supplier Maintenance	8-7
Supplier Address and Site Maintenance	8-8
Supplier Contact Maintenance	8-9
Prospective and Spend Authorized	8-10

Supplier Mass Update	8-12
Supplier Self Service Profile Management	8-13
Approve Internal Changes on Supplier Profiles	8-15
Approve Internal Changes on Supplier Profiles - Bank Accounts	8-16
Use Approval Rules for Internal Supplier Profile Changes - Bank Accounts	8-17
Approve Internal Changes on Supplier Profiles - Addresses	8-18
Audit Supplier Profile Attribute Changes	8-19
Set Up Auditing Supplier Profile Attribute Changes	8-20
Supplier Customer Party Modeling	8-21
Remove Mandatory Check on D-U-N-S Number, Taxpayer ID, and Tax Registration Number	8-22
Configuring Sender Name and Email in Supplier Management Notifications	8-23
Registering Suppliers	8-26
Smart Data Services for Supplier Addresses	8-27
Inbound Supplier Web Service (Part of SOAP)	8-29
Configurable Automated New Supplier Notification	8-30
Set up New Supplier Notifications with BI Publisher	8-31
Configuring Sender Name and Email in Supplier Management Notifications During Registration	8-33
Oracle Supplier Portal	8-34
Oracle Supplier Portal Functionality	8-35
Oracle Supplier Portal Benefits	8-36
Oracle Supplier Model and Oracle Supplier Portal Setup and Maintenance	8-37
Oracle Supplier Model Setup and Implementation	8-38
Identifying Registration Webpages	8-39
Configuring Registration Webpages	8-40
Oracle Supplier Portal Setup and Maintenance	8-41
Supplier Provisioning	8-42
Create a Supplier User Category – SUPPLIER_USER	8-43
Default Roles	8-44
Provisioning Roles and Setting Defaults	8-45
Additional Oracle Supplier Portal Setup	8-46
Oracle Supplier Model Functionality: Demonstration	8-47
Practices	8-48
Resources	8-49
Summary	8-50

9 Supplier Agreements

Learning Objectives	9-2
Topics	9-3
Procurement Flow	9-4
Oracle Purchasing	9-5
Purchasing Documents: Key Concepts	9-6
Supplier Agreement: Key Concepts	9-7
Purchase Agreements Overview and Tasks	9-8
Blanket Purchase Agreement: Main Tab	9-10
Blanket Purchase Agreement: Controls Tab	9-12
Blanket Purchase Agreement: Lines	9-14
Blanket Purchase Agreement Line Detail and Price Breaks	9-16
Purchase Items That Are Priced in Their Secondary UOM: Purchasing	9-17
Ship-to Organization or Ship-to Location-Specific Price Breaks	9-18
Consignment Agreement	9-19
Demonstration	9-20
Contract Purchase Agreement: Main Tab	9-21
Contract Purchase Agreement: Master Contracts	9-23
Contract Purchase Agreement: Controls Tab	9-25
Controlling Requisition and Line Grouping into Purchase Orders	9-27
Consolidate Online Requisitions into Fewer Purchase Orders	9-28
Generate Separate Purchase Orders by Ship-To Location	9-29
Grouping Imported Requisitions by Various Input Parameters	9-30
Schedule Purchase Order Generation by Supplier Agreement Feature	9-31
Demonstration	9-32
Job Roles and Associated Duty Roles	9-33
Purchase Agreement: Duty Roles and Tasks	9-34
Contract Terms: Duty Roles and Tasks	9-35
Resources	9-36
Practices	9-37
Summary	9-38

10 Procurement Catalogs

Learning Objectives	10-2
Topics	10-3
Procurement Flow	10-4
Self Service Procurement: Product Overview	10-5
Self Service Procurement Setup and Maintenance	10-6
Managing Self Service Procurement Profile Options	10-7
Managing Information Template Value Sets	10-9
Managing Information Template Descriptive Flexfields	10-10

Demonstrations	10-12
Procurement Catalog Category Hierarchy: Overview	10-13
Category Hierarchy with Catalogs	10-15
Featured Categories	10-17
Demonstration	10-18
Self Service Procurement Maintenance	10-19
Catalog Work Area Tasks	10-21
Supplier Content Map Sets	10-22
Hosting Catalog Images in Oracle Content and Experience	10-24
Demonstration	10-25
Managing Catalogs	10-26
Punchout to Externally-Hosted Catalog and Shopping Sites	10-27
Configure Externally-Hosted Punchout Catalog and Shopping Sites	10-29
Manage Shopping Search Index Synchronization	10-30
Demonstrations	10-31
Managing Public Shopping Lists	10-32
Managing Information Templates	10-33
Demonstration	10-34
Managing Smart Forms	10-35
Smart Forms for the Mid-Market	10-36
Reusing Smart Forms	10-39
Demonstration	10-40
Managing Content Zones	10-41
Display Configurable Contextual Item Details	10-44
Enable Display Configurable Contextual Item Details for a Person or Group	10-45
Demonstrations	10-47
Practices	10-48
Resources	10-49
Summary	10-50

11 Requisitions

Learning Objectives	11-2
Topics	11-3
Procurement Flow	11-4
Oracle Fusion Cloud Self Service Procurement	11-5
Requisitioning Catalog Superstore	11-6
Requisition Management	11-7
Shopping in Self Service Procurement	11-9
Finding and Adding Items to the Shopping Cart	11-11
Internal Material Transfer	11-12
Implementing Internal Material Transfer	11-13

Self Service Procurement Mobile Application	11-15
Supported SCM Flows	11-18
Responsive Self Service Procurement	11-19
Managing Requisitions	11-20
Access and Enablement	11-22
Create Requisitions with Item or Category Based Information Templates	11-23
Change Description and Pricing for Catalog Items While Shopping	11-24
Demonstration	11-25
Practices	11-26
Resources	11-27
Summary	11-28

12 Purchase Orders

Learning Objectives	12-2
Topics	12-3
Procurement Flow	12-4
Oracle Purchasing	12-5
Purchase Orders Overview and Tasks	12-6
Purchase Orders Versus Supplier Agreements	12-8
Purchase Order Components	12-9
Purchase Order: Main Tab	12-10
Purchase Order Lines	12-12
Purchase Order Schedules	12-14
Purchase Order Distributions	12-15
Purchase Items That Are Priced in Their Secondary UOM: Purchasing	12-16
Electronic Signature for Purchasing Documents	12-17
Purchasing Document Report	12-19
Purchase Order Life Cycle	12-20
Create Compliance Checklists for Purchasing Documents	12-21
Demonstration	12-22
Purchase Order Creation: Overview	12-23
Create Orders Manually	12-24
Purchase Order Lines with Negative Amounts	12-25
Modifying Existing Purchase Orders	12-26
Process Requisitions	12-27
Purchase Order: Job Roles and Associated Duty Roles	12-28
Purchase Order: Duty Roles and Description	12-29
Change Purchase Order: Feature Highlights	12-30
Common Purchasing Document Change Management	12-31
Independent Change Order Life Cycle	12-32
Configure External or Internal Change	12-33

Comprehensive Audit Trail of Change 12-34
Supplier Acknowledgment of Purchase Orders 12-35
Purchase Order and Change Order Approval Notifications 12-37
Descriptive Flexfield Inheritance between Requisitions and Purchase Orders 12-38
Integration with Supply Chain Management Flows 12-39
Purchasing for Project-Specific Work Orders 12-40
Purchase Orders for Complex Services with Progress Payment Schedules 12-41
Create Work Confirmation for Purchase Orders with Progress Payment
Schedules 12-42
Item Replacement 12-43
Purchase Request Web Service and Business Events 12-44
Resources 12-46
Practices 12-47
Summary 12-48

13 Self-Service Receiving

Learning Objectives 13-2
Topics 13-3
Procurement Flow 13-4
Oracle Fusion Cloud ERP 13-5
My Receipts Work Area 13-6
Self-Service Receiving: Key Features 13-7
Self-Service Receiving Process 13-8
Receiving: Receive Items 13-9
Receiving: Create Receipt 13-10
Receiving: Manage Receipts 13-11
Demonstration 13-12
Job Roles and Associated Duty Roles 13-13
Implementation Considerations 13-14
Practices 13-15
Resources 13-16
Summary 13-17

14 Setting Up and Managing Supplier Qualification Management

Learning Objectives 14-2
Topics 14-3
Supplier Qualification Management 14-4
Business Background: Key Challenges 14-5
Supplier Qualification Management 14-6
Tracking Qualifications for a Supplier 14-7
Identifying Information Needs 14-8

Question Library	14-9
Qualification Areas	14-10
Setup: Overview	14-11
Qualification	14-12
Qualification: Example	14-13
Qualification Initiative	14-14
Internal Surveys	14-15
Supplier Qualification Management Life Cycle	14-16
Integration with Supplier Registration	14-17
Automated Scoring	14-18
Automatic Evaluation	14-19
Event Based Initiative and Qualification Creation	14-20
Automation Errors Resolution	14-21
Supplier Qualification Management: Demonstration	14-22
Supplier Qualification Management Configuration Setup Tasks	14-23
Defining Subject and Standards Organization	14-25
Supplier Qualification Management Configuration Setup Tasks	14-26
Manage Assessment Outcomes	14-28
Supplier Qualification Management Configuration Setup Tasks	14-29
Defining Document Numbering	14-31
Configuring Automatic Search Results Display	14-32
Defining Procurement Agent Security	14-33
Creating a Registration Rule Set	14-34
Set Up Assessment of Supplier Sourcing Eligibility	14-35
Configuring Sender Name and Email in Supplier Qualification Notifications	14-37
Practices	14-39
Resources	14-40
Summary	14-41
Appendix A: Additional Slides of Setup Screens	14-42
Create Question	14-43
Add Translations for the Question Text	14-44
Question Branching	14-45
Mapping to a Supplier Profile Attribute	14-46
Mapping to a Business Classification	14-47
Qualification Area	14-48
Qualification Model	14-49
Appendix B: Additional Slides of Transactional Screens	14-50
Initiatives	14-51

Reviewing and Accepting Responses 14-52

Evaluating Qualifications 14-53

Evaluating Survey Qualifications 14-54

Evaluating Assessments 14-55

15 Setting Up and Managing Sourcing

Learning Objectives 15-2

Topics 15-3

Oracle Fusion Cloud Procurement 15-4

Oracle Sourcing 15-5

Oracle Sourcing Life Cycle 15-6

Sourcing – Standard for Supplier Negotiations 15-7

Quick Access to All Information 15-8

Easy Negotiation Creation 15-10

Easy Negotiation Attachment Management 15-11

Enhanced Requirement Types 15-12

Requirements Spreadsheet 15-14

Question Library 15-15

Negotiation Templates 15-16

Sourcing Negotiation Styles 15-17

Adding and Editing Requisitions to Create a Negotiation 15-18

Enable Large Negotiations 15-19

Manage Supplier Relationships 15-21

Enforcing Supplier Eligibility in Negotiations 15-22

Setting up Supplier Eligibility Enforcement in Negotiations 15-23

Enable Supplier Eligibility Enforcement per BU 15-24

Negotiating Retainage 15-25

Team Scoring 15-26

Supplier Portal 15-28

Requirements Questionnaire 15-29

Online Messages 15-30

Supplier Response Repository 15-31

Supplier Profile 15-32

Surrogate Responses 15-33

Alternate Response Bidding 15-34

Alternate Lines 15-35

Two-Stage RFQ 15-36

Negotiation Monitor 15-37

Sourcing Programs 15-38

Award Analysis 15-39

Negotiation and Award Approvals 15-40

Configure Negotiation Approval Notifications	15-41
Negotiation Abstracts	15-42
Robust Spreadsheet Processing	15-44
Supplier Response Line Upload Setup	15-45
Set up Overall Supplier Response Ranking	15-46
Rank Suppliers Based on the Composite Score	15-47
Deriving Composite Score	15-48
Deriving Composite Score: Example	15-49
Apply Internal Cost Factors in Supplier Negotiations	15-50
Offline Supplier Requirements Scoring with Excel	15-53
Create Supplier Contracts from Negotiation Award	15-55
Control the Create Supplier Contracts from Negotiation Award Process	15-56
View Negotiation Details for Purchase Orders and Agreements Created as Negotiation Award Outcomes	15-58
Cancel a Negotiation	15-59
Reopen Award Decision after Negotiation is Completed	15-60
Allow Parent Supplier Access to Negotiations in Supplier Portal	15-61
Configuring Sender Name and Email in Sourcing Notifications	15-62
Seller Negotiations – Seller Auctions	15-63
Seller Negotiations – Submit Bids in Supplier Portal	15-64
Audit Negotiation Changes	15-65
PPM and Sourcing	15-66
Sourcing Project Management	15-67
Sourcing Functionality: Demonstrations	15-68
Sourcing Functionality: Practices	15-69
Sourcing: Setup and Maintenance	15-70
Defining Requirement Sections	15-72
Managing Cost Factors and Cost Factor Lists	15-73
Managing Attribute Groups	15-74
Managing Attribute Lists	15-75
Notification Subscriptions	15-76
Resources	15-77
Summary	15-78

16 Procurement Contracts

Learning Objectives	16-2
Topics	16-3
Enterprise Contract Management: Foundation	16-4
Procurement Process	16-5
Contracts: Process Flow	16-6
Procurement Contracts: Features and Benefits	16-8

Accessing Contracts from Procurement Applications	16-9
Terminology in the Contracts Application	16-10
Creating Contracts	16-11
Creation Process	16-12
Contract Approval	16-14
Procurement Contracts: Roles	16-16
Implementing Procurement Contracts	16-17
Common Applications Setup Tasks	16-18
Setup Tasks in Enterprise Contracts Setup	16-19
Specify Supplier Contract Management Business Function Properties	16-20
Manage Contract Role Sources	16-21
Manage Contract Risks	16-22
Manage Contract Types	16-23
Manage Contract Line Types	16-24
Performing Contract Terms Library Configuration	16-25
Defining Clause Types	16-26
Setting Up Clauses, Sections, Templates	16-27
Notifying When Contracts are Shared in the Supplier Portal	16-28
Procurement Contracts: Demonstrations	16-29
Procurement Contracts: Practices	16-30
Resources	16-31
Summary	16-32
Appendix A: Authoring Flow Screenshots	16-33
Accessing Enterprise Contracts	16-34
Creating a Contract	16-35
Entering Header Information	16-36
Contract Parties	16-37
Creating Contract Lines	16-38
Creating Lines	16-39
Adding Contract Terms	16-40
Contract Expert	16-41
Contract Expert: Entering Variables	16-42
Contract Expert: Answering Questions	16-43
Checking for Contract Deviations	16-44
Reviewing Contract Deviations	16-45
Submitting for Approval	16-46
Approval Notification	16-47
Approval Notification Details	16-48
Using Contract Wizard	16-49

17 Oracle Fusion Cloud Procurement Integration

Learning Objectives	17-2
Topics	17-3
Oracle Procurement	17-4
Procurement	17-5
Manage and Automate the P2P Cycle	17-6
Enhance Your Oracle On-Premise Procure-to-Pay	17-7
Integration Options	17-8
Getting Started with Integration	17-9
Getting Started with Integration – Integration Methods	17-10
Oracle Procurement Coexistence Strategies	17-12
Coexistence: Modern Integrated Procure-to-Pay Comprehensive End-to-End Procurement and Payables	17-13
Integration Options – Procure-to-Pay Cloud (P2P)	17-14
Subledger Accounting to General Ledger Integration	17-15
Procure-to-Pay to Accounts Payable Invoice Integration	17-17
Oracle Procurement Coexistence Strategies	17-19
Integration Options – Sourcing	17-20
Demonstration	17-21
Integration Options –Sourcing	17-22
Integration Options – Procurement Contracts	17-23
Reference Data	17-24
Reference Data Integration: Example	17-25
Inbound Supplier Web Service	17-26
Resources	17-27
Summary	17-28

18 Overview of Project-Driven Supply Chain

Overview of Project-Driven Supply Chain	18-2
Project-Driven Supply Chain	18-3
Features of Project-Driven Supply Chain	18-4
Actions to Use Project-Specific Manufacturing	18-5
Additional Resources	18-6
