

Contents

1 Oracle Risk Management Overview

- Course Objectives 1-2
- Course Schedule 1-3
- Lesson Objectives 1-4
- Oracle Fusion Cloud Enterprise Resource Planning 1-5
- Risk Management Overview 1-6
- What Is Financial Reporting Compliance? 1-7
- Why Are Access Controls Needed? 1-8
- Why Are Transaction Controls Needed? 1-9
- Access Certifications Overview 1-10
- Use Case: How Financial Reporting Compliance and Advanced Controls Work Together 1-11
- Use Case: Financial Reporting Compliance and Advanced HCM Controls 1-14
- Oracle Help Center 1-17
- Cloud Application Services Pages 1-18
- Oracle Help Center's Friendly Search 1-19
- Product Family Home Page 1-20
- The Risk Management Home Page 1-21
- Summary 1-22

2 Implementation Overview and Scheduling Jobs

- Objectives 2-2
- Implementing Risk Management Overview 2-3
- Enabling the Offering 2-4
- Practice Overview: Viewing the Risk Management Offering 2-5
- Risk Management's Setup and Administration Area 2-6
- What Are Jobs? 2-7
- Predefined Jobs: Security Synchronization 2-8
- Predefined Jobs: Report Synchronization 2-9
- Predefined Jobs: Access Certification Synchronization 2-10
- Scheduling Jobs 2-11
- Monitor Jobs 2-12
- Understanding Job Status 2-13
- Cancel or Purge Jobs 2-14
- Practice Overview: Modifying the Schedule for a Synchronization Job 2-15
- Summary 2-16

3 Data Access Overview

- Lesson Objectives 3-2
- What Does It Mean To Be Eligible vs Authorized? 3-3
- Roles Overview 3-4
- What Is a Privilege? 3-5
- Practice Overview: Copying a Predefined Role 3-6
- Provisioning Rules 3-7
- Risk Management Data Security Overview 3-8
- Records Affected by Data Security 3-9
- Business Object Security for Transaction Models and Controls 3-10
- Securing Business Objects 3-11
- Practice Overview: Confirming a User Has Access to Business Objects 3-12
- User Assignment Groups 3-13
- Create a User Assignment Group 3-14
- Practice Overview: Creating a User Assignment Group 3-15
- Edit Existing User Assignment Groups 3-16
- Export and Import User Assignment Groups 3-17
- Importing User Assignment Groups 3-18
- Mass Edit Security Assignment Tool 3-19
- Using the Mass Edit Security Assignment Tool 3-20
- Mass Edit Security Job Summary 3-22
- Searching for Ineligible and Missing Authorizations in the Mass Edit Security Assignment Tool 3-23
- Summary 3-24

4 Defining Perspectives

- Objectives 4-2
- Perspectives Overview 4-3
- Planning Perspective Hierarchies 4-4
- Defining Perspectives 4-5
- Managing Perspective Mappings 4-6
- Understanding Perspective Status 4-7
- Using the Data Migration Tool to Define Perspectives 4-8
- Defining Perspectives and Perspective Values in the Template 4-9
- Defining Perspective Hierarchies in the Template 4-10
- Importing a Completed Template 4-11
- Practice Overview: Using the Data Migration Tool to Define Perspectives 4-12
- Practice Overview: Associating Perspectives with Module Objects 4-13
- Summary 4-14

5 Configuring Risk Management Common Elements

- Objectives 5-2
- Risk Management Common Elements 5-3
- Email Alerts and Notifications 5-4
- Modifying Notice Activations 5-5
- Lookups Overview 5-6
- Determining Lookup Types 5-7
- Creating Lookups 5-8
- Editing Lookups 5-9
- Practice Overview: Creating Lookup Type Values 5-10
- Descriptive Flexfields Overview 5-11
- Summary 5-12

6 Configuring Financial Reporting Compliance

- Objectives 6-2
- Setting Up Financial Reporting Compliance 6-3
- Data Migration Overview 6-4
- Generating a Data Migration Template 6-5
- Practice Overview: Generating a Data Migration Template 6-6
- Updating the Data Migration Template with Operational Data 6-7
- Data Migration Templates with Existing Data 6-8
- Import Template Data Requirements 6-9
- Additional Import Template Data Requirements 6-10
- ACTIVITY_CODE Column in Data Migration Template 6-11
- Defining Associations in the Template 6-12
- Importing a Completed Template 6-13
- Import Error Messages 6-14
- Extend Control Enforcement Type Values 6-15
- Managing Assessment Activity Definitions 6-16
- Assessment Activity Types 6-17
- Reviewing Assessment Result Response Codes 6-18
- Practice Overview: Viewing Financial Reporting Compliance Assessment Configurations 6-19
- Summary 6-20

7 Configuring Advanced Controls

- Objectives 7-2
- Setting Up Advanced Controls 7-3
- Data Sources for User-Access Data Analysis 7-4
- Setting Up Your Other Data Sources 7-5
- Managing Your Other Synchronized Data Sources 7-6

- Currency Conversion 7-7
- Global Users Overview 7-8
- Configuring Global Users 7-9
- Configuring Global Users: Select Identifying Attributes 7-10
- Configuring Global Users: Run or Schedule the Synchronization Job 7-11
- Configuring Global Users: Review Global Users and Related Users 7-12
- Configuring Global Users: Modify Attributes 7-13
- Practice Overview: Running the Global User Synchronization 7-14
- Transaction Data Synchronization 7-15
- Running or Scheduling Transaction Data Synchronization 7-16
- Reviewing Status and Results of Transaction Data Synchronization 7-17
- Setting Performance Configuration 7-18
- Transaction and Audit Performance Configuration 7-19
- Access Performance Configuration 7-20
- Practice Overview: Modifying the Transaction Data Source Synchronization Date Limit 7-21
- Purge Advanced Control Results 7-22
- Considerations for Purging Results 7-23
- Purging Advanced-Control Results 7-24
- Import Models, Controls, or Conditions from a File 7-25
- Considerations for Importing Advanced Controls Data 7-26
- Importing Files with Exported Advanced Controls Data 7-27
- Importing Predefined Access Models from the Content Library 7-28
- The Resolve Duplicate Name Violations Page 7-29
- Resolving Duplicate Name Violations 7-30
- Completing the Import 7-31
- Practice Overview: Importing a Predefined Access Model 7-32
- Exporting Models, Controls, or Conditions 7-33
- Summary 7-34

8 Configuring Risk Management for Audit

- Objectives 8-2
- Two Types of Auditing in Risk Management 8-3
- Audit Analysis with Advanced Controls: Overview 8-4
- Configuring Advanced Controls for Audit Analysis 8-5
- Use Security Console to Add Job Roles to Additional Users 8-6
- Practice Overview: Adding a Job Role to Your User 8-7
- Practice Overview: Performing Additional Advanced Controls Configuration Tasks 8-8
- Importing Oracle's Predefined Audit Models 8-9
- Practice Overview: Importing an Audit Model 8-10

Oracle Fusion Cloud Risk Management Implementation

Identifying Business Objects and Attributes to Enable for Audit	8-11
Identify a Business Object's Associated Product	8-12
Identify Business Object Attributes to be Enabled	8-13
Managing Audit Policies: Enable Business Objects for Audit	8-14
Managing Audit Policies: Select Audited Attributes	8-15
Practice Overview: Identifying Business Objects and Attributes to Enable for Audit	8-16
Demonstration: Enabling Audit Model Objects and Attributes for Audit	8-17
Security for Users Working with Audit Models, Risks, and Results	8-18
Practice Overview: Performing Security Tasks for Users Working with Audit Models, Controls, and Incident Results	8-19
Auditing Changes to Risk Management Data	8-20
Configuring Risk Management Objects for Audit	8-21
Enabling Risk Management Objects and Attributes for Audit	8-22
Practice Overview: Reviewing Risk Management Business Objects and Attributes Available for Audit	8-23
Overview of Audit Reports	8-24
Running and Viewing Audit Reports	8-25
Practice Overview: Running and Viewing Audit Reports	8-26
Summary	8-27
