

Creating Effective Documentation for Developers (LFC112)

Create inclusive documentation for new users and foster engagement, while leveraging specific skills to meet the unique API documentation requirements of your product.

Duration: 4 Hours

Prerequisites for this course

- Students should be familiar with topics discussed in the "Open Source Technical Documentation Essentials (LFC111)" course. They should also have prior knowledge of software engineering concepts and development environments. Additionally, a basic understanding of APIs, their users, and their applications is recommended.

Outline for this course

Chapter 1 – Course Introduction

Chapter 2 – Creating Effective API Documentation

Chapter 3 – Contents of an API Documentation Suite

Chapter 4 – Supporting the Documentation Effort
