55628A - Mastering Microsoft Copilot Studio

Duration: **1 Day (8 hrs)**

Level: **200 - Intermediate**

Vendor: **Microsoft, Power Platform, Copilot, AI**

Legacy MOC Code: **None**

Course Overview

Copilot Studio in a Day (CSIAD) is a beginner-level training designed for everyone to learn how to respond rapidly to your customers and employees at scale, using next generational conversational assistants.

No matter if you are a business expert or IT developer, you will learn to develop copilots quickly, in a single day using Microsoft Copilot Studio.

This course is designed as a hands-on experience to learn the foundational building blocks of creating a Copilot in the Microsoft Copilot Studio.

Audience Profile

This course is designed for **developers, IT professionals, business users, and content creators** who want to maximize their productivity and creativity using **Copilot Studio**. It is tailored for individuals looking to create, manage, and optimize AI-powered solutions across the Microsoft ecosystem, enabling them to leverage the full potential of Copilot Studio for automation, content generation, and enhanced collaboration.
