Restricted Rights Notice

If this documentation is delivered to the United States Government or anyone using the documentation on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software" or "commercial computer software documentation" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

Trademark Notice

Table of Contents

Course Overview	7
Target Audience	8
Prerequisites	9
Learning Outcomes	10
Course Outline	11
Introduction to Oracle Database Appliance	13
Objectives	14
Oracle Database Appliance: Overview	15
Oracle Database Appliance: Advantages	18
Describe Oracle Database Appliance X11 hardware models	28
Oracle Database deployment options and key highlights	33
Summary	39
Preparing for ODA Deployments	41
Objectives	42
Register your Oracle Database Appliance with My Oracle Support	43
Prepare the site and rack-mount the appliance	47
Connect the Oracle Database Appliance network and power cables	56
Power up Oracle Database Appliance and plumb the network	62
Configure Oracle ILOM and identify the deployment type	65
Summary	71
Introduction to Oracle Database Deployments	73
Objectives	74
Identify key Oracle Database Appliance documents	75

Describe Oracle Database deployment options and Oracle Database shapes	77
Explain data storage options	85
Identify configuration options and requirements	88
Summary	93
Bare Metal Deployments	95
Objectives	96
Describe Bare Metal deployments, software, and clones	97
Deploy multi-node Bare Metal Oracle Database Appliance	108
Deploy single-node Bare Metal Oracle Database Appliance	119
Explain default security settings and passwords for installation owners	127
Summary	130
Managing Databases for Bare Metal Oracle Database Appliance	131
Objectives	132
Describe default users and groups and default directory paths	133
Manage databases	138
Manage database homes	143
Summary	147
Oracle Database Appliance Backup and Recovery	149
Objectives	150
Describe Oracle Database Appliance backup and recovery	151
Create an Oracle Database Appliance backup policy	160
Perform backup and recovery for an Oracle Database Appliance database	164
Summary	167
Patching Bare Metal Oracle Database Appliance	169
Objectives	170
Explain Oracle Database Appliance patching	171

Upgrade path for Oracle Database Appliance	176
Patch Oracle Database Appliance	180
Summary	189
Administering Bare Metal Oracle Database Appliance	191
Objectives	192
Describe Bare Metal configuration	193
Explain the options for Oracle Database Appliance administration	195
Manage VLAN, storage, and networks	200
Discuss ODA monitoring, diagnostics, and Oracle ASR	205
Summary	209
Introduction to Virtualization	211
Objectives	212
Describe how virtualization provides flexibility in allocating resources	213
Explain KVM virtualization	217
Describe ODA virtualized advantages	219
Summary	222
Provisioning an Oracle Database Appliance Virtualized Platform	223
Objectives	224
Prepare to deploy a DB System on Oracle Database Appliance	225
Create a DB System on Oracle Database Appliance	230
Modify a DB System on Oracle Database Appliance	240
Create a virtual network for a DB System	243
Summary	248
Managing Virtualized ODA	249
Objectives	250
Differentiate between a managed DB System and a Compute Instance	251

Deploy a Compute Instance on Oracle Database Appliance	256
Create CPU pools and VM storage and allocate them to the VM	261
Create virtual local area networks (VLAN)	265
Create and modify a Compute Instance	267
Summary	273
Managing Databases in a DB System on Oracle Database Appliance	275
Objectives	276
Explain Database Sizes and Shapes Related to Workloads	277
Create a Database in a DB System	282
Manage Databases	286
Update Databases	289
Summary	294
