1 Introduction to Planning and Planning Modules

Course Objectives	1-2
Agenda: Day 1	1-3
Agenda: Day 2	1-4
Lesson 1 Objectives	1-5
Cloud EPM Planning: Overview	1-6
Cloud EPM Services	1-8
Planning Modules	1-10
Financials	1-11
Capital	1-12
Workforce	1-13
Projects	1-14
Strategic Modeling	1-15
Planning Clients and Tools	1-16
Data Exchange	1-18
Smart Push	1-19
Planning Business Case	1-20
Accessing the Planning Environment	1-21
Summary	1-22

2 Setting Up Module-Based Planning Applications

Lesson 2 Objectives	2-2
Planning Module Configuration Checklist	2-3
Integration Between Modules	2-5
Planning Module Integration Scenarios	2-7
Integration Task Flow	2-8
Integrating with Budgetary Control	2-10
Creating the Module-Based Planning Application	2-11
Selecting the Planning Business Process	2-12
Creating a New Application	2-13
Defining the Application Framework	2-14
Setting Up Application Details	2-15
Reviewing Selections and Creating the Application	2-17
Navigating to the Configure Page	2-18
Summary	2-19

3 Enabling and Configuring Financials

- Objectives 3-2
- About the Financials Chart of Accounts 3-3
- Enabling Financials 3-5
 - Enabling Financials Features and Subcomponents 3-6
 - Mapping and Renaming Dimensions for Financials 3-10
 - Associating Custom Dimensions with Financials Features 3-11
 - About Internal Aggregation Rules 3-12
 - About the Account and Plan Element Dimensions 3-13
 - About Configuring Financials 3-14
 - Setting Up Time Frame and Granularity 3-15
 - Weekly Configuration 3-17
 - Setting up Global Assumptions 3-18
 - Managing Accounts and Drivers 3-19
 - Adding Predefined Members, Custom Categories and Drivers 3-20
 - About Accounts for Integration with Projects 3-21
 - Importing Metadata 3-22
 - Downloading Financial Data Load Templates 3-23
 - Setting User Variables for Financials 3-24
 - Reviewing the Financials Navigation Flow 3-25
 - Summary 3-27

4 Enabling and Configuring Capital

- Objectives 4-2
- Enabling Capital 4-3
 - Enabling Capital Features and Subcomponents 4-4
 - Mapping and Renaming Dimensions for Capital 4-6
 - Integrating with Capital 4-7
 - Mapping the Project Custom Dimension 4-8
 - Integrating Capital Data with Financials 4-9
 - Adding a New Asset 4-10
 - Calculate Asset and Roll Up Data Rules 4-11
 - Mapping Capital Accounts 4-12
 - Synchronizing Metadata and Data 4-13
 - Push Data to Financials 4-14
 - Setting Up Time Frame and Granularity 4-15
 - Adding Asset Classes 4-17
 - Setting Up Tangible Assets 4-18
 - Setting Up Intangible Assets 4-19
 - Importing Asset Details 4-20
 - Downloading Capital Data Load Templates 4-21

Reviewing the Capital Navigation Flow 4-22
Verifying User Variables 4-24
Setting Assumptions 4-25
Summary 4-27

5 Enabling and Configuring Projects

Objectives 5-2
Enabling Projects 5-3
Enabling Projects Features and Subcomponents 5-4
Mapping and Renaming Dimensions for Projects 5-7
Integrating with Projects 5-8
Enabling Capital Projects 5-9
Integrating Equipment Expenses with Capital 5-10
Integrating with Workforce 5-12
Projects Financial Mapping 5-13
Setting Up Time Frame and Granularity 5-14
Importing Metadata 5-16
Importing Metadata Process 5-17
Downloading Project Data Load Templates 5-18
Managing Accounts and Drivers 5-20
Setting Up Project Properties 5-22
Reviewing the Projects Navigation Flow 5-23
Verifying User Variables 5-25
Summary 5-26

6 Enabling and Configuring Workforce

Objectives 6-2
Enabling Workforce 6-3
Enabling Workforce Features and Subcomponents 6-4
Mapping and Renaming Dimensions for Workforce 6-8
Integrating other Modules with Workforce 6-9
Integrating with Financials 6-10
Synchronizing and Pushing Workforce Data to Financials 6-12
Enabling Utilization of Employees in Projects 6-14
Setting Up Time Frame and Granularity 6-15
Calculations in a 13-Period Calendar 6-16
Downloading Workforce Data Load Templates 6-18
Setting Up Employee Properties and Demographics 6-20
Managing Employees, Accounts, and Drivers 6-22
Setting Up Salary Grades 6-23
Setting Up Options and Tiers 6-24

Setting Up Benefits and Taxes	6-25
Setting Up Benefits and Taxes: Rule Synchronizing Defaults	6-28
Setting Up Workforce Assumptions	6-29
Reviewing the Workforce Navigation Flow	6-30
Verifying Workforce User Variables	6-32
Setting Up Compensation Assumptions and Defaults	6-33
Workforce Assumptions, Salary Grades, Merit Rates	6-34
Defaults: Salary, Additional Earnings, Benefits, Taxes	6-35
Performing Mass Updates	6-36
Workforce Rules	6-39
Summary	6-41

7 Setting Up Strategic Modeling

Objectives	7-2
Strategic Modeling Overview	7-4
Enabling Strategic Modeling	7-6
Templates	7-7
Creating Models	7-8
Creating Scenarios: Overview	7-10
Creating Scenarios	7-12
Setting Up Forecast Methods	7-14
Managing Subaccounts	7-17
Managing Subaccounts: Adding Accounts	7-18
Setting Up Model Access Permissions	7-19
Setting Goals	7-22
Setting Up Funding Options: Overview	7-24
Setting Up Funding Options	7-25
Setting Up Funding Options: Methods	7-26
Simulations: Overview	7-27
Creating and Running Scenario Rollups	7-29
Summary	7-30

8 Entering Financials Data

Objectives	8-2
Financials Dashboard: Overview	8-3
Revenue	8-4
Income Statement	8-5
Rolling Forecast	8-6
Income Statement Rolling Forecast	8-7
Managing Financial Planning	8-8
Specifying Drivers and Trends	8-9

Specifying Drivers 8-10
Specifying Drivers and Trends: Adjust Driver Assumptions 8-11
Specifying Trends 8-12
Specifying Drivers and Trends: Trends 8-14
Entering Data Directly 8-15
Entering Data Directly: Revenue 8-16
Entering Data Directly: Expenses 8-17
Viewing the Income Statement 8-18
Planning with Rolling Forecast 8-19
Planning with Rolling Forecast: Revenue 8-20
Planning with Rolling Forecast: Expense 8-21
Summary 8-22

9 Entering Capital Data

Objectives 9-2
Capital Dashboard Overview 9-3
Capital Dashboard Overview - Investments 9-4
Managing Capital Assumptions 9-5
Lease Asset Planning 9-6
Lease Asset Planning Without IFRS 16 Standard 9-7
Lease Asset Planning Without IFRS 16 Standard: Add Leased Assets 9-8
Lease Asset Planning with IFRS 16 Standard 9-9
Managing Existing Assets 9-11
Transferring and Retiring Existing Assets 9-12
Improving Existing Assets 9-13
Managing Existing Leased Assets 9-14
Managing Intangible Assets 9-15
Adding and Removing Intangible Assets 9-16
Managing Existing Intangibles 9-17
Summary 9-18

10 Entering Projects Data

Objectives 10-2
Project Dashboard Overview 10-3
Project Performance Analysis 10-4
Setting Up Project Assumptions 10-5
Standard Rates 10-6
Overhead 10-7
Working Days and Hours 10-8
Adding Projects 10-9
Contract Projects 10-10

Indirect Projects	10-11
Capital Projects	10-12
Planning for Project Revenue	10-13
Planning for Project Revenue: Revenue Assumption Forms	10-14
Evaluating Financial, Non-Financial, and Qualitative Project Benefits	10-15
Summary	10-18

11 Entering Workforce Data

Objectives	11-2
Workforce Dashboard Overview	11-3
Compensation Planning Summary	11-4
Expenses Summary	11-5
Demographics	11-6
Managing Hiring Requisitions	11-7
Adding Hiring Requisitions	11-8
Updating Hiring Requisitions	11-10
Hiring Employees	11-12
Managing Existing Employees	11-13
Managing Employee Compensation	11-14
Changing Employee Status	11-15
Planning an Employee's Departure	11-16
Transferring Employees	11-17
Managing Compensation Expenses	11-19
Managing Jobs	11-20
Planning Merit Rates	11-21
Calculating Compensation Expenses	11-23
Synchronizing Defaults	11-24
Identifying Invalid Data	11-25
Managing Non Compensation Expenses	11-26
Updating Multiple Employees and Job Details	11-27
Performing Mass Updates	11-28
Loading and Calculating Incremental Data	11-30
Reviewing Employee and Project Utilization	11-31
Summary	11-32
