1 Introduction to Financial Consolidation and Close

- Objectives 1-2
- Course Agenda: Day 1 1-4
- Course Agenda: Day 2 1-5
- Course Agenda: Day 3 1-6
- Lesson Objectives 1-7
- Introduction to Financial Consolidation and Close 1-8
- Key Features 1-9
- Key Business Benefits 1-11
- FCC Business Process 1-12
- Create and Enable the Application and Its Features 1-13
- Load Metadata and Data 1-14
- Set Up Folders and Forms 1-15
- Enter and Adjust Data 1-16
- Translate and Consolidate Data 1-17
- Review and Approve Data 1-18
- Publish Financial Reports 1-19
- Task Manager Overview 1-20
- Working with Supplemental Data: Overview 1-21
- Working with Supplemental Data: Supplemental Data Manager 1-22
- Implementation Best Practices and Considerations 1-23
- Using Quick-Start Checklist 1-28
- Summary 1-30

2 Configuring the Financial Consolidation and Close Business Process

- Objectives 2-2
- FCC Business Process: Overview 2-3
- Creating an FCC Application 2-4
- Create Application: General 2-5
- Create Application: Details 2-6
- Create Application: Details – 13 Months Option 2-7
- Create Application: Features 2-8
- Balance Sheet Hierarchy 2-9
- Multi-GAAP 2-10
- Cumulative Translation Adjustment (CTA), Local GAAP 2-11

- Consolidation Journal Adjustments 2-12
- Intercompany Data 2-13
- Include Ratio Calculations 2-14
- Ownership Management 2-15
- Custom Dimensions 2-16
- Other Options 2-17
- Additional Consolidation Members 2-18
- Control To-Date View Storage, and Combine Year and Period as a Single Dimension 2-19
- Supplemental Data Collection 2-20
- Enterprise Journals 2-21
- Create Application: Review and Create 2-22
- Enabling Features 2-23
- Summary 2-24

3 Navigating Financial Consolidation and Close

- Objectives 3-2
- Accessing the FCC Environment 3-3
- Exploring Home Page 3-4
 - Exploring Home Page: Global Header, Announcement Panel 3-6
- Exploring Home Page: Cards 3-8
- Exploring Home Page: Clusters 3-10
- Exploring Home Page: Dashboards Cluster 3-11
- Exploring Home Page: Application Cluster 3-12
- Exploring Home Page: Tools Cluster 3-14
- Exploring the Navigator Menu 3-16
- Navigation Flows 3-17
- Modifying the Default Navigation Flow 3-18
- Creating and Duplicating Navigation Flows 3-19
- Editing a Navigation Flow 3-20
- Customizing Labels and Icons for Cards, Tabs, and Clusters 3-21
 - Activating and Deactivating Navigation Flows 3-23
- Using Validate to Find Missing Artifacts in Navigation Flows 3-24
- Exploring Predefined Forms 3-25
- Exploring Prebuilt Business Rules 3-27
- Viewing Application Recommendations 3-29
- Summary 3-30

4 Setting Up Financial Consolidation and Close Dimensions

- Objectives 4-2
- Dimensions: Overview 4-3

Dimensions Overview: Cubes 4-4
Dimensions Overview: Dimensions in FCC 4-5
Viewing and Editing Dimensions: Dimension Editors 4-7
Viewing and Editing Dimensions: Simplified Dimension Editor 4-8
Viewing and Editing Dimensions: Classic Dimension Editor 4-9
Exploring Seeded Dimension Members 4-10
Exploring Seeded Dimension Members: Properties 4-11
Exploring Data Storage 4-13
Data Types and Exchange Rate Types 4-14
Setting Up Accounts 4-15
Balance Sheet and Income Statement Accounts 4-16
Historical Accounts 4-17
Ratio and Driver Accounts 4-18
Account Types 4-19
Account Type and Time Balance 4-20
Account Type and Variance Reporting 4-21
Defining Entity Members 4-22
Creating Alternate Hierarchies 4-23
Creating Alternate Hierarchies: Example 4-24
Defining the Currency Dimension 4-25
Setting Up Scenarios 4-27
Defining the Year Dimension 4-28
Defining the Period Dimension 4-29
Defining the Data Source Dimension 4-30
Movement Dimension 4-32
Defining the Consolidation Dimension 4-33
Converting Period and Movement Dimensions to Dense Dimensions 4-35
Summary 4-40

5 Managing Metadata

Objectives 5-2
Importing Metadata: Overview 5-3
Creating Metadata Import Files 5-4
Metadata File: Example 5-5
Loading Metadata 5-6
Refreshing the Database 5-8
Refreshing the Database: Steps 5-9
Viewing Pending Jobs or Recent Activity 5-10
Exporting Metadata 5-12
Exporting Metadata: Steps 5-13
Summary 5-14

6 Managing Security

- Objectives 6-2
- Security: Overview 6-3
- Creating Users 6-4
- Creating Users: Methods 6-5
- Assigning Roles 6-7
- Assigning Roles: Role Inheritance 6-10
- Managing Artifact Security 6-11
- Assigning Security Access to Forms and Folders 6-13
- Assigning Security Access to Forms 6-14
- Assigning Security Access to Folders 6-15
- Data Security: Overview 6-16
- Enabling or Disabling Dimension Security 6-17
- Enabling or Disabling Dimension Security: Steps 6-18
- Assigning Security Access to Dimension Members 6-19
- Access Control: Overview 6-20
- Managing Groups 6-22
- FCC Application Roles 6-23
- FCC Application Roles: Cloud EPM Platform Roles 6-24
- FCC Application Roles: Data Integration Roles 6-25
- FCC Application Roles: Task Manager Roles 6-26
- FCC Application Roles: Consolidation Journal–Related Roles 6-27
- FCC Application Roles: Assigning Roles 6-28
- Summary 6-29

7 Defining Valid Intersections

- Objectives 7-2
- Valid Intersections: Overview 7-3
- Valid Intersection Groups 7-4
- Creating Valid Intersection: Steps 7-5
- Creating Valid Intersection Group: Illustration 7-7
- Valid Intersection Rules 7-8
- Creating Valid Intersection Rules: Illustration 7-9
- Anchor and Non-Anchor Dimensions 7-10
- Anchor and Non-Anchor Dimensions: Example 7-11
- Required and Non-Required Non-Anchor Dimensions 7-12
- Unselected Members Are Valid: Example 7-13
- Redundant or Overlapping Valid Intersection Rules 7-14
- Managing Valid Intersections 7-16
- Managing Valid Intersections: Illustration 7-17
- Working with Valid Intersections in Forms 7-18

Creating Invalid Intersection Reports 7-20
Summary 7-22

8 Loading Data Using Data Integration

Objectives 8-2
Data Integration Overview 8-3
System-Level Settings 8-4
Launching Data Integration 8-8
Configuring Source Connections: ERP Cloud 8-10
Registering Applications: Create Application 8-11
Registering Applications: Category 8-12
Managing Period Mappings 8-14
Managing Period Mappings: Explicit Period Processing 8-17
Managing Category Mappings 8-18
Managing Category Mappings: Global Mapping 8-19
Managing Category Mappings: Application Mapping 8-20
Defining Integrations 8-21
Create File-Based Integration 8-23
Setting a File-Based Source and Cloud EPM Target 8-25
Creating File-Based Integrations: Define General Details: Location Attributes 8-27
Mapping Dimensions 8-28
Mapping Members 8-30
Mapping Members: 8-31
Mapping Dimension Members: Add 8-32
Setting Data Integration Options: General Options 8-34
Setting Data Integration Options: Target Options 8-36
Running an Integration 8-37
Running an Integration: Options 8-38
Workbench 8-40
Viewing Results in the Workbench 8-41
Viewing Results in the Workbench: Data View 8-42
Verifying Loaded Data Using Process Details 8-43
Managing Locations 8-44
Summary 8-45

9 Managing Data

Objectives 9-2
Data Import Overview 9-3
Setting Up a Load File 9-4
Setting Up a Load File: File Type and File Location 9-5
Data Import File: Periodic View 9-6

Data Import File: YTD View 9-7
Load Methods Overview 9-8
Merge: Overwriting Data: Merge, None 9-9
Merge: Overwriting Data: Replace, None 9-10
Replacing Data with Load File Data: Merge, Within File 9-11
Replacing Data with Load File Data: Replace, Within File 9-12
Accumulating Data with Load File Data: Merge, With Database 9-13
Accumulating Data with Load File Data: Replace, With Database 9-14
Importing Data 9-15
Exporting Data 9-17
Copying Data 9-18
Clearing Data 9-21
Summary 9-23

10 Managing Forms

Objectives 10-2
Forms Overview 10-3
Form Overview: Sample Form 10-4
Predefined Forms 10-5
Predefined forms 10-6
Form Design Considerations 10-8
Creating Forms 10-10
Creating Forms: Layout 10-11
Setting Up the Form Layout 10-12
Setting Up the Form Layout: Grid Properties 10-14
Setting Up Form Layout: Dimension Properties 10-16
Setting Up Form Layout: Display Properties 10-18
Setting Up Form Layout: Print Options 10-19
Setting Up Form Layout: Smart View Options 10-20
Setting Up Form Layout: Validation Rules 10-21
Setting Up Form Layout: Validation Rule Builder 10-22
Setting Up Other Options 10-24
Selecting Business Rules 10-26
Selecting Business Rules: Illustration 10-27
Navigating Forms 10-28
Forms 2.0: Global Tool Bar 10-30
Forms 2.0: Quick Toolbar 10-31
Entering and Submitting Data in Forms 10-32
Adjusting Data 10-34
Spreading Data Using Grid Spread 10-35
Adding Comment 10-36

- Tracking Change History 10-37
- Moving, Deleting, and Renaming Forms 10-38
- Substitution Variables 10-39
- User Variables 10-40
- Smart Lists Overview 10-42
- Managing Smart Lists: Create and Edit 10-43
- Associating Smart Lists with Members 10-45
- Working with Data Discovery 10-46
- Working with Data Discovery: Settings 10-47
- Data Discovery: Adding Data Discovery to a Form 10-48
- Data Discovery: Running Data Discovery from Forms 10-49
- Summary 10-50

11 Managing Intercompany Eliminations

- Objectives 11-2
- Intercompany Eliminations Overview 11-3
- Enable Intercompany Data 11-4
- Elimination Process 11-5
- Intercompany Eliminations Overview: Intercompany Dimension 11-7
- Specifying Intercompany Account Attributes 11-8
- Specifying Intercompany Account Attributes: Intercompany and Plug 11-9
- Specifying Plug Account :Changes to Custom Attributes 11-10
- Entering Intercompany Data 11-11
- Creating Intercompany Reports: Overview 11-12
- Creating Intercompany Reports 11-13
- Creating Intercompany Reports: POV Dimensions 11-14
- Creating Intercompany Reports: Accounts 11-15
- Creating Intercompany Reports: Suppression Dimensions 11-16
- Creating Intercompany Reports: Suppression Matches 11-17
- Creating Intercompany Reports: Suppression Types of Rows 11-18
- Creating Intercompany Reports: Display Options and Report Types 11-19
- Creating Intercompany Matching Report: Sample Output 11-20
- Summary 11-22

12 Managing Consolidation Journals

- Objectives 12-2
- Consolidation Journals Overview 12-3
- Security Roles 12-4
- Consolidation Journals and the Data Source Dimension 12-6
- Viewing Consolidation Journals 12-7
- Viewing Consolidation Journals: Illustration 12-8

- Managing Journal Periods 12-9
- Managing Journal Groups 12-10
- Journal Templates: Overview 12-11
- Journal Templates: View 12-12
- Creating Journal Templates: Overview 12-13
- Creating Journal Templates 12-14
- Creating Journal Templates: Illustration 12-15
- Importing Journal Templates: Overview 12-16
- Importing Journal Templates 12-17
- Exporting Journal Templates: Overview 12-18
- Exporting Journal Templates 12-19
- Creating Journals 12-20
- Creating Consolidation Journals 12-21
- Creating Consolidation Journals: Illustration 12-23
- Creating Unbalanced Consolidation Journals 12-24
- Creating Additional Data Source Members 12-25
- Journal Status: Overview 12-26
- Journal Status: Working, Completed 12-28
- Journal Status: Submitted 12-29
- Journal Status: Approved 12-30
- Journal Status: Posted 12-32
- Creating Journal Reports 12-34
- Summary 12-37

13 Enterprise Journals

- Objectives 13-2
- Enterprise Journals: Key Capabilities 13-3
- Enabling Enterprise Journals in Applications 13-4
- Configuring Journal Periods 13-5
- Configuring Journal Periods: Opening, Closing, and Locking Periods 13-6
- Creating Connections 13-7
- Managing Enterprise Journal Targets 13-8
- Creating Targets: Properties 13-9
- Creating Targets: Attributes 13-11
- Enterprise Journal Templates 13-13
- Creating Enterprise Journal Templates: Properties 13-14
- Creating Enterprise Journal Templates: Instructions 13-15
- Creating Enterprise Journal Templates: Sections 13-16
- Creating Enterprise Journal Templates: Sections - Header 13-17
- Creating Enterprise Journal Templates: Sections – Line Item Details 13-18
- Creating Enterprise Journal Templates: Journals 13-20

Creating Enterprise Journal Templates: Questions 13-22
Creating Enterprise Journal Templates: Access 13-23
Creating Enterprise Journal Templates: History 13-25
Creating Recurring Journals 13-26
Deploying Templates to Open Periods 13-27
Deploying Templates to Open Periods: Redeploy, Undeploy 13-29
Preparing and Submitting Journals for Approval 13-30
Attaching Supporting Documentation 13-32
Answering Mandatory Questions 13-33
Approving or Rejecting Submitted Journals 13-34
Submitting Approved Journals for Posting 13-35
Reviewing Completed Journals 13-36
Monitoring Progress by Using Dashboards 13-37
Summary 13-38

14 Running Consolidations

Objectives 14-2
Consolidation Process: Overview 14-3
Movement Hierarchy 14-4
Data Flow: Overview 14-5
Data Flow 14-6
Consolidation Data Status 14-14
Translation Process: Overview 14-15
Translation Process: Translation to Reporting Currencies 14-16
Exchange Rates: Overview 14-17
Exchange Rates: Types 14-18
Average and Ending Rates 14-19
Average and Ending Rates: Enter Exchange Rates – Single Period and
Multi Period 14-20
Amount and Historical Override Rates 14-21
Specifying Default Translation Settings 14-22
Managing Ownership 14-23
Managing Ownership: Enable Ownership Management 14-24
Managing Ownership: View 14-26
Managing Ownership: Change Ownership Settings 14-28
Consolidation Methods: Holding and Subsidiary 14-29
Consolidation Methods: Proportional and Equity 14-31
Consolidation Methods: Not Consolidated, Inactive, Discontinued 14-32
Recomputing Ownership 14-33
Copying Ownership Between Years 14-34
Running Consolidations 14-35

Consolidation Reports : Overview 14-37
Creating and Running Consolidation Reports 14-38
Summary 14-40

15 Managing Jobs and Configuring Audit

Objectives 15-2
Jobs: Overview 15-3
Managing by Jobs Using the Job Console 15-4
Running Jobs 15-5
Scheduling jobs 15-6
View Pending Jobs and Recent Activity 15-7
Editing and Deleting Jobs 15-8
Auditing: Overview 15-9
Configuring Audit Tasks 15-10
Running Audit Report: Overview 15-12
Running Audit Reports 15-13
Running Task Manager Audit Reports 15-14
Supplemental Data and Enterprise Journal Audit Report 15-15
Exporting Audit Data to a File 15-16
Deleting Audit Data 15-17
Summary 15-18

16 Migrating Artifacts and Data

Objectives 16-2
Migration: Overview 16-3
Exporting Artifacts and Data to Snapshot Files: Backup 16-4
Exporting Artifacts and Data to Snapshot Files: Component Export 16-5
Exporting Artifacts and Data to Snapshot Files: Artifact Backup 16-6
Downloading Snapshot Files from an Application 16-7
Uploading Archives to an Application 16-8
Importing Snapshot Files – Setting Import Options 16-9
Importing Artifacts and Applications from Snapshots 16-10
Generating Migration Status Reports 16-11
Summary 16-12
