1 Oracle Utilities Customer Care and Billing Overview

Objectives	1-2
The System	1-3
Customer Information	1-5
Sales & Marketing	1-6
Device Management	1-7
Field Work	1-8
Meter Reading	1-9
Billing	1-10
Statements	1-11
Rates	1-12
Payments	1-13
Adjustments	1-14
Credit & Collections	1-15
Budgets	1-16
Deposits	1-17
SA Relationships	1-18
Service Credits	1-19
Contract Management	1-20
Loans	1-21
Conservation Programs	1-22
Framework Utilities	1-23
Integration Tools	1-24
Summary	1-25
The System	1-26
The Format of This Class	1-28
The Documentation	1-30
Caveat	1-31
Summary	1-32

2 Control Central and User Interface Standards

Objectives	2-2
Practice 2-1	2-3
The Anatomy Of All Pages	2-4
Control Central	2-6
Control Central Search Facilities	2-7

Invoking Help 2-8
Help: Finding Information 2-9
Find a Customer/Premise 2-10
The Dashboard 2-11
Dashboard + Account Information = 360-Degree View of the Customer 2-12
Portals Versus Fixed Pages 2-14
Portals Have Zones 2-15
Portal Preferences 2-16
New Zones Appear in Account Information 2-17
Dictating Portal Preferences 2-18
The Dashboard Is a Portal Too 2-19
Zone Patterns 2-21
Explorer Zone Layout 2-22
Broadcasting 2-23
Explorer Zones May Have End-User Filters 2-24
Dragging and Dropping 2-25
Work Lists 2-26
Working the List 2-27
Starting Business Processes 2-28
Practice 2-2 2-29
Map Zones 2-31
Section and Element Help 2-32
Explorer Zones Are Configured, Not Programmed 2-34
Special-Purpose Zones 2-36
Special Feature – Timeline Zone 2-37
More Special Feature Zones 2-38
You’ve Seen Several BPA Scripts 2-40
The BPA Menu 2-41
BPA Scripts Are Everywhere 2-42
BPA Scripts Reflect An Organization 2-43
Scripts Are Configured 2-44
Fixed Pages 2-46
Object Maintenance Pages 2-47
Search Pages 2-48
Other Pages 2-49
Some Transactions Use Both Metaphors 2-50
Portal-Based Maintenance is Becoming More Common 2-52
Why Evolve? 2-53
Menu and Admin 2-55
Context Menus 2-56
Context Menu – Opening a Search Page 2-57

Context Menu – Opening a Portal 2-58
Practice 2-3 2-59
Grids 2-61
Scrolls 2-62
Search 2-63
Recap of General Layout 2-65
Recap of Dialogs 2-66
Demo Versus Empty Install 2-68
A Configuration Tools Example 2-69
The Configuration Tools Class 2-70
Summary 2-71
Review Questions 2-72

3 Metadata and Framework Overview

Objectives 3-2
Agenda 3-4
Oracle Utilities Application Framework Overview 3-6
Oracle Utilities Application Framework 3-7
Browser UI Activities 3-8
Web Server Activities 3-9
Web Application Server Breakdown 3-10
Application Server Activities 3-11
Database Server Activities 3-12
Entity Relationship Diagramming (ERD) 3-14
Information Is Stored in Tables, Each Box In An ERD Is a Table 3-15
Color-Coding Highlights the Subsystem Where the Table's Rows are Typically Maintained 3-16
The PowerPoints Use Color-Coding To Group Tables into Logical Subsystems 3-17
We use ERDs To Highlight Important Business Relationships 3-18
Relationships Between Entities Are Highlighted with Arrows Between Boxes 3-19
Dashed Lines Represent Columns on Entities With Predefined "Lookup" Values 3-20
The Table and Field Metadata 3-22
The Application Viewer Is Your Primary Documentation of Tables and Fields 3-23
The Application Viewer Is Generated from Metadata 3-24
Practice 3-1 3-25
No Recurring Groups 3-27
Prime Keys 3-28
Prime and Foreign Keys In The Application Viewer 3-29
Very Little (Almost No) Redundant Data 3-30
Language Tables 3-31
XML Extensions 3-32

MO Definition 3-34
Why MOs? 3-35
MO, Table, Field Metadata 3-36
MOs Are Also In the App Viewer 3-37
MOs Encapsulate Core Business Rules 3-39
Maintenance Objects Versus Business Objects 3-41
A Maintenance Object Has Fields, A Business Object Has Elements 3-42
A BO's Elements Must Physically Reside Somewhere in its MO's Tables 3-43
BOs Encapsulate Core Business Rules 3-44
BOs and SOA 3-45
Older MOs = Object Maintenance Newer MOs = Portal Maintenance 3-46
Plug-in = Algorithm 3-48
An Algorithm Example 3-49
Use a Base Package Plug-In or Write Your Own 3-50
Creating a New Plug-In 3-51
Some Objects Are Preconfigured 3-52
The Application Viewer Also Contains Algorithms 3-53
Practice 3-2 3-54
User-Defined Fields Extend ... 3-56
Many MOs Support Characteristics 3-57
There Are Four Types of Char Types 3-58
Predefined Char Types 3-59
Ad Hoc Characteristic Types 3-60
Foreign Key Reference Characteristic Types 3-61
File Location Characteristic Types 3-62
Characteristic Values Are Effective-Dated on some Entities 3-63
A Char Type Can be Used on Multiple Entities 3-64
Practice 3-3 3-65
Owning Metadata 3-67
Owner Flag ERD 3-68
Owner Flag Is Ubiquitous 3-69
The System Stamps Owner Flag On New Metadata Rows 3-70
Don't Even Think About It 3-71
Practice 3-4 3-72
Web Services Architecture 3-74
XAI / Web Services 3-75
More Web Services Information 3-76
Database and Operating System Security 3-78
Application Services Are Secured 3-79
Application Services Have Valid Actions 3-80
Field-Level Security 3-81

Field-Level Security Overview 3-82
Security Rights Are Cached 3-83
Practice 3-5 3-84
Audit Trails 3-86
Localization Support 3-87
Isolating Implementation-Specific Business Rules 3-88
The Conversion Tool 3-89
Review Questions 3-90

4 Batch Processing

Objectives 4-2
Batch Processes 4-3
Batch Processes Are Documented In the Application Viewer 4-4
What You Can Count On 4-5
Errors 4-6
Parallel Processing 4-8
Optimal Number of Threads 4-9
Parameters 4-10
Batch Processing ERD 4-12
Practice 4-1 4-13
Separate Application Servers 4-15
Submitting Ad Hoc Requests 4-16
Practice – Instructor-Led 4-17
Batch Process Dependencies 4-19
Classic Batch Job Versus Sample and Submit 4-21
Step 1: Identify the Batch Job 4-22
Step 2: Enter the Criteria 4-23
Step 3 (optional): See the Sample 4-24
The Request 4-25
How To 4-26
Some Processes Can Be Viewed as Plug-Ins 4-28
Review Questions 4-29

5 Maintaining Customer Information

Objectives 5-2
Customer Information 5-3
Customer = Person and Account 5-4
Practice 5-1 5-6
Important Person Concepts 5-8
Person ERD 5-9
Person Contacts 5-11

Practice 5-3 5-13
Important Account Concepts 5-15
Account ERD 5-16
Practice 5-2 5-17
Customer Contact: Overview 5-19
Customer Contact ERD 5-20
Practice 5-4 5-21
Customer Contacts Trigger To-Do Entries 5-22
Customer Contacts Trigger Letters 5-23
Letter Images 5-24
Important Premise Concepts 5-26
Premise ERD 5-27
Important Service Point Concepts 5-28
Types of Service Points 5-29
Metered Service Points 5-30
Badged Item-Based Service Points 5-31
Unbadged Item-Based Service Points 5-32
Two Ways to Handle Area Lights: Badged or Unbadged 5-34
Service Point ERD 5-35
Practice 5-5 5-36
Review: Bills Are Sent to Customers 5-38
A Bill Contains Charges for Services 5-39
An Account Must Have a Service Agreement For Every Service That Is Billed 5-40
Some SAs Are Linked to Premises via SPs 5-41
Some SAs Are Not Linked to Premises 5-42
Service Agreement ERD 5-43
Account Security: Overview 5-45
Persons Can Also Be Secured 5-46
Premises Can Also Be Secured 5-47
Data Access Groups and Roles 5-48
An Account's Access Group 5-49
More Account Security Information 5-50
The V Diagram 5-52
Two SAs, Each Linked to a Single SP (A Normal, Single-Family Residence Scenario) 5-53
Two SAs Linked to the Same SP 5-54
One SA linked to Two SPs (To Consolidate Consumption Charges) 5-55
Typical Family Moves 5-56
Non-Utility Customer 5-57
Customers Share One Line, Usage Goes Through One Meter on the Way to Another
Customer 5-58
Corporate Pays For Usage, Operating Units Pay For Transport & Metering 5-59

SA Type and SP Type Control the Valid Relationships 5-60
Most SAs Are Created Via Start Service 5-62
Start Options Control Default Values 5-63
Practice 5-6 5-64
Service Agreement States 5-66
Activating Pending Start SAs 5-67
Important Service-Oriented Concepts Still to Come 5-68
The Alert Zone 5-70
The Control Central Alert Plug-In Spot 5-71
Jurisdictional Rules 5-73
Division = Jurisdiction 5-74
Replicators 5-76
Alternate Names and Addresses 5-77
Address Validation 5-78
Configuring Address Validation 5-79
Address Validation BPA 5-80
Introducing Custom Address Validation Logic 5-81
Account Management 5-83
Account Management Portal – Account Update 5-84
Supported Account Updates 5-85
Supported Service Agreement Updates 5-87
Notification Preferences 5-89
Notification Preferences: Key Relationships 5-90
Notification Preferences Management Process Overview - Enabling Customer Choice 5-91
Push versus Subscription Notification Types 5-92
Push-Based Notifications 5-94
Account – Account Portal: Push Communications Preferences Zone 5-95
Subscription-Based Notifications 5-97
Account – Account Portal: Subscription Communication Preferences Zone 5-98
Account – Persons: Notification Preferences 5-100
Account – Account Portal: Maintaining Contact Details 5-101
Master Configuration 5-103
Practice 5-7 5-104
Review Questions 5-105

6 To Do Lists

Objectives 6-2
Oracle Utilities Customer Care and Billing 6-3
What Is To Do Processing? 6-4
To Do Summary 6-5
To Do List 6-6

To Do Summary Zone 6-7
Practice 6-1 6-8
To Do Type 6-10
Message 6-11
To Do Roles 6-12
Special Message Handling 6-13
Role Assignment 6-14
How Entries Are Created 6-16
Batch Process 6-17
The Creator Supplies Other Attributes 6-18
Filling In The Blanks 6-19
To Do Entry Summary ERD 6-21
Practice 6-2 6-22
Related To Do's 6-24
Related Entries Are Also Shown in the Dashboard 6-25
Related To Do ERD 6-26
Practice 6-3 6-27
To Do Entry Lifecycle 6-29
Forwarding 6-30
Manual Completion 6-31
Batch Processes Can Complete Entries 6-32
To Do Entries Have Logs 6-33
Log Entries 6-34
To Do Search Is Powerful 6-36
Practice 6-4 6-37
Entry Priority 6-39
Priority Assignment 6-40
Priority Updates: Scenario 6-41
Assigning Entries to Users 6-44
On Demand Assignment 6-45
On Demand – How It Works 6-46
Skill-Based Assignment: Overview 6-47
Skill Level ERD 6-49
Skill Level Override for a Specific Message ERD 6-50
Skill-Based Summary 6-51
The Benefits 6-52
Supervisor Push 6-53
Summary of Entries by User 6-54
Supervisor Assignment 6-55
Pick and Choose 6-56
Multi-Use Pages 6-57

Practice 6-5 6-58
To Do Entries May be Routed To an External System 6-60
Configuration to Implement External Routing 6-61
Practice 6-6 6-63
To Do Types Are Documented in the Application Viewer 6-65
What To Do Entries Aren't 6-66
Purging Old Entries 6-67
Review Questions 6-68
Creating New To Do Types 6-70
Introducing a New Type of Entry Involves the Following Steps 6-71
Analysis Example: Account has active SAs, but has no bill cycle 6-73
Example Setup: Account has active SAs, but has no bill cycle 6-75
Example Programming: Account has active SAs, but has no bill cycle 6-76

7a Sales & Marketing

Objectives 7a-2
Sales & Marketing 7a-3
Definitions 7a-4
Practice 7-1 7a-5
What Just Happened? 7a-6
The Order's Campaign Controls Many Things 7a-8
Campaign ERD 7a-9
Practice 7-2 7a-10
A Campaign may have Zero or More Packages. A Campaign's Packages Define what is Sold 7a-12
Package ERD 7a-13
Practice 7-3 7a-14
Business Process Flow Is Flexible 7a-16
Business Process Flow 1 – Upload Prospects from a Marketing Database 7a-17
Business Process Flow 2 – Market to a Pre-Selected Customer Segment 7a-18
Business Process Flow 3 – Ad hoc Upselling to Existing Customers 7a-19
Business Process Flow 4 – Ad hoc Selling to New Customers 7a-20
Business Process Flow 5, 6, 7, 8 – Packages Are Optional 7a-21
An Order's Questions & Misc. Fields 7a-23
All Q&MFs Are Defined on the Campaign 7a-25
Q&MF Responses 7a-26
Q&MF ERD 7a-27
Groups of Columns 7a-28
Practice 7-4 7a-29
Use Case 1: Marketing Surveys 7a-31
Practice 7-5 7a-32

Use Case 2: Setting Up a Customer Prior to Start/Stop 7a-33
Practice 7-6 7a-34
Use Case 3: Setting Up a One-Time Charge 7a-35
Use Case 4: Creating Service Agreements and Service Points 7a-36
There Are Two Types of Eligibility Rules 7a-38
Package Eligibility Rules: Eligibility Groups Contain Criteria 7a-39
Schematic of a Sample Package's Eligibility Rules 7a-40
Eligibility Criteria 7a-42
Another Example 7a-43
Eligibility Criteria ERD 7a-44
Eligibility Group ERD 7a-45
Practice 7-7 7a-46
Campaign versus Package Eligibility Rules 7a-48
Campaign Eligibility Algorithms 7a-50
Campaign State Transition Rules 7a-52
Package State Transition Rules 7a-53
Order State Transition Rules 7a-54
An Order's Questions & Misc. Fields Are Used to Record Information That Isn't Kept in
"Real" Fields on the Order 7a-55
Characteristic-Oriented Q&MFs can Cause Characteristics on Account, Person,
Premise and Order to be Created or Updated 7a-56
Column-Oriented Q&MFs can Cause Fields on Almost any Object to be Created or
Updated 7a-57
The SA Creation Rules Linked to the Package Selected on the Order, Control the SAs
and SPs That Are Created 7a-58
When an Order Is Created, The "V" is Set Up 7a-59
The Sequence of Events at Completion Time 7a-60
Reminder: Your Campaigns Can Do Many Things 7a-62
The Design Process Can Be Challenging 7a-63
Use the Documentation 7a-65
Order Versus Start/Stop 7a-67
The System Automatically Updates an Order's Log When Interesting Things Occur 7a-68
Premise Characteristics 7a-69
Service Point Characteristics 7a-70
To Do Processing 7a-71
Post Completion Processing 7a-72
When Are V Objects Created 7a-73
Review Questions 7a-74

7b Sales & Marketing - Program Management

Objectives 7b-2

... Before We Begin 7b-3
Program Management 7b-5
Primary Functional Components 7b-6
Program Management: Related Tables and Maintenance Objects 7b-7
Similarities: Structure 7b-9
Differences: Inward Versus Outward 7b-10
Differences: Business Objects 7b-11
Program Management: Lead 7b-12
Lead Lifecycle 7b-13
Practice 7-1: Create a Lead 7b-14
Initiative Overview 7b-16
Initiative Hierarchy 7b-17
Program Management: Initiative 7b-18
Initiative Lifecycle 7b-19
Practice 7-2: Explore the Initiative Configuration 7b-20
When to Create Eligibility Rules 7b-22
Eligibility Rules 7b-23
Eligibility Criteria: Example of Criteria for Segmentation 7b-24
Practice 7-3: Explore Eligibility Criteria 7b-25
Lead Events 7b-27
Program Management: Lead Event 7b-28
Lead Event Lifecycle 7b-29
Practice 7-4: Explore Lead Event Type Configuration 7b-30
Practice 7-5: Configure a Lead Event Type 7b-31
Practice 7-6: Configure an Initiative 7b-32
Individuals or Groups 7b-34
Program Management: Representative 7b-35
Third Party Representative 7b-37
Sales Representatives Versus Third Party Representatives 7b-38
Program Management: Representative 7b-39
Practice 7-7: Explore the Sales Representative Configuration 7b-40
Initiative Portal 7b-42
Master Configuration 7b-45
Practice 7-8: Add a Lead to a Customer 7b-46
Summary 7b-47
Review Questions 7b-48

8 Maintaining Meters and Items

Objectives 8-2
Checkpoint 8-3
Review: Service Points Define Services at a Premise 8-4

Review: There are Three Types of Service Points 8-5
Review: Metered Service Points 8-6
A Meter's Registers Measure How Much Was Used 8-7
Every Register Has Many Attributes 8-8
A Register's Attributes Can Change Over Time 8-9
Meter ERD 8-10
There Are Many Ways to Identify a Meter 8-11
Service Types Must Be in Sync ERD 8-12
Practice 8-1 8-13
A Configuration's Registers Are Read 8-15
Subtractive Versus Consumptive Registers 8-16
Meter Read ERD 8-17
Important SP/Meter Installation Concepts 8-19
Meter Installation ERD 8-20
Practice 8-2 8-21
How to Exchange the Meter at an SP 8-23
Remember That There Are Two Types of Item-Oriented SPs 8-25
This Discussion Concerns Badged Items 8-26
When to Use a Badged Item 8-27
Badged Item ERD 8-28
There Are Two Ways to Identify a Badged Item 8-29
Item Replicator 8-30
Important SP/Item Installation Concepts 8-32
Item Installation ERD 8-33
Important Item Exchange Concepts 8-34
Unbadged Items Are an Alternative 8-35
Meter/Item Search Page 8-37
Practice 8-3 8-38
Review Questions 8-39

9a Field Work: Managing Field Work

Objectives 9a-2
Checkpoint 9a-3
Field Activities 9a-4
Field Activity ERD 9a-5
Field Activity State Transition 9a-6
Practice 9-1 9a-7
Operations Areas 9a-9
Dispatch Groups and Representatives 9a-10
Field Service Control Is a Multidimensional Matrix 9a-11
Dispatch Group Assignment Is in a Plug-In 9a-12

Practice 9-2 9a-13
Field Orders Are Premise Oriented Field Activities Are SP Oriented 9a-15
Different Dispatch Groups Result in Different Field Orders 9a-16
Field Orders May Be Assigned a Specific Rep 9a-17
Field Order and Rep ERD 9a-18
Field Order State Transition 9a-19
Capturing Reasons 9a-21
Enabled with a Feature Configuration 9a-22
The Pages Change 9a-23
Reschedule Reason Audits 9a-24
The Group Premise FAs Alternative 9a-26
The Group Premise FAs Page 9a-27
Lowest Common Denominator Dispatch Group 9a-28
Batch Dispatcher 9a-29
Practice 9-3 9a-30
Automatic Field Activity Creation 9a-32
Field Activity Type Profile 9a-34
Field Activity Type Profile is a Multidimensional Matrix 9a-35
FA Type Profile Also Defines Valid FA Types 9a-36
Service-Oriented Field Activities Are Created by a Plug-In 9a-37
When Service-Oriented Activities Are Created 9a-38
You Don't Know About Schedule Read Dates Yet... 9a-39
Not All Automated FA Creations Use FA Type Profiles 9a-41
Dispatching Field Orders 9a-43
Dispatched to Completed 9a-44
Complete Activities, Then Complete Order 9a-45
Completion Algorithms 9a-46
Completion Algorithms ERD 9a-47
Practice 9-4 9a-48
Completion Upload 9a-50
Two Batch Process Are Used To Download Field Orders 9a-52
Process FDS: Create Download Staging 9a-53
Each Download Record Gets Marked with a Batch Control and Run 9a-54
FODL Creates a Flat File 9a-55
FODL Executes an Algorithm to Format the Flat File Information 9a-56
An Aside: Ongoing Instructions and Warnings 9a-57
Metered SAs Need Start Reads to Bill 9a-59
SA Activation Batch Process 9a-60
Metered SA's Need Stop Reads to Final Bill 9a-61
SA Activation Also Handles Pending Stops 9a-62
SA / FA / MR Flow 9a-63

Credit & Collections 9a-64
Practice 9-5 9a-65
Field Activities are for All SP-Related Efforts 9a-67
Review Questions 9a-68

9b Field Work: Appointments

Objectives 9b-2
Appointment Scheduling 9b-3
A Dispatch Group Refresher Before We Start 9b-5
Dispatch Group Assignment ERD 9b-6
Appointment Periods and Appointments 9b-8
Limiting the Number of Appointments 9b-9
Appointment Period Maintenance 9b-10
Updating Appointment Periods 9b-11
Practice 9-1: Creating and Updating Appointment Periods 9b-12
Scheduling An Appointment 9b-14
Default Dispatch Group and Date 9b-15
Available Appointments are Controlled By an Algorithm 9b-16
The Base-Package Available Appointments Algorithm 9b-17
Canceling Appointments 9b-18
Practice 9-2: Scheduling and Cancelling Appointments 9b-19
Penalties 9b-21
Review Questions 9b-22

10a Devices Inventory and Testing: Equipment Management

Objectives 10a-2
Equipment, Meters, and Items Are Installed at a Premise to Regulate and Measure Service 10a-3
There are Two Types of Items 10a-4
Equipment May Be Associated with Meters 10a-5
Equipment May Be Associated with Service Points and Items 10a-6
Preventing Invalid Equipment Linkages 10a-7
Foreshadowing: Equipment Is NOT Billed 10a-8
Generic Equipment 10a-9
Generic Equipment – How To Do It 10a-10
An Installation Service Point Holds Multiple Pieces of Equipment 10a-12
Installation SP ERD 10a-13
Practice 10-1 10a-14
Review Questions 10a-15

10b Devices Inventory and Testing: Device Testing

Objectives 10b-2
Item and Meter Tests 10b-3
Device Test Example 10b-4
Badged Items and Meters Can be Tested 10b-5
Device Test Type Example 10b-6
The Control Tables Are Sophisticated 10b-7
Device Test Lifecycle 10b-8
Practice 10-1 10b-9
Device Tests Occur Because of Field Activities 10b-11
How to Create Device Test Field Activities 10b-12
Test Selection Creates Field Activities Based on an Algorithm 10b-13
Review Questions 10b-14

10c Devices Inventory and Testing: Asset Inventory

Objectives 10c-2
Stock Location Tracking 10c-3
Stock Location 10c-4
Stock Location Characteristics 10c-5
Asset Stock Location History 10c-6
Asset Stock Location History ERD 10c-7
Default Location for SP Removals 10c-8
Manually Changing an Asset's Stock Location 10c-9
Practice 10-1 10c-10
Review Questions 10c-11

11 Meter Reading

Objectives 11-2
There are Many Sources of Meter Reads 11-3
Meter Read ERD 11-4
Meter Read Remarks Can Trigger Other Events 11-6
Consumption Estimation Is in a Plug-In 11-8
Important Estimation Concepts 11-9
How Does MR EST TREND Work? 11-10
An Example: Estimating Consumption for February 11-11
An Example: Estimating Non-Peak Consumption 11-12
An Example: Estimating Peak Consumption 11-13
Trend ERD 11-14
Ensuring a Statistically Significant Sample 11-15
Trend Is Updated in Batch 11-16
High/Low Limits Are Calculated in a Plug-In 11-18

High/Low Check Plug-In 11-19
High/Low Factor ERD 11-20
Failing High/Low and Use on Bill 11-21
Reviewing Readings That Failed High/Low Checks 11-22
Practice 11-1 11-24
Review Questions 11-25

12 Route Management and Field Activity Upload

Objectives 12-2
Important Service Cycle Concepts 12-3
SP Type Controls The Number of Cycles on a Service Point 12-4
Single Service Cycle ERD 12-6
SPs Also Need a Route and Sequence 12-7
Renumbering Service Points in a Route 12-8
Transferring a Route 12-9
Practice 12-1 12-10
Downloading Meter-Read Requests 12-12
When Cycle and Route Frequency Differ 12-13
The Three Download Batch Processes 12-14
Process MSR: Create MR Schedule Routes 12-15
Process MDS: Create Download Staging 12-16
Process MDL: Create Download Flat File 12-17
The Source of the Batch Control 12-18
Summary: Meter Read Download ERD 12-19
Important! The Service Cycle Schedule Is Also Used by Billing 12-20
Practice 12-2 12-21
The Upload Processes 12-23
Process X: Populate Upload Staging 12-24
Process MUP1: Populate Meter Config 12-25
Process MUP2: Create Meter Reads 12-26
Important: The MR Upload Has Other Uses 12-27
Purging Upload Records 12-28
Practice 12-3 12-29
Demo Database Contains a Sample Transaction 12-31
Find a Scheduled Date for a Route Zone 12-32
See Service Points in a Route for a Scheduled Selection Date Zone 12-33
See Register Reads in a Route for a Scheduled Selection Date Zone 12-34
Multiple Service Cycles 12-36
Waste Collection Background Information 12-37
Multi-Service Cycle ERD 12-38
Waste Collection Scenario 1 12-39

Waste Collection Scenario 2	12-41
The Three Download Batch Processes	12-45
Service Route Download ERD	12-46
Field Order Completion Details Can Be Uploaded	12-48
Step Types That Are Supported By the Batch Completion Process	12-49
The Upload Processes	12-50
Process X: Populate Upload Staging	12-51
Processes MUP1 and MUP2: Create Reads	12-52
Process FACOMPL: Complete Field Activities	12-53
Process FACOMPL: Complete Field Activities – Errors	12-54
Purging Upload Records	12-55
Uploading “Generic” Step Types	12-56
Review Questions	12-57

13 Financial Transactions

Objectives	13-2
FTs Determine an Account’s Balance	13-3
Source of FTs	13-4
Bill Segments Create FTs	13-5
Payment Segments Create FTs	13-6
Adjustments Create FTs	13-7
Practice 13-1	13-8
Current Balance Versus Payoff Balance	13-9
Every FT Contains Current Amt and Payoff Amt	13-10
Practice 13-2	13-11
Examples When Current Balance Does Not Equal Payoff Balance	13-12
GL Details	13-15
Examples of FTs Without GL Details	13-16
How Old is the Debt?	13-18
Specific Days are Shown on Several Transactions	13-19
Arrears Date	13-20
Arrears Date is Typically Populated by Billing	13-21
Practice 13-3	13-22
FT Algorithms Control how FTs are Created	13-24
FT Status	13-26
FTs Affect More Than Balances	13-28
Updating the General Ledger	13-30
The the GL Download Processes	13-31
Process GLASSIGN	13-32
Process GLS: Prepare FTs for Download	13-33
Process GLDL: Create Download Flat File	13-34

Practice 13-4 13-36
Overview of Balance Control 13-38
The Balance Control Batch Processes 13-39
Process BCGNEW: Create a New Balance Control Group 13-40
Process BCASSIGN: Assign New FTs a Balance Control Group 13-41
Process BCGSNAP: Insert Balance Control Members And Check Financial Integrity 13-42
Review Questions 13-44

14a Billing

Objectives 14a-2
Checkpoint 14a-3
A Bill Contains Charges for Services 14a-4
An Account Must have a Service Agreement For Every Service that is Billed 14a-5
An SA's SA Type Controls Many Billing Functions 14a-6
Definitions 14a-8
Bill ERD 14a-10
Bill Lifecycle 14a-11
Most Bills are Produced in Batch 14a-13
Bill Cycles 14a-14
Window Billing 14a-15
Other Bill Cycle Schedule Functions 14a-17
How an Account Gets its Bill Cycle 14a-18
If the SP's Meter-Read Cycle Changes 14a-19
Practice 14-1 14a-20
Bill Segment Creation Algorithms 14a-22
Get Consumption is First 14a-24
Bill Segment Consumption Snapshot ERD 14a-25
Creating Estimated Reads 14a-26
Estimating Earlier Than the Schedule Allows 14a-27
Creating Bill Segments by Applying a Rate 14a-28
Rated Bill Segment ERD 14a-29
An Aside: Bill Segments are Snapshots 14a-30
Multiple Bill Segments May Be Created 14a-31
Control Processing Sequence 14a-33
Processing Sequence on SA Type 14a-34
Review: Bill Segments' FTs 14a-36
Practice 14-2 14a-37
Metered SAs are Special 14a-39
Time Period Derivation for Non-Metered Service 14a-40
Use a Bill Period to Derive the End Date 14a-41
Anniversary Date 14a-42

The Default – Current Business Date 14a-43
Preventing Short Bill Segments 14a-44
More to Come 14a-45
Bill Segment Lifecycle 14a-47
Freeze at Bill Completion 14a-48
Classic Errors 14a-50
Bill Segment Errors 14a-51
Bill Segment Remarks 14a-52
Bill Errors 14a-53
Errors After The Window Closes 14a-54
Bill Lifecycle 14a-56
Bill Completion is Intensive 14a-57
SA Type Pre-Completion Algorithms 14a-58
Customer Class Pre-Completion Algorithms 14a-59
Bill Due-Date Calculation ERD 14a-60
LPC Computation – Levying The Charge 14a-61
LPC – Manual Intervention 14a-63
Bill Routings 14a-64
Bill Routing ERD 14a-65
Route Method 14a-66
Four Potential Mailing Addresses ERD 14a-67
An Aside: Reprints 14a-68
Customer Class Bill-Completion Algorithms 14a-69
SA Type Bill-Completion Algorithms 14a-70
Messages can be Linked to a Bill And/Or Bill Segments 14a-71
Messages can be Linked to a Bill and/or Bill Segments 14a-72
Messages with Variables 14a-74
A Bill Summarizes Financial Transactions 14a-75
All New FTs will be Swept onto the Bill 14a-76
Customer Class Post Completion Algorithms 14a-77
Practice 14-3 14a-78
Overriding SQs and Items 14a-80
Review: Bill Routing ERD 14a-82
Postal Routing 14a-83
Marking a Routing Record With a Batch Control and Run 14a-84
Process POSTROUT: Create Download Flat File For Postal Routing 14a-85
Configurable Bill Print Extract 14a-86
Bill Print Extract Record Types 14a-87
How is the XML Extract Constructed? 14a-88
Extending the XML Extract 14a-89
Bill-Print Intercept 14a-90

UI Interlude 14a-92
Bill Summary Differs for Open-Item Customers 14a-93
Bill Segments Differ for Accounts with Many SAs 14a-94
Bill – Bill Segment for Large Accounts 14a-95
Other Places Where Bills Are Displayed 14a-96
Financial Information Dashboard Zone 14a-97
Online Bill Image 14a-98
Bill Info is Constructed by a Plug-In 14a-99
Warning: Demo Portals and Zones Ahead 14a-100
Bill History Zone on Control Central 14a-101
Bill Segment Calc Lines Zone 14a-102
View Bill Zone 14a-103
SA Billing History Portal 14a-104
SP Consumption Summary Portal 14a-106
Practice 14-4 14a-107
Bill Print Groups 14a-109
Bill ERD 14a-110
Bill Segments Produced by Applying a Rate 14a-112
When the Flat File is Created, the Language Tables are Accessed to Download
Language Dependent Values 14a-113
Reopening a Completed Bill 14a-115
Mass Reopen 14a-117
How to Avoid Reopening 14a-118
Freezing and Completing 14a-119
Closing Bills (... Bill Segments, really) 14a-121
Sequential Bill Numbers 14a-123
When Sequential Bill Numbers are Assigned 14a-124
Correction via Cancellation 14a-126
Different Correction Methods 14a-128
The Cancel / Rebill Method 14a-130
Cancel Only 14a-131
Online Cancel / Rebill 14a-132
Mass-Cancel an Entire Batch 14a-133
Automatic Cancel Rebill 14a-134
Automatic Cancel Rebill: An Example 14a-136
Credit Notes 14a-137
Online Credit Note Creation 14a-138
Correction Notes 14a-139
Online Correction Note Creation 14a-140
Bill Segment Remarks 14a-141
Cancellations Prior to Completion 14a-142

Practice 14-5 14a-144
Checkpoint 14a-146
Billable Charges 14a-148
Billable Charges may have Bill Lines 14a-149
A Different Bill Segment Creation Algorithm 14a-150
Billable Charge ERD 14a-151
Billable Charges with Service Quantities 14a-153
Billable Consumption ERD 14a-154
Billable Charge Bill Segment ERD 14a-155
Billable Charge Read Details 14a-157
Billable Charge Read Details ERD 14a-158
Billable-Charge Line Characteristics ERD 14a-160
Billable Charge Templates Save Typing 14a-162
How are Billable Charge Templates Used? 14a-163
Practice 14-6 14a-164
Billable Charge Upload Overview 14a-166
The Upload Processes 14a-167
Process X: Populate Upload Staging 14a-168
Process BCU1: Populate and Validate SA ID and Line Details 14a-170
Process BCU2: Create Billable Charge 14a-171
Purging Upload Records 14a-173
Strict and Wait Options 14a-174
Recurring Charge SAs 14a-176
Recurring Charge Bill Segment ERD 14a-178
More to Come 14a-179
Review Questions 14a-180

14b Billing Part 2: Off-Cycle Bill Generator

Objectives 14b-2
Financial Transactions on Bills 14b-3
Off-Cycle Bill Generator Overview 14b-4
Off-Cycle Bill Generator ERD 14b-5
Off-Cycle Bill Generator Lifecycle 14b-6
Creating the Bill 14b-7
Practice 14-1 The Off-Cycle Bill Generator Business Object 14b-8
Off-Cycle Bill Generator Portal 14b-9
Standard Bill Page 14b-11
Off-Cycle Bill Generator Query Portal 14b-12
How to Access The Off-Cycle Bill Generator Portal 14b-13
How to Create an Off-Cycle Bill Generator 14b-14

Realigned Standard Bill Page Functions 14b-16
Practice 14-2 Creating an Off-Cycle Bill 14b-17
Summary 14b-18

14c Billing Part 3: Usage Requests

Objectives 14c-2
Not Applicable to All Implementations 14c-3
Integration Overview 14c-4
BPEL Orchestrates the Transformation and Load of Payloads Between CCB and MDM 14c-5
Billing Creates Usage Requests 14c-6
MDM Responds with Bill Determinants (or Errors) 14c-7
The Usage Object Generates a Bill Segment 14c-8
Usage Requests Are Not for Meters Only 14c-10
SA Type Controls Everything 14c-11
Get Consumption 14c-12
Scalar Processing Details 14c-15
Interval Processing Details 14c-16
Usage Request Example 14c-17
Bill Segment Creation 14c-18
Practice 14-1 BD-oriented SA Configuration 14c-21
Usage Business Objects 14c-23
Usage ERD 14c-24
Usage Request BO Lifecycle 14c-25
Creating the Outbound Message 14c-30
External Message Configuration 14c-31
Practice 14-2 The Usage Request Business Objects 14c-32
Usage Request Portal (Request) 14c-34
Usage Request Portal (Response) 14c-35
Usage Interval Data Overlay 14c-36
Usage Request Portal (Exceptions) 14c-37
Usage Request Log 14c-38
Standard Bill Segment Page 14c-39
Usage Request Query Portal 14c-41
Practice 14-3 View a Usage Request 14c-42
Corrected Reads 14c-44
Corrected Reads BO 14c-45
Corrected Read BO Lifecycle 14c-46
Corrected Read Portal 14c-47
Cancel/Rebill 14c-49

Navigating to MDM 14c-51
Summary 14c-53
Review Questions 14c-54

15 Managing Statements

Objectives 15-2
Checkpoint 15-3
A Statement Consolidates SA FTs 15-4
Statements Can Also Be Used to Route Different Portions of a Bill to Different Parties 15-5
An SA or Account Can Appear on Many Statements 15-6
A Statement Can be Constructed of FTs from SAs and Accounts 15-8
A Statement Is Constructed from SA Snapshots 15-9
Practice 15-1 15-10
Statement Cycle 15-12
Statement Creation Time Line 15-13
The Statement Creation Process 15-14
Statement Production – Interesting Facts 15-16
Statement Routing 15-17
Online Statement Production 15-18
The Statement Download Process 15-19
Statement Printing – Interesting Facts 15-20
Statement Images 15-21
Practice 15-2 15-22
Review Questions 15-23

16 Rates: Calculation Rule-Base Rates

Objectives 16-2
Checkpoint 16-3
Before We Begin 16-5
Rate 16-6
The Components of a Rate 16-7
Structure of a Rate: Rate Schedule 16-8
Structure of a Rate 16-9
Rate Schedule ERD 16-11
Maintaining Rate Schedules 16-12
Rate Schedule Tree 16-13
SA Rate Schedule ERD (Expanded) 16-14
SA Type Configuration ERD 16-15
A Calculation Rule May Reference a Bill Factor 16-16
Bill Factor ERD 16-17
Summary 16-18

Practice 16-1 16-19
A Calculation Group Contains Rules 16-21
Calculation Group Categories 16-22
Rates Best Practices 16-23
A Rule May Invoke a Calculation Group 16-26
Configuring Calculation Groups 16-27
There Are Many Different Calculation Rules 16-29
Calculation Rule Categories 16-30
Common Calculation Rule Configuration Controlling If and How the Line is Printed 16-31
Common Calculation Rule Configuration Seasonal Charges 16-32
Common Calculation Rule Configuration For Calculation Purposes Only (FCPO) 16-33
Common Calculation Rule Configuration Rounding 16-34
Common Calculation Rule Configuration GL Account 16-35
Common Calculation Rule Configuration Characteristics 16-36
Calculation Rule Category Type 16-38
Logical Cross-Reference 16-39
Base Calculation Rules 16-41
Refresher: Get Consumption Is Done First 16-43
Refresher: Bill Segment Consumption Snapshot ERD 16-44
Calculate Final Reading Converts Measured Consumption 16-45
Calculate Final Reading Values 16-46
Calculate Service Quantity Calculation Rule 16-48
Calculate SQ Rules Calculate other UOMs 16-49
Calculate Service Quantity Rule Examples 16-52
UOM or TOU or SQI or All Three 16-53
Other Calculate SQ Rule Features 16-55
Calculate SQ Rule Summary 16-56
Practice 16-2 16-57
Service Quantity (SQ) Calculation Rule 16-59
Stepped Service Quantity Calculation Rule 16-60
Item Type Charge Calculation Rule 16-61
Flat Charge Calculation Rule 16-62
Apply-To Calculation Rule 16-64
Minimum and Maximum Charge Calculation Rules 16-65
Summary and Simple Summary Calculation Rules 16-66
Reusable Groups of Rules 16-68
Math Calculation Rule 16-69
Math Calc Rule – Example 1 16-70
Math Calc Rule – Example 2 16-72
Eligibility Criteria Control Whether Calculation Rules Are Applied 16-74
Calculation Rule Eligibility Criteria 16-75

Practice 16-3 16-77
Time-of-Use (TOU) Rates 16-79
An Example of TOU Periods 16-81
Time-of-Use Data Volume 16-83
Time-of-Use Maps 16-84
A TOU Map Has TOU Data 16-85
TOU Mapping and Pricing 16-87
TOU Map Type Interval Size 16-90
Fallback and Valid TOU Map Templates 16-92
For More Information 16-93
Refresher: A Calculation Rule May Reference a Bill Factor 16-95
When to Use a Bill Factor 16-96
Bill Factor Configuration 16-99
The Structure of a Bill Factor 16-100
Bill Factor Values are Retrieved During Rate Application 16-101
Team Practice 16-102
Miscellaneous Rate Schedule Features 16-105
Valid Meter Configurations 16-106
A Rate's Frequency Controls Proration of Time-Dependent Prices 16-108
\$10 Flat Charge on a Monthly Frequency 16-109
Other Types of Proration 16-111
Overriding Base-Package Proration 16-113
Disabling Proration 16-114
READ THE DOCUMENTATION 16-115

Rate Check Portal 16-118
Rate Check Input 16-119
Rate Check Output 16-120
Rate Check – Bill Determinants 16-123
Rate Check – Function Scripts 16-124
Sample Function Script 16-125
Start Options and Rates 16-127
Help Creating New Start Options 16-129
Rates and Bill Factors are used in Many Places 16-131
Creating Bill Segments by Applying a Rate 16-132
Enabling Calculation Rule-Based Rates 16-134
Co-Existence of Calculation Rule-Based and Component-Based Rates 16-135
Practice 16-4 16-137
BO Definition 16-139
A BO Exists for every Calc Rule 16-140
Calculation Rule BOs are Simple 16-141

Calc Rule Schemas may be Simple or Complex 16-142
Read the Apply Calc Rule Algorithm Type Description 16-143
Creating New Calculation Rules 16-145
Apply Formula Service 16-146
Apply Formula Service: Inputs and Outputs 16-147
Variables Can Reference Set Functions 16-149
Formulas May Contain More Sophisticated Operators 16-150
Conditional Formulas are Possible 16-151
Conditional Formulas Are Much More Sophisticated 16-152
Review Questions 16-154

17a Payments

Objectives 17a-2
Checkpoint 17a-4
A Payment Is Distributed Among the Account's Services 17a-5
Payment ERD 17a-6
Practice 17-1: Examine a Payment 17a-7
A Payment Event Has Payments and Tenders 17a-9
The Payer Tenders: The Payee's Debt Is Relieved 17a-10
An Event Can Have Many Payers and Payees 17a-11
Payment Event ERD 17a-12
Payment Event, Tender, and Payment Can Have Characteristics ERD 17a-13
Payment Event Allocation 17a-14
Payment Entry (System Default Event Allocation) 17a-15
Default Payment Amount 17a-16
Payment Distribution 17a-18
Payment Distribution Algorithm 17a-19
SA Type's Priority and Debt Age Determine Distribution 17a-20
Payment Distribution Errors 17a-21
Overpayments 17a-22
Keeping Overpayments on Another SA 17a-23
Pay Segment (PS) Type 17a-25
Practice 17-2: Create a Payment for Your Account 17a-26
Payment Event Distribution 17a-28
Another Aspect of Using Distribution Rules 17a-30
Distribution Rule ERD 17a-31
Payment Event Quick Add 17a-32
Distribution Rule Configuration 17a-33
Feature Configuration Must Be Enabled 17a-34
Practice 17-3: Create a payment using a distribution rule 17a-36
Cancellation 17a-38

Cancellation ERD 17a-39
NSF Charges 17a-40
Cancellation Due to NSF ERD 17a-41
NSF Cancellations and Credit Rating 17a-42
NSF Cancellations and Cash-Only Points 17a-43
Cash-Only Warning 17a-44
Transferring a Payment to Another Account 17a-45
Transferring Payments Using Distribution Rules 17a-47
Cash Back 17a-49
Most Events Are Balanced 17a-50
How Do Events Become Unbalanced? 17a-51
Tenders Are Balanced Against an Expected Total 17a-53
Tender Source 17a-54
A Tender Source's Tenders Are Balanced in a Tender Control 17a-55
Tender Control Lifecycle 17a-56
An Example of Two Cash Drawers and Their Tender Controls 17a-57
A User's Default Tender Source Allows the System to Default Tender Control 17a-58
Practice 17-4: Explore the Tender Control 17a-59
Tenders Are Ultimately Deposited 17a-61
Deposit Control Lifecycle 17a-62
An Example of Four Tender Controls Deposited Under a Single Deposit Control 17a-63
Distribution Code 17a-65
Accounts Sign Up for Automatic Payment 17a-67
Practice 17-5: Explore an Account's Auto Pay Options 17a-68
Auto Pay Option Control Tables 17a-69
Auto Pay Creation Control Tables 17a-70
When Are Auto Payments Created? 17a-71
Creation of Auto Payments at Bill Completion 17a-72
Creation of Auto Payments on Extract Date 17a-73
Auto Payment ERD 17a-74
Auto Pays Get Downloaded on Their Extract Date 17a-75
Auto Pay Activation Process 17a-76
Auto Pays Get Downloaded on Their Extract Date 17a-77
Payment Advice 17a-79
Single Euro Payments Area (SEPA) Overview 17a-81
Single Euro Payments Area (SEPA) Direct Debit 17a-82
Single Euro Payments Area (SEPA) Overview 17a-83
Practice 17-6: Explore SEPA Direct Debit Payments 17a-84
SEPA Direct Debit Mandate and Service Tasks 17a-85
Direct Debit Mandate Task Lifecycle 17a-86
SEPA Mandate's Relationship to the Account 17a-87

SEPA Direct Debit Payment Extract: New Batch Control (C1-SDDCE) 17a-88
SEPA Direct Debit Payment Extract: Other Features 17a-89
SEPA Direct Debit Configuration Requirements 17a-90
Practice 17-7: Review the Key Configuration Points 17a-93
Upload Processes 17a-95
Process PUPL Is Sophisticated 17a-98
PUPL Can Post Payments to a Suspense Account 17a-99
Purging Upload Records 17a-100
Upload Processes 17a-102
Payment Event Upload Staging Lifecycle 17a-103
Process C1-PEPL1: Upload Payments (Step 1) 17a-104
Process C1-PEPL2: Upload Payments (Step 2) 17a-106
Process C1-PEPL3: Upload Payments (Step 3) 17a-108
To Dos Instead of Exception Records 17a-109
Review Questions 17a-110

17b Payments Part 2: Credit Card Authorization

Objectives 17b-2
Not Applicable to All Implementations 17b-3
Case Study 17b-4
Payment Event Page Versus Payment Portal 17b-5
Payment Portal 17b-6
Add Payment Dialog Box 17b-7
If the Transaction Is Authorized 17b-8
If the Tender Is Subsequently Canceled 17b-9
Practice 17-1 17b-10
It Is Configurable 17b-12
But First, an External Message Overview 17b-13
Warning: CyberSource Specific Examples Follow 17b-14
Required Step 1: Set Up a Message Sender 17b-15
Required Step 2: Set Up Two Outbound Message Types 17b-16
Required Step 3: Set Up an External System 17b-17
Required Step 4: Set Up a “Dummy” User to Hold Merchant Information 17b-18
Required Step 5: Set Up a Tender Authorization Algorithm 17b-19
Required Step 6 17b-20
Required Configuration Is Complete 17b-21
Virtually Everything About the UI Is Configurable 17b-23
UI Configuration Is Accomplished Via Business Object Options 17b-24
Tender Type-Specific Configuration 17b-25
Adding Card Number Format Validation 17b-26
Performing Additional Events If Denied 17b-27

An Aside: How the UI Map Morphs 17b-28
Not Applicable to all Implementations 17b-30
Add Payment Dialog Box Changes 17b-31
If a Manual Authorization Code Is Entered 17b-32
Set Up Another Option on the Feature Configuration 17b-33
No Review Questions! 17b-34

17c Payments Part 3: Non-CIS Payments

Objectives 17c-2
Not Applicable to All Implementations 17c-3
Financial Example 17c-5
Payment Portal 17c-7
Practice 17-1: Add a non-CIS payment 17c-8
Payment Templates Control What Happens 17c-10
Payment Template Business Object 17c-11
Payment Template Lifecycle 17c-12
Non-CIS Payment ERD 17c-13
Practice 17-2 17c-14
Review Questions 17c-15

17d Payments Part 4: Alternate Currency Payments

Objectives 17d-2
Not Applicable to All Implementations 17d-3
The Payment Portal 17d-4
Alternate Currency Payment: Overview 17d-5
Currency Conversion 17d-6
Currency Conversion: Example 17d-7
Introducing Custom Currency Conversion Logic 17d-9
Practice 17d-1: Alternate Currency Payments Overview 17d-10
Refresher: Managing Cash Drawers 17d-11
Managing Cash Drawers 17d-12
Tender Control Selection 17d-13
Tender Source ERD 17d-15
User Portal 17d-16
Practice 17d-2 17d-17
Key Points 17d-18
Example: Multiple Currency Payments with Cash Back 17d-20
How to Enable Alternate Currency Payments 17d-21
Step 1: Set the Installation Options Flag 17d-22
Step 2: Set Up the Tender Sources 17d-23
Step 3: Set Up the Cashier's User Record 17d-24

Step 4: Set Up the Deposit and Tender Controls 17d-25
Step 5: Define the Currency Exchange Rates 17d-26
Practice 17d-3 17d-27
Summary 17d-28

18a Adjustments Part 1: Adjustment Basics

Objectives 18a-2
Checkpoint 18a-3
You Can Adjust Any Type of Service 18a-4
Adjustment ERD 18a-5
Adjustment FTs Are Swept onto Bills 18a-6
Adjustment Type Controls an Adjustment's Behavior 18a-8
Default Adjustment Amount 18a-9
Calculated Adjustments 18a-10
The Construction of the FT 18a-11
Two Types of Characteristics 18a-12
Bill Print 18a-13
Accounts Payable Interface 18a-14
Practice 18-1: Add an Adjustment 18a-15
Adjustment Lifecycle 18a-17
Additional Logic Can Be Introduced 18a-18
Preventing Incorrect Adjustment Types 18a-20
Practice 18-2 18a-21
Credit Adjustments Relieve Aged Debt 18a-23
Debit Adjustments Increase Aged Debt 18a-24
Practice 18-3 18a-25
MANY Events Can Create an Adjustment 18a-27
Transferring Debt or Credit from One SA to Another 18a-30
Inter- and Intra-Account Transfers 18a-31
Practice 18-4 18a-32
The Upload Processes 18a-34
Process X: Populate Upload Staging 18a-35
Process ADUP1: Validate Staging Controls and Populate SA IDs 18a-36
Process ADUP2 – Create Adjustments 18a-37
Adjustment Staging Control Lifecycle 18a-38
Adjustment Upload Staging Lifecycle 18a-39
Suspense Resolution Is Part of the Upload Processes 18a-41
If a Suspense Adjustment Is Created by the "Determine SA" Plug-In 18a-42
The Resolve Suspense Batch Process 18a-43
If the Suspense Is Resolved by the "Resolve Suspense" Plug-In 18a-44
Review Questions 18a-45

18b Adjustments Part 2: Approval Prior to Freeze

Objectives 18b-2
Some Adjustments Require Approval 18b-3
Multiple Approval Levels Are Supported 18b-4
To Do Entries Can Trigger Email Notification 18b-5
Adjustment: Approval Portal 18b-6
Practice 18-1 18b-7
Addendum: Freeze at Bill Completion 18b-8
Approval Profiles 18b-10
Approval Profile Business Object 18b-11
The Determine Approval Requirements Plug-In Spot 18b-12
Practice 18-2 18b-13
Approval Requests 18b-15
Adjustment Approval Request BO 18b-16
Adjustment Approval Request BO – States 18b-17
Approval Request Timeout and Escalation 18b-18
Adjustment Approval Request BO – Rejection 18b-19
Review Questions 18b-20

19a Monitoring Overdue Debt: Credit and Collections

Objectives 19a-2
Credit and Collections 19a-3
Important Collection Process Concepts 19a-5
Collection Process ERD 19a-6
Practice 19-1 19a-7
Important Collection Event Concepts 19a-8
Collection Process ERD 19a-9
Collection Process Templates Define the Events and When They Will Be Triggered 19a-10
Collection Process Template ERD 19a-11
Three Background Processes Control Everything 19a-13
An Example: Day One – December 1 19a-14
An Example: 15 Days Later – December 16 19a-15
An Example: One Day Later – December 17 19a-16
Collection Event Lifecycle 19a-17
When Is an Account's Debt Reviewed? 19a-18
Review Questions 19a-19
Collection Class Control Defines Debt Thresholds 19a-21
The Definition of Overdue Debt Is Sophisticated 19a-22
Multiple Thresholds Can Be Defined 19a-23
Different Thresholds for Different Customers 19a-24
Different Thresholds for Types of Debt 19a-25

Different Thresholds for Special Criteria 19a-26
Collection Class Control ERD 19a-27
Collection Class ERD 19a-28
Practice 19-2 19a-29
Cancellation of a Collection Process 19a-31
Cancellation at the Debt Class Level OR at the Service Agreement Level 19a-32
Cancellation of a Collection Process 19a-33
Important Severance Process Concepts 19a-36
Important Severance Event Concepts 19a-37
Severance Process ERD 19a-38
Severance Process Templates Control What and When Events Occur 19a-39
Severance Process Template ERD 19a-40
Three Background Processes Activate the Events 19a-42
An Example: Day One – December 18 19a-43
An Example: Day Two – December 19 19a-44
An Example: Day Three – December 20 19a-45
Field Events Versus Office Events 19a-47
Severance Event Lifecycle 19a-48
Review: Automatic Field Activity Creation 19a-49
C&C Field Activities Work Just Like Those Created from Start/Stop 19a-50
Different SA Types Have Different Severance Processes 19a-52
Different Processes for Special Criteria 19a-53
Rather than Severing Everything in Arrears, You Can Nominate a Single SA 19a-54
Severance Criteria ERD 19a-55
Practice 19-3 19a-56
Cancellation of a Severance Process 19a-58
Cancellation Algorithm 19a-60
Review Questions 19a-61
Payment Arrangements Versus Payment Plans 19a-63
Payment Arrangements 19a-65
Payment Arrangements Are Service Agreements 19a-66
Adjustments Are Used to Transfer Delinquent Debt to the PA SA 19a-67
It Is the Transfer Adjustments That Stops the C&C Process 19a-68
SA Type Controls Everything 19a-69
Current and Payoff Balance 19a-70
Automatic Closing 19a-71
Breaking Payment Arrangements 19a-72
Practice 19-4 19a-73
Triggering Stricter Collection Processes After a PA SA Is Broken 19a-74
Pay Plan Overview 19a-76
Pay Plan Tree on Control Central 19a-78

Pay Plan Maintenance 19a-79
Pay Plan Payer ERD 19a-80
When a PP Is Created, the System Attempts to Cancel Collection and Severance Processes 19a-81
The ADM Uses Future Scheduled Payments to Temporarily Reduce Aged Debt 19a-82
The ADM and the Override Debt Age Algorithm ERD 19a-83
The Pay Plan Monitor Keeps and Breaks Pay Plans 19a-84
The Pay Plan Monitor Keeps Pay Plans 19a-85
The PPM Looks for Payment Tendered by the Payer on Behalf of the Payee ERD 19a-86
The Pay Plan Monitor Breaks Pay Plans if Sufficient Payments Are Not Received 19a-87
When a Pay Plan Is Broken, The Account Is Marked for Review by the ADM 19a-88
Optional Break Algorithms ERD 19a-89
Pay Plan and Automatic Payments 19a-90
Miscellaneous Pay Plan Info 19a-91
Alerts and Pay Plans 19a-94
Account Alerts ERD 19a-95
Alert Algorithm ERD 19a-96
Reconnect "Severance" Processes 19a-98
Start Service if Payment Received After SA Expiration 19a-99
Review Questions 19a-100
Writing Off Delinquent Funds 19a-102
Need a New SA to Write Off Debt 19a-103
Write-Off Service Agreements 19a-104
Transferring Debt 19a-105
Current and Payoff Balance 19a-106
SA Type Controls Everything 19a-107
Important Write-Off Process Concepts 19a-109
Write-Off Process ERD 19a-110
Important Write-Off Event Concepts 19a-111
Write-Off Process ERD 19a-112
Write-Off Process Templates Define the Events and when They Will Be Triggered 19a-113
Write-Off Process Template ERD 19a-114
Practice 19-5 19a-115
Review Questions 19a-116
Two Background Processes Control Write-Offs 19a-118
An Example: Day One – January 15 19a-119

Postponement 19a-154
Review Questions 19a-155

19b Monitoring Overdue Debt: Overdue Processing

Objectives 19b-2
Overdue Processing Summary 19b-3
Overdue Processing Is an Alternate Method of Collecting Overdue Debt 19b-4
Collection Class Defines the Collection Method 19b-5
Caveat 19b-6
The Overdue Monitor 19b-8
When Are Accounts Reviewed? 19b-9
What Is an Overdue Monitor Rule? 19b-10
A Sample Overdue Monitor Rule Algorithm 19b-11
Algorithms Are Called in Sequence Order 19b-12
Practice 19-1 19b-13
Overdue Process Introduction 19b-15
An Overdue Rule Creates an Overdue Process 19b-16
Overdue Process ERD 19b-17
Practice 19-2 19b-18
Overdue Process Templates Are Used to Create an Overdue Processes 19b-20
Overdue Process Template Introduction 19b-21
Overdue Processes Reference a Template Overdue Events Reference a Type
ERD 19b-22

Original and Unpaid Amounts 19b-24
Overdue Process Information Can Be Overridden 19b-25
Overdue Processes Are Highlighted in Zones 19b-26
Postponement 19b-28
Champion / Challenger Defined 19b-30
How to Set Up Champion / Challenger 19b-32
Business Intelligence Measures the Results 19b-33
Overdue Event Lifecycle 19b-35
Events Are Activated on Their Trigger Date 19b-36
Event Activation Algorithms ERD 19b-37
There Are Two Ways to Activate Events: Method One 19b-38
There Are Two Ways to Activate Events: Method Two 19b-39
Event Activation Is Logged 19b-40
Temporarily Suspending Activation 19b-41
Some Events Wait for Something Before They Are Triggered 19b-42
How to Configure a Waiting Scenario 19b-43
Waiting Summary 19b-44
Event Cancellation 19b-45
Overdue Event Cancellation Reason 19b-46
Overdue Event Information can be Overridden 19b-47
Practice 19-3 19b-48
Cancellation is Controlled via Algorithms 19b-50
When Is a Process' Cancel Criteria Checked? 19b-51
Manual Cancellation 19b-53
Practice 19-4 19b-54
Check Point 19b-56
A Many-Talented Background Process 19b-57
Plug-In Summary 19b-58
Review Questions 19b-59
Overdue Events Create Cut Processes 19b-61
Cut Process ERD 19b-62
SA Type Cut Rules Control the Type of Cut Process 19b-63
A Many-Talented Background Process 19b-64
Almost Identical Concepts 19b-66
The Differences Are Few 19b-67
Plug-In Summary 19b-68
Review Questions 19b-69
Payment Arrangements 19b-71
Payment Arrangements Are Service Agreements 19b-72
Adjustments Are Used to Transfer Delinquent Debt to the PA SA 19b-73
It's the Transfer Adjustments That Cancel Overdue Processes 19b-74

Practice 19-5 19b-75
Payment Arrangement Configuration 19b-76
Payment Arrangement SA Type 19b-77
Current and Payoff Balance 19b-78
Automatic Closing 19b-79
Breaking Payment Arrangements for Bills 19b-80
Triggering Stricter Collection Processes After a PA SA Is Broken 19b-82
Review Questions 19b-83
Reconnect Field Activities 19b-85
Start Service if Payment Received After SA Expiration 19b-86
Writing Off Bills 19b-88
Writing Off Bills when Service is Already Stopped 19b-90
Collection Agency Referrals Are Created by the System 19b-92
Collection Agency Referral ERD 19b-93
Collection Agency Communication ERD 19b-94
Collection Agency Referral Cancellation 19b-95
Overdue Events Can Write Off Debt 19b-97
The Base-Package Plug-In Is Sophisticated 19b-98
Writing Off Small Amounts of Debt 19b-100
Accumulating Overdue Debt ERD 19b-101
An Example 19b-102
Manual Write Offs And Reversals Happen on Bill - Main 19b-105
Practice 19-6 19b-106
Write Off Visibility 19b-108

20 Budgets

Objectives 20-2
The Business Behind Budgets 20-3
SAs on a Budget Use Recurring Charges 20-4
SA on a Budget ERD 20-5
Practice 20-1 20-6
The Recurring Charge Amount Overrides the Current Amount 20-8
Practice 20-2 20-9
Current Versus Payoff Amounts and Balances 20-10
SA Type - Budget Billing Controls 20-11
A Bill Segment on a Budget Is Identical to one Without a Budget (Except for the FT) 20-12
A Budget Plan Controls Budget Business Rules 20-14
Budget Plan ERD 20-15
Practice 20-3 20-16
Recommend Budget Amount 20-18
Highlighting Budget Anomalies 20-20

Budget True-Ups 20-22
Canceling a Budget 20-24
Canceling a Budget ERD 20-25
Review Questions 20-26

21 Service Requests

Objectives 21-2
There Are a Few Questions Left Unanswered 21-3
Starting Service Review 21-5
SA / FA / MR Flow 21-6
A Background Process Creates Field Activities to Start and Stop Service 21-7
A Background Process Activates Most SAs 21-8
What Happens When an SA Is Activated? 21-10
SP Type References INITIAL SA Types 21-13
Starting Service - Interesting Facts 21-15
What Happens When an SA Is Stopped? 21-17
Practice 21-1: Stop Service 21-19
Start/Stop Flexibility 21-20
Back-To-Back Defined 21-22
One Field Activity for Multiple SAs 21-23
Back-to-Back Assumptions 21-24
Activation of Back-to-Backs 21-25
One Field Activity for Multiple SAs 21-26
Back to Back Service – Interesting Facts 21-27
Practice 21-2 21-28
Landlord Agreements 21-30
Landlord Agreement ERD 21-32
Changing Service Requests 21-34
Changing Service Requests: Customer Calls Back 21-35
Changes on Start / Stop 21-36
Review Questions 21-37

22 Security Deposits

Objectives 22-2
Security Deposits – Overview 22-3
Deposit – SA Type Overview 22-4
SA Type – Contrast Deposit with Elec Res 22-5
Practice 22-1 22-6
Deposit Class Controls Deposit Business Rules 22-8
An SA Type References a Deposit Class 22-9

Deposit Class Controls the Debt Secured by a Deposit (a Customer May Have Many Deposits) 22-10
Deposit Class ERD 22-11
Practice 22-2 22-12
Non-Cash Deposits 22-14
Non-Cash Deposit ERD 22-15
Interest Calculation 22-17
Deposit Interest ERD 22-18
Interest Events 22-19
Recommend Deposit Amount 22-21
Recommended Deposit Amount ERD 22-22
Recommend Deposit 22-24
Recommend a New or Additional Deposit ERD 22-25
Refunding a Deposit 22-27
Deposit Refund ERD 22-28
CSR Refunds 22-29
Refund Checks 22-30
Interesting Deposit Facts 22-32
Review Questions 22-33

23 Loans

Objectives 23-2
Prerequisites 23-3
Why Loan Money? 23-5
An SA Contains a Loan's Terms 23-6
Amortization Schedule 23-7
Amortization Schedule Examples 23-8
A Note about the Payment Amount 23-9
Miscellaneous Functionality 23-10
Short-Term Receivables Versus Long-Term Receivables (Principal) 23-11
Practice 23-1 23-12
Loan Creation 23-15
Loan-Specific SA Type Setup 23-16
Loan-Specific Start Option Setup 23-17
Loan Terms Are Held on a Service Agreement 23-18
Practice 23-2 23-19
Bill Segments 23-21
Loan-Specific Bill Segment Type Setup 23-22
Practice 23-3 23-24
Payments 23-26
Loan-Specific Pay Segment Type Setup (There Isn't Any) 23-27

Overpayments Reduce Principal 23-28
Overpayments – Tidying Up Financial History 23-29
Canceling an Overpayment 23-30
Practice 23-4 23-31
Adjustments 23-33
Practice 23-5 23-34
Credit & Collections 23-36
Loan-Specific Control Tables and Algorithms 23-38
Review Questions 23-39

24 Premise Management

Objectives 24-2
Premise Management 24-3
Premise Management ERD 24-5
Model Complex Hierarchy 24-6
Practice 24-1 24-7
Practice 24-2 24-8
Suggestions for Additional Practices 24-9
Review Questions 24-10

25 Case Management

Objectives 25-2
Case Management 25-3
Case Overview 25-4
Log Entries Are a Combination of System and Manual Entries 25-6
Practice 25-1 25-7
Case Type Controls Everything 25-8
Person / Account / Premise Applicability 25-9
Case Type Controls the Applicability of Person / Account / Premise on a Case 25-10
Contact Information Applicability 25-11
Responsible User 25-12
Additional Fields 25-13
Business Objects Can Be Used 25-14
Access Rights 25-16
Lifecycle Definition 25-19
You Define the Lifecycle of Your Cases 25-20
Case Type Controls the Lifecycle 25-21
Practice 25-2 25-22
Many Status-Specific Business Rules Are Configurable 25-24
Status-Dependent Scripts 25-26
Script-Launching Options 25-27

You Can Restrict User Groups to Specific Statuses 25-28
Status-Specific Business Rules 25-29
Auto-Transition 25-30
Online Auto-Transition 25-31
Creating and Completing To Dos 25-33
Launching a Script when a To Do is Selected 25-34
Practices 25-3 and 25-4 25-35
Base Product Reports 25-37
Review Questions 25-38

26 Reports

Supported Platforms 26-2
An Aside Before We Start 26-3
Where's the Data? 26-7
How Are Reports Requested? 26-9
How Are Reports Viewed? 26-10
What Reports Are Delivered? 26-11
Reporting Concepts 26-13
Metadata for Reports 26-15
BI Publisher Development Process Steps 26-16
Crystal Development Process Steps 26-17
