

Contents

1 Overview (Product Development and Product Hub)

Lesson Objectives 1-2

Topics 1-3

Oracle Product Lifecycle Management (PLM) 1-4

Product Lifecycle Management Cloud 1-5

Ideation to Commercialization – Process Flow 1-6

Product Development Overview (Design Products) 1-7

Product Development Process Flow 1-8

Product Hub Overview (Manage Product Master Data) 1-9

Product Hub Process Flow 1-10

Combined Process Flow 1-11

Product Structure Differences 1-12

Topics 1-13

Common Product Features 1-14

Product Development Features 1-17

Product Hub Features 1-18

PD vs PH 1-19

Topics 1-22

Change Management in Product Development (PD) 1-23

Change Management in Product Hub (PH) 1-24

Product Development Scenario: RadTech 1-25

Scenario Solutions: RadTech 1-26

Product Development & Product Hub: TimeBands 1-27

Scenario Solutions: TimeBands 1-28

Product Hub: DigiGlobe 1-29

Scenario Solutions: DigiGlobe 1-30

Practice Scenario 1-31

Practice: From Design to Publish 1-32

Topics 1-33

Key Terms 1-34

Topics 1-37

Oracle SCM Cloud: Product Management Implementation

Oracle Cloud Resources 1-38

Oracle Video Hub 1-39

Lesson Objectives 1-40

2 Product Management Navigation

Lesson Objectives 2-2

Topics 2-3

Springboard 2-4

Global Area 2-5

Navigator 2-6

Settings and Actions 2-7

Show Date/Time According to User Time Zone 2-8

Oracle Home Page 2-9

Access Product Development and Product Hub 2-10

Topics 2-11

PLM Dashboard 2-12

Change Orders Dashboard 2-13

Searches Dashboard 2-14

Practice: Navigating Product Management 2-15

Topics 2-16

Use Embedded Help 2-17

Use the Help Portal 2-18

Practice: Accessing Help 2-19

Lesson Summary 2-20

3 Initial Implementation

Lesson Objectives 3-2

Topics 3-3

Setup and Maintenance Work Area 3-4

What are the Components of Setup and Maintenance? 3-5

Configure the Product Offerings Using Opt In 3-6

Setup and Maintenance Tasks 3-7

Implement PD and PH 3-8

Topics 3-9

What are Units of Measure? 3-10

Examples of UOM 3-11

Oracle SCM Cloud: Product Management Implementation

Add a Unit of Measure 3-12

UOM Classes 3-13

Topics 3-14

Locations 3-15

What are Organizations? 3-16

What are Definition and Reference Organizations ? 3-17

Item Organizations: Master-Child Relationship 3-18

Implementation Guidelines 3-19

Create Organizations 3-20

Create Item Organizations and Assign them to a Master Organization 3-21

Topics 3-22

Item Lifecycle Phases: Introduction 3-23

Lifecycle Phases: Additional Details 3-24

Item Classes: Lifecycle Phases 3-25

Manage Lifecycle Phases 3-26

Lifecycle Phase Types 3-27

Enable or Disable Lifecycle Validation for Structures 3-28

Topics 3-29

Root Item Class Definition: Lifecycle Phases 3-30

Default Lifecycle Phase 3-31

Root Item Class Definition: Security (Public and Private) 3-32

Practice: Implementing the Root Item Class 3-34

Lesson Summary 3-35

4 Configure Item Classes

Lesson Objectives 4-2

Topics 4-3

What is an Item Class? 4-4

Important Concepts of Item Classes 4-5

Use of Item Classes for Administrative Purpose 4-6

Set Up Item Classes 4-7

Item Class Inheritance 4-8

Manage Item Classes 4-9

Best Practice! 4-10

Topics 4-11

Add Item Classes 4-12

- Create Item Classes 4-13
- Item Classes: Basic Information 4-14
- Topics 4-15
- Item Properties 4-16
- View Hierarchy of Item Classes 4-17
- Item Classes: Item Management > Generate Item Numbers 4-18
- Rule Generated: Create a Rule Set 4-19
- Rule Generated: Number and Description from Rules 4-20
- Item Classes: Item Management > Description and Enable NIR 4-21
- NIR Definition Workflow 4-22
- Item Classes: Security Tab (Private Classes) 4-23
- Manage Security Actions for Item Classes 4-24
- Item Classes: Transactional Attributes Tab 4-26
- Types of Item Attributes: Main and Operational 4-27
- Manage Operational Attribute Groups 4-28
- Types of Item Attributes: EFFs and DFFs 4-29
- Item Classes: Pages and Attribute Groups Tab 4-30
- Item Classes: Lifecycle Phases Tab 4-31
- Item Classes: Templates and Formats Tab 4-32
- Manage Templates and Import Formats for Item Classes 4-33
- Enforce Quantity for Reference Designators 4-34
- Practice: Creating Item Classes 4-35
- Practice: Adding an Item Lifecycle Phase (Optional) 4-36
- Lesson Summary 4-37

5 Configure Change Order Types

- Lesson Objectives 5-2
- Topics 5-3
- Change Management Overview 5-4
- Engineering Change Process (Product Development) 5-5
- Commercialization Change Process (Product Hub) 5-6
- Predefined Change Order Types 5-8
- Configure Change Order Type: Basic Setup 5-9
- Configure Change Order Type: Policy Setup 5-10
- Configure Change Order Type: Autocomplete on Cancel 5-11
- Configure Change Order Type: Number Generation 5-12

Configure Change Order Type: Workflow Configuration	5-13
Configure Change Order Type: Approval Status	5-14
Automatic Promotion and Demotion	5-15
Workflow Status Types	5-16
Configure Change Order Type: Entry and Exit, Promotion and Demotion	5-17
Configure Change Order Type: Participant Details	5-18
Add Reviewers to Change Workflows	5-19
Configure Change Order Type: Additional Workflow Controls	5-20
Configure Change Order Type: Add Controls for Roles	5-21
Configure Change Order Type: Propagation Rules (Commercialization Change Orders Only)	5-22
Change Order Creators	5-23
Change Order Header Attributes	5-24
Change Order Attribute Groups	5-25
Create a New Status	5-26
Configure Change Reasons	5-27
Configure Change Priorities	5-28
Practice: Adding a Change Order Type	5-29
Topics	5-30
Change Order Approval Workflow: Options	5-31
User Defined Approvals	5-32
Rule Based Approvals	5-33
Rule Based Approvals: Add Approvers	5-34
Rule Based Approvals: Approval Groups	5-35
Rule Based Approvals: Tasks	5-36
Rule Based Approvals: Rules	5-37
Set Approval to Rule Based	5-38
Practice: Creating an Approval Rule	5-39
Topics	5-40
Use Application Composer Scripts for Automation	5-41
Application Composer and Scripting	5-42
Use Rules with Change Orders	5-43
Create Rule Sets	5-44
Add Rules to the Rule Set	5-45
Topics	5-46
Entry and Exit Criteria	5-47

- Define Required Global Fields for Entry and Exit Criteria 5-48
- Define Type-Specific Required Fields 5-49
- Apply Entry and Exit Criteria 5-50
- Practice: Adding a Change Order Entry or Exit Rule 5-51
- Topics 5-52
- Approval with Signature Password 5-53
- Configure Commenting Options 5-54
- Change Order History 5-55
- Change Order History: Configure Audit Trail 5-56
- Change Order History: Set Attributes 5-57
- Topics 5-58
- Configure New Item Request Type 5-59
- Configure New Item Request Type: Workflow 5-61
- Enable the Automated New Item Request Process 5-63
- New Item Request Number Generation 5-64
- Enable Item Class for NIR 5-65
- Create Definitions 5-66
- Required Definition Values 5-67
- Lesson Summary 5-68

6 Configure Extra Attributes

- Lesson Objectives 6-2
- Topics 6-3
- What are Extra Attributes? 6-4
- Descriptive Flexfields (DFFs) 6-5
- Extensible Flexfields (EFFs) 6-6
- EFF (Attribute Group) Security 6-7
- Global vs Context Sensitive 6-9
- Validators 6-10
- Topics 6-11
- Where To Manage Item Flexfields 6-12
- Extra Attributes (Flexfields) by Setup Task 6-13
- Item Attribute Groups and Attributes (EFFs) 6-14
- Create Item Attribute Groups and Attributes (EFFs) 6-15
- Item Class Pages and Attribute Groups Tab (EFFs) 6-16
- Assign Groups and Attributes for Item Classes (EFFs) 6-17

- Assign Attributes to Product Development Only (EFFs) 6-18
- Deploy Attributes (EFFs) 6-19
- Practice: Adding Item Attributes 6-20
- Practice: Creating a PD Functional Item Page (optional) 6-21
- Practice: Adding Attributes to an Item Class for PD Only (optional) 6-22
- Manage Item Descriptive Flexfields 6-23
- Manage Item Revision Descriptive Flexfields (DFFs) 6-24
- Manage Structure Component Descriptive Flexfields (DFFs) 6-25
- Manage Item Relationship Descriptive Flexfields (DFFs) 6-26
- Topics 6-27
- Extra Attributes (Flexfields) by Setup Task 6-28
- Create Change Order Attribute Groups and Attributes (EFFs) 6-29
- Create Change Order Extensible Flexfields (EFFs) 6-30
- Associate Contexts (Attribute Groups) to a Change Type 6-31
- Change Types and Inheritance 6-32
- Deploy Attributes (EFFs) 6-33
- Permission to Edit Extended Attributes (EFFs) 6-34
- Practice: Adding Change Order Extensible Flexfields 6-35
- Change Order and NIR Contextual Descriptive Flexfields (DFFs) 6-36
- Global vs Contextual Flexfields 6-37
- Change Order and NIR Line (Affected Object) DFFs 6-38
- Add Change Line Descriptive Flexfields to a Context (DFFs) 6-39
- Save the Context Segments to a Value Set 6-40
- Practice: Adding Change Order Descriptive Flexfields 6-41
- Topics 6-42
- Manage Trading Partner Item Descriptive Flexfields (DFFs) 6-43
- Lesson Summary 6-44

7 Product Development Specific Setup

- Lesson Objectives 7-2
- Topics 7-3
- Create Root Document Class 7-4
- Assign Root Document Class 7-5
- Add Document Subclasses 7-6
- Practice: Enabling Document Management 7-7
- Topics 7-8

- View Reports 7-9
- Create a Dashboard 7-10
- Copy Key Information 7-11
- Configure Reports for Product Management Objects 7-12
- View Reports Tutorial Videos 7-13
- Topics 7-14
- Update Product Line 7-15
- Add New Product Lines 7-16
- Topics 7-17
- Manufacturer Parts Overview 7-18
- Lookup: Manufacturer Status 7-19
- Lookup: Manufacturer Part Status 7-20
- Lookups: Approve Manufacturer List Status 7-21
- Practice: Adding a Contextual Descriptive Flexfield for a Manufacturer Part 7-22
- Practice: Creating an Item AML tab Descriptive Flexfield (Optional) 7-23
- Lesson Summary 7-24

8 Product Hub Specific Setup

- Learning Objectives 8-2
- Item Setup Tasks in Product Hub 8-3
- Manage Item Profile Options 8-4
- Manage Advanced Item Profile Options 8-5
- Manage Item Statuses 8-7
- Manage Item Types 8-8
- Define Item Completeness Score 8-9
- Lesson Summary 8-10

9 Product Development Navigation

- Lesson Objectives 9-2
- Topics 9-3
- Business Process 9-4
- Product Development Objects Overview 9-5
- Access Product Development 9-6
- Topics 9-7
- The Product Development Overview Tab 9-8
- Quick Search 9-9

Oracle SCM Cloud: Product Management Implementation

Multiple Items Search	9-10
Tasks Panel Drawer	9-11
Manage Delete Groups	9-12
Manage Objects (Advanced Search)	9-13
Add Fields to Advanced Search	9-14
Compare Search Results	9-15
Audit Results Panel Drawer	9-16

Item Audit Trail	10-50
Practice: Creating Items and Documents	10-51
Practice: Running an Item Audit	10-52
Lesson Summary	10-53

11 Structure Design in Product Development

- Lesson Objectives 11-2
- Topics 11-3
- Manufacturer Parts Overview 11-4
- Manufacturer Objects 11-5
- Manufacturer Tabs 11-6
- Manufacturer Security Tab 11-7
- Create a Manufacturer 11-8
- Create Manufacturer Directly from the AML Tab 11-9
- Create Manufacturers through Import (step 1) 11-10
- Create Manufacturers through Import: CSV File (step 2) 11-11
- Create Manufacturers through Import: Process (step 3) 11-12
- Create Manufacturers through Import: Progress (step 4) 11-13
- Practice: Creating a Manufacturer 11-14
- Topics 11-15
- Manufacturer Part 11-16
- Manufacturer Part: Tabs 11-17
- Manufacturer Part Security 11-18
- Create a Manufacturer Part 11-19
- Assign an Existing Manufacturer Part on a Structure Item 11-20
- View the AML 11-21
- Assign a New Manufacturer Part on a Structure Item 11-22
- Search for Manufacturers by Registry ID 11-23
- Manufacturer Object Statuses 11-24
- Manage Manufacturer Parts with Excel (part 1) 11-25
- Manage Manufacturer Parts with Excel: REST APIs (part 2) 11-26
- Manage Manufacturer Parts with Excel: Using the Add-in (part 3) 11-27
- Practice: Creating a Manufacturer Part 11-28
- Topics 11-29
- Work with Structures 11-30
- Quantity, UOM, and Sequence 11-31
- Expandable Side Panel 11-32
- Add Reference Designators 11-33
- Structure Actions Menu 11-34
- Structure View Menu 11-36
- Create New Item or Document within a Structure 11-37

Duplicate	11-38
Delete Item	11-39
Export to Excel	11-40
Add Existing Items or Documents	11-41
Copy and Paste	11-42
Search Structure	11-43
Compare Structures	11-44
Item Structure Report	11-45
Accessing the Item Structure Report	11-46
Download Attachments from Structure	11-47
Practice: Creating a Structure	11-48
Create a Structure Using Save As	11-49
Copy and Paste a Structure	11-50
Practice: Creating a Structure using Copy and Paste	11-51
Cost Fields	11-52
Cost Rollup	11-53
Lesson Summary	11-54

12 Engineering Change Management in Product Development

Lesson Objectives	12-2
Topics	12-3
Change Management Overview	12-4
Change Type Functions	12-5
Change Process	12-6
Find Changes	12-7
My Changes	12-8
Change Order and Change Request Tabs	12-9

Create a Change Order or Change Request	12-23
Assigned To = Change Analyst	12-24
Actions Menu	12-25
Change Order Details Report	12-27
Practice: Creating a Change Order	12-28
Topics	12-29
Change Control Business Process	12-30
Redlining	12-31
Change the Revision	12-32
Redline Affected Objects	12-33
Redline Affected Object Attributes and Tabs	12-34
Revision Specific Lifecycle Phases	12-35
Modify the Structure	12-36
Add Reference Designators	12-37
Edit Reference Designator Details in Side Panel	12-38
Edit Substitute Components in Side Panel	12-39
Add a Manufacturer Part	12-40
Revision Specific Attachments	12-41
Check Out Attachments	12-42
Fill Actions	12-43
Effective Date	12-44
Undo Structure Redlines for Change Affected Objects	12-45
Undo Redlines for AML on Change Affected Objects	12-46
Resolve Revision Conflicts	12-47
Resolve Revision Conflicts: Scenario	12-48
Cancel Change Line	12-49
Move Change Lines	12-50
Cancel Change Order	12-51
Download Redlined Attachments	12-52
Practice: Redlining a Change Order	12-53
Topics	12-54
Workflow	12-55

- Workflow Status Types (Draft – Approval) 12-56
- Workflow Status Types (Scheduled – Canceled) 12-57
- Interpret Workflows 12-58
- Advance a Change Order 12-59
- Tiles and Notifications 12-60
- Audit a Change Order 12-61
- Add Approvers 12-62
- Approve a Change Order 12-63
- Remove Approvers Without Terminating Workflow 12-64
- Monitor Revision Effective Dates 12-65
- Relate a Change Order to a Project 12-66
- Create a Work Item in a Project 12-67
- Practice: Routing a Change Order 12-68
- Lesson Summary 12-69

13 New Item Requests in Product Development

- Lesson Objectives 13-2
- New Item Request Overview 13-3
- New Item Request (NIR) Process 13-4
- Trigger the NIR Process 13-5
- Access the NIR 13-6
- Access the NIR Definitions 13-7
- Complete a Definition 13-8
- Approve the NIR 13-9
- Video: Use New Item Requests in Product Development 13-10
- Lesson Summary 13-11

14 Product Hub Navigation

- Lesson Objectives 14-2
- Topics 14-3
- Access Product Hub 14-4
- Product Hub Workspace: Infolet Examples 14-5
- Tasks Panel Drawer 14-7
- Search, Clipboard, and Reports Tabs 14-8
- Practice: Navigating Product Hub 14-9
- Topics 14-10

- Search Items and Business Objects in Product Hub 14-11
- Use Regional Area Search 14-12
- Advanced Search 14-14
- Add Fields to Advanced Search 14-15
- Use Local Area Search 14-16
- Browse Item Class and Catalogs 14-18
- Use Global Search 14-19
- Practice: Searching for Items 14-20
- Lesson Summary 14-21

15 Work with Items in Product Hub

- Lesson Objectives 15-2
- Topics 15-3
- Item Terminology: Attributes, Description, Revision 15-4
- Item Terminology: Structures, Catalogs, Packs 15-5
- Item Terminology: Associations and Relationships 15-6
- Topics 15-7
- Create Items 15-8
- Create Multiple Items 15-9
- Create from Copy 15-10
- Edit Items: Main Attributes 15-11
- Edit Items: Unit of Measure 15-13
- Edit Items: Specifications 15-15
- Edit Items: Structures 15-16
- Edit Items: Attachments 15-17
- Edit Items: Associations 15-19
- Edit Items: Categories 15-20
- Functional Catalogs 15-21
- Functional Catalog Triggers 15-22
- Edit Items: Quality Objects 15-23
- Edit Items: History 15-24
- Topics 15-25
- Item Relationships 15-26
- Define Related Item Relationships 15-27
- Define Trading Partner Item Relationships 15-28
- Trading Partner Items and Approved Manufacturer List (AML) 15-30

Define Trading Partner Items	15-31
Create Trading Partners	15-32
Define GTIN Item Relationships	15-33
Define Cross-Reference Relationships	15-34
Define Spoke System Item Relationships	15-35
Practice: Creating Multiple Items	15-36
Topics	15-37
Structure Example	15-38
Structure Definition	15-39
Setup Tasks for Structures	15-40
Define Structure Types	15-41
Item Structures	15-42
Product Structure: Create as New	15-43
Product Structure: Add Components	15-44
Product Structure: Replace Components	15-45
Product Structure: Add Substitute Components	15-48
Product Structure: Reference Designators	15-49
Product Structure: Where Used	15-50
Product Structure: View Summary	15-51
Product Structure: View Change Orders	15-52
Product Structure: Create from Copy	15-53
Product Structure: Create from Common	15-54
How Structures and Components Are Validated	15-55
Practice: Creating a Structure with Existing Items	15-56
Practice: Creating a Structure with New Items	15-57
Topics	15-58
Overview of Packs	15-59
Hierarchy of Packs	15-60
Pack Types	15-61
Pack Type Details	15-62
Item Attribute Rollup	15-64
Create Packs	15-65
Practice: Creating a Pack	15-67
Lesson Summary	15-68

16 Work with New Item Requests

- Objectives 16-2
- Topics 16-3
- Overview of New Item Request 16-4
- Business Benefits of New Item Requests 16-6
- New Item Request Process View 16-7
- User Privileges 16-9
- Topics 16-10
- New Item Request Tasks 16-11
- Create New Item Request 16-12
- Create an NIR from an Item 16-14
- Manage New Item Requests 16-15
- New Item Request: Define Attribute Values 16-17
- Mark Complete 16-19
- New Item Request: Inspect Action Log 16-20
- New Item Request Notifications Summary 16-21
- Practice: Creating New Item Requests 16-23
- Summary 16-24

17 Work with Commercialization Change Orders in Product Hub

- Lesson Objectives 17-2
- Topics 17-3
- Overview of Commercialization Change Orders 17-4
- Change Order Process Overview 17-6
- Item Changes Supported by Change Orders 17-8
- Configure Change Order Type: Propagation Rules 17-10
- Topics 17-12
- Create a Change Order 17-13
- Create a Change Order: Add and Edit Items 17-15
- Create a Change Order: Edit Attributes 17-16
- Create a Change Order: Tasks 17-17
- Create Change Order: Attach Files 17-18
- Change Order: Reviewing the Workflow Summary 17-19
- Relationships Tab 17-20
- Security Tab 17-21
- Propagate the Change Order to Other Organizations 17-22

Propagate 17-23
History 17-24
Change Order: Use Save As to Create a Change Order 17-25
View Changes from Manage Change Orders 17-26
View Change Order: Change Order Report 17-27
Change Order Notifications 17-28
Practice: Creating and Approving a Commercialization Change Order 17-30
Lesson Summary 17-31

18 Create Catalogs

Learning Objectives 18-2
Topics 18-3
What are Catalogs and Categories? 18-4
Example of Catalogs and Categories 18-5
Common Terms for Catalogs 18-6
Types of Catalogs 18-7
Functional Catalogs 18-8
Functional Catalog Triggers 18-9
What You Can Do With Catalog Management ? 18-10
Topics 18-12
Create a Catalog 18-13
Search Catalogs 18-15
View Catalogs 18-17
Add Categories 18-18
Add Categories: Create a New Category 18-19
Edit Catalog Definition 18-20
Edit Category Details 18-21
Add Existing Categories 18-22
Sharing a Category 18-23
Copying a Category 18-24
Practice: Creating Catalogs 18-25
Topics 18-26
Introduction to Catalog Data Security 18-27
How to Enable Catalog Data Security ? 18-28
Enable Data Security 18-29
Catalog Data Security Details 18-31

Example of Category Level Data Grants 18-32

Summary 18-33

19 Mass Update and Product Rules in Product Hub

Learning Objectives 19-2

Topics 19-3

Why might you Need to Mass Update Items? 19-4

Mass Change Types for Items 19-5

How to Perform Mass Changes ? 19-6

Mass Assign Items to Organizations 19-8

Mass Assign Items to Catalog Categories 19-9

Mass Assign Items to Supplier Organizations 19-10

Mass Migrate Items to a Different Item Class 19-11

Mass Create Structures from Common 19-12

Mass Reassign Catalog Categories 19-13

Mass Unassign from Catalog Category 19-14

Edit Item Attributes in a Spreadsheet 19-15

Edit Item Attributes 19-16

Practice: Managing Mass Item Changes 19-17

Topics 19-18

What are Item Rules ? 19-19

What can you do With Item Rules? 19-20

Information About Rules 19-21

Assignment Rule Set 19-22

Validation Rule Set 19-24

Severity of Validation Rules 19-26

Composite Rule Set 19-27

Blending Rule Set 19-28

Topics 19-29

Create Rule Sets 19-30

Add Rules to the Rule Set: Item Rule Details (Validation) 19-31

Add Rules to the Rule Set: Item Rule Details (Assignment) 19-32

Assign Items to Catalogs Using Item Rules 19-33

Assign Catalog Categories Using Variables 19-34

Activate Rule Sets 19-35

Using Rules to Generate Numbers and Descriptions (Assignment) 19-36

Item Rule Syntax 19-37
Practice: Creating Assignment Rules 19-38
Topics 19-39
Analyze Item Rules Impact (Part 1) 19-40
Create a Rule Impact Analysis (Part 2) 19-41
Run the Analysis (Part 3) 19-42
Review the Analysis (Part 4) 19-43
Summary 19-44

20 Audit Trail and Import Data in Product Hub

Learning Objectives 20-2
Topics 20-3
What is Audit Trail? 20-4
How does Audit Trail Functionality Benefit You? 20-5
Audit Trail Terminology 20-6
Overview of Audit History 20-7
Topics 20-8
Setup an Audit Policy 20-9
How to Manage Audit Policy 20-10
Synchronize Audit Policy for New EFFs 20-11
Data Changes Log for Business Objects 20-12
Topics 20-13
Create and Publish Data Audit History 20-14
Create and Publish Data Audit History Report 20-15
What is the Best Practice for Audits ? 20-17
Practice: Managing Audit Policies 20-18
Practice: Creating and Publishing Audit History Reports 20-19
Topics 20-20
Import Data in Product Hub 20-21
Overview of Item Import Process 20-22
Item Import Flow 20-23
Topics 20-24
Steps to Import Item Data 20-25
Define Spoke Systems (Create the Trading Community) 20-26
Manage Spoke System Options 20-27
Create Item Batches 20-28

- What are the Item Batch Types? 20-29
- Edit Item Batch: Import Options 20-30
- Edit Item Batch: Data Quality Options 20-31
- Edit Item Batch: Structure and Pack Options 20-32
- Edit Item Batch: New Item Request Options 20-33
- Edit Item Batch: Change Order Options 20-34
- Load Data in an Item Batch 20-35
- Use Import Maps to Import Item Data 20-36
- Create Import Maps 20-37
- Example Import Map 20-38
- Transform Source Data 20-39
- Manage Item Batches 20-40
- View Item Batch Details 20-41
- In Progress Items 20-42
- In Progress: Data Quality Results 20-43
- Manage Messages and Errors 20-44
- Manage Imported Items 20-45
- Practice: Creating Item Batches 20-46
- Summary 20-47

21 Manage Supplier Products

- Learning Objectives 21-2
- Topics 21-3
- Product Hub Portal: Supplier Product Management 21-4
- Supplier Products Import Process 21-5
- Topics 21-7
- Setup Tasks to Manage Supplier Products 21-8
- Setup Spoke System 21-9
- Setup Default Catalog 21-11
- Setup Catalog Category Mappings 21-12
- Expose Item Extensible Attributes 21-13
- Setup Item Data Security 21-14
- Setup Import Map: Assign import map to supplier 21-15
