Restricted Rights Notice

If this documentation is delivered to the United States Government or anyone using the documentation on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software" or "commercial computer software documentation" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

Trademark Notice

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

Third-Party Content, Products, and Services Disclaimer

This documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

On Demand Assignment 2-91

- On Demand – How It Works 2-92
- The Benefits 2-93
- Multi-Use Pages 2-94
- Introducing a New Type of Entry Involves the Following Steps 2-95
- Security 2-96
- Database and Operating System Security 2-97
- Application Services 2-98
- Application Services and Access Modes 2-99
- Linking an Application Service to a User Group 2-100
- Field-Level Security 2-101
- Security Rights Are Cached 2-102
- Summary 2-103

2b Control Central and Customer 360

- Learning Objectives 2b-2
- Practice 2b-1: Log On to Customer Care and Billing 2b-3
- Control Central 2b-4
- Find a Customer and Premise 2b-6
- The Dashboard 2b-7
- Dashboard + Account Information = Complete View of the Customer 2b-8
- Practice 2b-2: Find a Customer and Portal/Zone Introduction 2b-9
- Practice 2b-3: Use Page and Portal Maintenance Dialogs 2b-10
- Customer 360 Portal 2b-11
- Customer 360 Portal Zones 2b-13
- Customer 360 - Program Enrollment Zone 2b-14
- Customer 360 Portal Zones: Customer Insights Zone 2b-15
- Customer 360 Portal Zones: Customer Activity History 2b-16
- Customer 360 Portal Zones: Financial Details 2b-17
- Review Questions 2b-20
- Summary 2b-21

3 Metadata and Framework Overview

- Learning Objectives 3-2
- Agenda 3-3
- Architecture Overview 3-4
- Oracle Utilities Application Framework: Overview 3-5
- Browser User Interface (UI) Activities 3-7
- Web Server Activities 3-8
- Web Application Server Breakdown 3-9
- Application Server Activities 3-10
- Database Server Activities 3-11

Entity Relationship Diagramming Standards	3-12
Entity Relationship Diagramming (ERD)	3-13
Information Is Stored in Tables, Each Box in an ERD Is a Table	3-14
Color-Coding Highlights the Subsystem Where the Table's Rows Are Typically Maintained	3-15
The PowerPoints Use Color-Coding to Group Tables into Logical Subsystems	3-16
We Use ERDs to Highlight Important Business Relationships	3-17
Relationships Between Entities Are Highlighted with Arrows Between Boxes	3-18
Dashed Lines Represent Columns on Entities with Predefined "Lookup" Values	3-19
Common Data Design Patterns	3-20
No Recurring Groups	3-21
Prime Keys	3-22
Very Little (Almost No) Redundant Data	3-23
Language Tables	3-24
XML Extensions	3-25
Maintenance Objects	3-26
Maintenance Object: Definition	3-27
Why Maintenance Objects?	3-28
Maintenance Object, Table, and Field Metadata	3-29
Maintenance Objects	3-30
Maintenance Objects Encapsulate Core Business Rules	3-31
Maintenance Objects Versus Business Objects	3-32
Maintenance Object Has Fields, Business Object Has Elements	3-34
Business Object Elements Must Physically Reside Somewhere in its Maintenance Object's Tables	3-35
Business Objects Encapsulate Core Business Rules	3-36
Business Objects and Service-Oriented Architecture (SOA)	3-37
Older Maintenance Objects = Object Maintenance Newer Maintenance Objects = Portal Maintenance	3-38
Plugin Component = Algorithm = Subroutine	3-39
Plugin = Algorithm	3-40
An Algorithm Example	3-41
Use a Base Package Plugin or Write Your Own	3-42
Creating a New Plugin	3-43
Some Objects Are Preconfigured	3-44
Practice 3-1: Examine an Algorithm	3-45
Characteristic = User-Defined Field	3-46
User-Defined Fields Extend...	3-47
Many Maintenance Objects Support Characteristics	3-48
There Are Four Types of Characteristic Types	3-49

Predefined Characteristic Types	3-50
Ad Hoc Characteristic Types	3-51
Foreign Key (FK) Reference Characteristic Types	3-52
File Location Characteristic Types	3-53
Characteristic Values Are Effective-Dated on Some Entities	3-54
A Characteristic Type Can be Used on Multiple Entities	3-55
Practice 3-2: Examine a Char Type	3-56
Data Ownership	3-57
Owning Metadata	3-58
Owner Flag ERD	3-59
Owner Flag Is Ubiquitous	3-60
The System Stamps Owner Flag on New Metadata Rows	3-61
Don't Even Think About It	3-62
Practice 3-3: Data Ownership	3-63
Web Services	3-64
Web Services Architecture	3-65
Web Services	3-66
More Web Services Information	3-67
Security	3-68
Database and Operating System Security	3-69
Application Services Are Secured	3-70
Application Services Have Valid Actions	3-71
Field-Level Security	3-72
Security Rights Are Cached	3-74
Practice 3-4: Application Security	3-75
Odd and Ends	3-76
Plugin Driven Batch	3-77
Audit Trails	3-78
Localization Support	3-79
Isolating Implementation-Specific Business Rules	3-80
The Conversion Tool	3-81
Review Questions	3-82
Summary	3-83

4 Batch Processing

Learning Objectives	4-2
Batch Processes	4-3
Batch Processes Are Documented In the Application Viewer	4-4
What You Can Count On	4-5
Errors	4-6
Parallel Processing	4-8

Optimal Number of Threads 4-9
Parameters 4-10
Plugin Driven Batch 4-12
Batch Processing ERD 4-13
Practice 4-1: View Results of a Batch Run 4-14
Executing Batch Jobs 4-15
Separate Application Servers 4-16
Submitting Ad Hoc Requests 4-17
Practice – Instructor-Led 4-18
Dependencies Between Batch Jobs 4-19
Batch Process Dependencies 4-20
Sample and Submit 4-21
Classic Batch Job Versus Sample and Submit 4-22
Step 1: Identify the Batch Job 4-23
Step 2: Enter the Criteria 4-24
Step 3 (optional): See the Sample 4-25
The Request 4-26
How To 4-27
Some Batch Jobs Can Be Thought of as Plugins 4-28
Some Processes Can Be Viewed as Plugins 4-29
Review Questions 4-30
Summary 4-31

5 Maintaining Customer Information

Learning Objectives 5-2
Customer Information 5-3
Customer = Person and Account 5-4
Practice 5-1: Find a Customer on Control Central 5-6
Person Concepts 5-7
Important Person Concepts 5-8
Person ERD 5-9
Person Contacts 5-10
Practice 5-2: Add a Person Contact 5-13
Account Concepts 5-14
Important Account Concepts 5-15
Account ERD 5-16
Practice 5-3: Add a Person and Account from Control Central 5-17
Customer Contacts 5-18
Customer Contact: Overview 5-19
Customer Contact ERD 5-20
Practice 5-4: Create a Customer Contact 5-21

Customer Contacts Trigger To-Do Entries 5-22
Customer Contacts Trigger Letters 5-23
Letter Images 5-24
Premise and Service Point 5-25
Important Premise Concepts 5-26
Premise ERD 5-27
Important Service Point Concepts 5-28
Types of Service Points 5-29
Metered Service Points 5-30
Badged Item-Based Service Points 5-31
Unbadged Item-Based Service Points 5-32
Two Ways to Handle Area Lights: Badged or Unbadged 5-34
Service Point ERD 5-35
Practice 5-5: View a Premise and Add a Premise 5-36
Service Agreements 5-37
Review: Bills Are Sent to Customers 5-38
A Bill Contains Charges for Services 5-39
An Account Must Have a Service Agreement for Every Service That Is Billed 5-40
Some SAs Are Linked to Premises via SPs 5-41
Some SAs Are Not Linked to Premises 5-42
Service Agreement ERD 5-43
Account Security 5-44
Account Security: Overview 5-45
Persons Can Also Be Secured 5-46
Premises Can Also Be Secured 5-47
Data Access Groups and Roles 5-48
An Account's Access Group 5-49
More Account Security Information 5-50
The Flexibility of the V 5-51
The V Diagram 5-52
Two SAs, Each Linked to a Single SP 5-53
Two SAs Linked to the Same SP 5-54
One SA linked to Two SPs (To Consolidate Consumption Charges) 5-55
Typical Family Moves 5-56
Non-Utility Customer 5-57
Customers Share One Line, Usage Goes Through One Meter on the Way to Another Customer 5-58
Corporate Pays for Usage, Operating Units Pay for Transport, and Metering 5-59
SA Type and SP Type Control the Valid Relationships 5-60
Starting Service 5-61
Most SAs Are Created Via Start Service 5-62

Start Options Control Default Values 5-63
Practice 5-6: Start Service at Your Premise 5-64
Activating Pending Start SAs 5-65
Service Agreement States 5-66
Activating Pending Start SAs 5-67
Important Service-Oriented Concepts: Still to Come 5-68
Alerts 5-69
The Alert Zone 5-70
The Control Central Alert Plugin Spot 5-71
Jurisdictions 5-72
Jurisdictional Rules 5-73
Division = Jurisdiction 5-74
Other Features 5-75
Replicators 5-76
Alternate Names and Addresses 5-77
Address Validation 5-78
Configuring Address Validation 5-79
Address Validation BPA 5-80
Introducing Custom Address Validation Logic 5-81
Account Management 5-82
Account Management Portal – Account Update 5-84
Supported Account Updates 5-85
Supported Service Agreement Updates 5-87
Notification Preferences 5-88
Notification Preferences: Key Relationships 5-90
Notification Preferences: Management Process Overview - Enabling Customer
Choice 5-91
Push Versus Subscription Notification Types There are two Notification Types: Push
and Subscription. 5-92
Push-Based Notifications 5-93
Account - Account Portal: Push Communications Preferences Zone 5-95
Subscription-Based Notifications 5-96
Account - Account Portal: Subscription Communication Preferences Zone 5-98
Setting Notification Preferences 5-99
Account - Persons: Notification Preferences 5-100
Account - Account Portal: Maintaining Contact Details 5-101
Master Configuration 5-102
Practice 5-7: Investigate a Notification Preference 5-104
Review Questions 5-105
Summary 5-106

6 Maintaining Meters and Items

Learning Objectives 6-2
Checkpoint 6-3
Review: Service Points Define Services at a Premise 6-4
Review: There are Three Types of Service Points 6-5
Review: Metered Service Points 6-6
A Meter's Registers Measure How Much Was Used 6-7
Every Register Has Many Attributes 6-8
A Register's Attributes Can Change Over Time 6-9
Meter ERD 6-10
There Are Many Ways to Identify a Meter 6-11
Service Types Must Be in Sync ERD 6-12
Practice 6-1: Add Meters Using the Meter Replicator 6-13
Meter Reading - Part 1 6-14
A Configuration's Registers Are Read 6-15
Subtractive Versus Consumptive Registers 6-16
Meter Read ERD 6-17
Meter Installation 6-18
Important SP and Meter Installation Concepts 6-19
Meter Installation ERD 6-20
Practice 6-2: Install the New Meters at Your Premise 6-21
Meter Exchange 6-22
How to Exchange the Meter at an SP 6-23
Item Management 6-24
Remember That There Are Two Types of Item-Oriented SPs 6-25
This Discussion Concerns Badged Items 6-26
When to Use a Badged Item 6-27
Badged Item ERD 6-28
There Are Two Ways to Identify a Badged Item 6-29
Item Replicator 6-30
Item Installation 6-31
Important SP and Item Installation Concepts 6-32
Item Installation ERD 6-33
Important Item Exchange Concepts 6-34
Unbadged Items Are Alternatives 6-35
Meter and Item Search 6-36
Meter/Item Search Page 6-37
Practice 6-3: Find Your Meters Using Meter/Item Search 6-38
Review Questions 6-39
Summary 6-40

7a Field Work: Managing Field Work

Preface	7a-2
Learning Objectives	7a-3
Checkpoint	7a-4
Field Activities	7a-5
Field Activity ERD	7a-6
Field Activity State Transition	7a-7
Practice 7a-1: Examine the Field Activities That Were Created Earlier	7a-8
Dispatch Groups and Operations Areas	7a-9
Operations Areas	7a-10
Dispatch Groups and Representatives	7a-11
Field Service Control Is a Multidimensional Matrix	7a-12
Dispatch Group Assignment Is in a Plugin	7a-13
Practice 7a-2: Confirm the Dispatch Group on the Electric Service Point's Field Activities	7a-14
Field Orders and Field Activities	7a-15
Field Orders Are Premise-Oriented, Field Activities Are SP-Oriented	7a-16
Different Dispatch Groups Result in Different Field Orders	7a-17
Field Orders May Be Assigned a Specific Rep	7a-18
Field Order and Rep ERD	7a-19
Field Order State Transition	7a-20
Reschedule and Cancel Reasons	7a-21
Capturing Reasons	7a-22
Enabled with a Feature Configuration	7a-23
The Pages Change	7a-24
Reschedule Reason Audits	7a-25
Group Premise Field Activities	7a-26
The Group Premise FAs Alternative	7a-27
The Group Premise FAs Page	7a-28
Lowest Common Denominator Dispatch Group	7a-29
Batch Dispatcher	7a-30
Practice 7a-3: Use Group Premise FAs to Create a Field Order	7a-31
Most Field Activities Are System Generated	7a-32
Automatic Field Activity Creation	7a-33
Field Activity Type Profile	7a-35
Field Activity Type Profile Is a Multidimensional Matrix	7a-36
FA Type Profile Also Defines Valid FA Types	7a-37
Service-Oriented Field Activities Are Created by a Plugin	7a-38
When Service-Oriented Activities Are Created	7a-39
You Don't Know About Schedule Read Dates Yet...	7a-40
Not All Automated FA Creations Use FA Type Profiles	7a-42

Dispatching and Completing Field Orders 7a-43
Dispatching Field Orders 7a-44
Dispatched to Completed 7a-45
Complete Activities, Then Complete Order 7a-46
Completion Algorithms 7a-47
Completion Algorithms ERD 7a-48
Practice 7a-4: Complete the Activities 7a-49
Field Order Upload 7a-50
Completion Upload 7a-51
Field Order Download 7a-52
Two Batch Process Are Used to Download Field Orders 7a-53
Process FDS: Create Download Staging 7a-54
Each Download Record Gets Marked with a Batch Control and Run 7a-55
Process FODL: Create Download Flat File 7a-56
FODL Executes an Algorithm to Format the Flat File Information 7a-57
An Aside: Ongoing Instructions and Warnings 7a-58
Post Completion Activities 7a-59
Metered SAs Need Start Reads to Bill 7a-60
SA Activation Batch Process 7a-61
Metered SA's Need Stop Reads to Final Bill 7a-62
SA Activation Also Handles Pending Stops 7a-63
SA, FA, and MR Flow 7a-64
Credit & Collection 7a-65
Practice 7a-5: Activate Your Service Agreements 7a-66
Not Just For Meters 7a-67
Field Activities Are for All SP-Related Efforts 7a-68
Review Questions 7a-69
Summary 7a-70

7b Field Work: Appointments

Learning Objectives 7b-2
Appointment Scheduling 7b-3
Dispatch Group Refresher 7b-4
A Dispatch Group Refresher Before We Start 7b-5
Dispatch Group Assignment ERD 7b-6
Appointment Periods and Appointments 7b-7
Limiting the Number of Appointments 7b-9
Appointment Period Maintenance 7b-10
Updating Appointment Periods 7b-11
Practice 7b-1: Create and Update Appointment Periods 7b-12
Scheduling an Appointment 7b-13

Default Dispatch Group and Date 7b-15
Available Appointments Are Controlled By an Algorithm 7b-16
The Base-Package Available Appointments Algorithm 7b-17
Canceling Appointments 7b-18
Practice 7b-2: Schedule and Cancel Appointments 7b-19
Paying a Penalty if an Appointment is Missed 7b-20
Penalties 7b-21
Review Questions 7b-22
Summary 7b-23

8a Devices Inventory and Testing: Equipment Management

Learning Objectives 8a-2
Equipment, Meters, and Items Are Installed at a Premise to Regulate
and Measure Service 8a-3
There are Two (Notional) Types of Items 8a-4
Equipment May Be Associated with Meters 8a-5
Equipment May Be Associated with Service Points and Items 8a-6
Preventing Invalid Equipment Linkages 8a-7
Foreshadowing: Equipment Is NOT Billed 8a-8
Generic Equipment 8a-9
Generic Equipment – How To Do It 8a-10
Installations 8a-11
An Installation Service Point Holds Multiple Pieces of Equipment 8a-12
Installation SP ERD 8a-13
Practice 8a-1: Explore Equipment Linked to a Service Point 8a-14
Review Questions 8a-15
Summary 8a-16

8b Devices Inventory and Testing: Device Testing

Learning Objectives 8b-2
Item and Meter Tests 8b-3
Device Test Example 8b-4
Badged Items and Meters Can be Tested 8b-5
Device Test Type Example 8b-6
The Control Tables Are Sophisticated 8b-7
Device Test Lifecycle 8b-8
Practice 8b-1: Add a Device Test Result for Your Meter 8b-9
Device Testing and Field Activities 8b-10
Device Tests Occur Because of Field Activities 8b-11
How to Create Device Test Field Activities 8b-12
Test Selection Creates Field Activities Based on an Algorithm 8b-13

Review Questions 8b-14

Summary 8b-15

8c Devices Inventory and Testing: Asset Inventory

Learning Objectives 8c-2

Stock Location Tracking 8c-3

Stock Location 8c-4

Stock Location Characteristics 8c-5

Asset Stock Location History 8c-6

Asset Stock Location History ERD 8c-7

Default Location for SP Removals 8c-8

Manually Changing an Asset's Stock Location 8c-9

Practice 8c-1: Review Stock Location and Asset Location History 8c-10

Review Questions 8c-11

Summary 8c-12

9 Meter Reading

Learning Objectives 9-2

There are Many Sources of Meter Reads 9-3

Meter Read ERD 9-4

Meter Read Remarks Can Trigger Other Events 9-6

Trends and Estimated Consumption 9-7

Consumption Estimation Is in a Plugin 9-8

Important Estimation Concepts 9-9

How Does MR EST TREND Work? 9-10

An Example: Estimating Consumption for February 9-11

An Example: Estimating Non-Peak Consumption 9-12

An Example: Estimating Peak Consumption 9-13

Trend ERD 9-14

Ensuring a Statistically Significant Sample 9-15

Trend Is Updated in Batch 9-16

Read Type and High or Low 9-17

High and Low Limits Are Calculated in a Plugin 9-18

High and Low Check Plugin 9-19

High and Low Factor ERD 9-20

Failing High and Low, and Use on Bill 9-21

Reviewing Readings That Failed High and Low Checks 9-22

Practice 9-1: Add a Meter Read 9-24

Review Questions 9-25

Summary 9-26

10 Route Management, Meter Read Upload, and Field Activity Upload

- Learning Objectives 10-2
- Important Service Cycle Concepts 10-3
- SP Type Controls the Number of Cycles on a Service Point 10-4
- Single Service Cycle SPs 10-5
- Single Service Cycle ERD 10-6
- SPs Also Need a Route and Sequence 10-7
- Renumbering Service Points in a Route 10-8
- Transferring a Route 10-9
- Practice 10-1: Examine the Service Cycle and Route on Your SPs 10-10
- Downloading Meter Read Routes 10-11
- Downloading Meter Read Requests 10-12
- When Cycle and Route Frequency Differ 10-13
- The Three Download Batch Processes 10-15
- Process MSR: Create MR Schedule Routes 10-16
- Process MDS: Create Download Staging 10-17
- Process MDL: Create Download Flat File 10-18
- The Source of the Batch Control 10-19
- Summary: Meter Read Download ERD 10-20
- The Service Cycle Schedule Is Also Used by Billing 10-21
- Practice 10-2: Examine Schedule Read Dates 10-22
- Meter-Read Upload Process 10-23
- The Upload Processes 10-24
- Process X: Populate Upload Staging 10-25
- Process MUP1: Populate Meter Config 10-26
- Process MUP2: Create Meter Reads 10-27
- The MR Upload Has Other Uses 10-28
- Purging Upload Records 10-29
- Practice 10-3: Examine a Meter Read Upload Record 10-30
- Another Way to Add Reads 10-31
- Demo Database Contains a Sample Transaction 10-32
- Find a Scheduled Date for a Route Zone 10-33
- See Service Points in a Route for a Scheduled Selection Date Zone 10-34
- See Register Reads in a Route for a Scheduled Selection Date Zone 10-35
- Multi-Cycle Service Points 10-36
- Multiple Service Cycles 10-37
- Waste Collection Background Information 10-38
- Multi-Service Cycle ERD 10-39
- Waste Collection Scenario 1 10-40
- Waste Collection Scenario 2 10-42
- The Three Download Batch Processes 10-46

Service Route Download ERD 10-47
Field Order Upload and Completion 10-48
Field Order Completion Details Can Be Uploaded 10-49
Step Types Supported by the Batch Completion Process 10-50
The Upload Processes 10-51
Process X: Populate Upload Staging 10-52
Processes MUP1 and MUP2: Create Reads 10-53
Process FACOMPL: Complete Field Activities 10-54
Process FACOMPL: Complete Field Activities – Errors 10-55
Purging Upload Records 10-56
Uploading “Generic” Step Types 10-57
Review Questions 10-58
Summary 10-59

13 Financial Transactions

Learning Objectives 13-2
FTs Determine an Account’s Balance 13-3
Source of FTs 13-4
Bill Segments Create FTs 13-5
Payment Segments Create FTs 13-6
Adjustments Create FTs 13-7
Practice 13-1: Explore Mark Brazil’s Financial Transactions 13-8
Current Balance Versus Payoff Balance 13-9
Every FT Contains Current Amt and Payoff Amt 13-10
Practice 13-2: Financial Balances 13-11
Examples When Current Balance Does Not Equal Payoff Balance 13-12
The General Ledger (GL) 13-14
GL Details 13-15
Examples of FTs Without GL Details 13-16
Debt Age 13-17
How Old is the Debt? 13-18
Specific Days are Shown on Several Transactions 13-19
Arrears Date 13-20
Arrears Date is Typically Populated by Billing 13-21
Practice 13-3: Aged Debt 13-22
FT Creation Algorithms 13-23
FT Algorithms Control how FTs are Created 13-24
FT Status 13-25
Important Peripheral Effects 13-27
FTs Affect More Than Balances 13-28
The GL Interface 13-29

Updating the General Ledger 13-30
The GL Download Processes 13-31
Process GLASSIGN 13-32
Process GLS: Prepare FTs for Download 13-33
Process GLDL: Create Download Flat File 13-34
Practice 13-4: View a Financial Transaction 13-36
Balance Control 13-37
Overview of Balance Control 13-38
The Balance Control Batch Processes 13-39
Process BCGNEW: Create a New Balance Control Group 13-40
Process BCASSIGN: Assign New FTs a Balance Control Group 13-41
Process BCGSNAP: Insert Balance Control Members and Check
Financial Integrity 13-42
Review Questions 13-44
Summary 13-45

14aBilling

Learning Objectives 14a-2
Checkpoint 14a-3
A Bill Contains Charges for Services 14a-4
An Account Must Have a Service Agreement for Every Service That Is Billed 14a-5
SA Type Controls Everything 14a-6
What's a Bill? 14a-7
Definitions 14a-8
Bill ERD 14a-10
Bill Lifecycle 14a-11
Bill Cycles Control Batch Billing 14a-12
Most Bills Are Produced in Batch 14a-13
Bill Cycles 14a-14
Window Billing 14a-15
Other Bill Cycle Schedule Functions 14a-17
How an Account Gets its Bill Cycle 14a-18
If the SP's Meter-Read Cycle Changes 14a-19
Practice 14a-1: Examine Your Account's Bill Cycle 14a-20
Bill Segments Are Created by Calling Plugins 14a-21
Bill Segment Creation Algorithms 14a-22
Bill Segments for Consumption-Oriented Services 14a-23
Get Consumption Is First 14a-24
Bill Segment Consumption Snapshot ERD 14a-25
Creating Estimated Reads 14a-26
Estimating Earlier Than the Schedule Allows 14a-27

Creating Bill Segments by Applying a Rate 14a-28
Rated Bill Segment ERD 14a-29
An Aside: Bill Segments Are Snapshots 14a-30
Multiple Bill Segments May Be Created 14a-31
Controlling Bill Segment Creation Order 14a-32
Control Processing Sequence 14a-33
Processing Sequence on SA Type 14a-34
Review: Bill Segment Financial Transactions 14a-35
Review: Bill Segments' FTs 14a-36
Practice 14a-2: Create a Bill for Your Account 14a-37
Bill Segment Start and End Dates 14a-38
Metered SAs Are Special 14a-39
Time Period Derivation for Non-Metered Service 14a-40
Use a Bill Period to Derive the End Date 14a-41
Anniversary Date 14a-42
The Default – Current Business Date 14a-43
Preventing Short Bill Segments 14a-44
More to Come 14a-45
Bill Segment Lifecycle 14a-46
Freeze at Bill Completion 14a-48
Errors 14a-49
Classic Errors 14a-50
Bill Segment Errors 14a-51
Bill Segment Remarks 14a-52
Bill Errors 14a-53
Errors After The Window Closes 14a-54
Prioritize To Do Entries Based on When Bill Cycle Window Is Closing 14a-55
Bill Completion 14a-56
Bill Lifecycle 14a-57
Bill Completion is Intensive 14a-58
SA Type Pre-Completion Algorithms 14a-59
Customer Class Pre-Completion Algorithms 14a-60
Bill Due-Date Calculation ERD 14a-61
LPC Computation – Levying Charges 14a-62
Late Payment Charge – Manual Intervention 14a-64
Bill Routings 14a-65
Bill Routing ERD 14a-66
Route Method 14a-67
Four Potential Mailing Addresses ERD 14a-68
An Aside: Reprints 14a-69
Customer Class Bill-Completion Algorithms 14a-70

SA Type Bill-Completion Algorithms 14a-71
Messages can be Linked to a Bill or Bill Segments 14a-72
Messages with Variables 14a-75
A Bill Summarizes Financial Transactions 14a-76
All New FTs will be Swept onto the Bill 14a-77
Customer Class Post Completion Algorithms 14a-78
Practice 14a-3: Freeze the Bill Segments and Complete the Bill 14a-79
Overriding Billed Consumption 14a-80
Overriding SQs and Items 14a-81
Bill Download 14a-82
Review: Bill Routing ERD 14a-83
Postal Routing 14a-84
Marking a Routing Record with a Batch Control and Run 14a-85
Process POSTROUT: Create Download Flat File for Postal Routing 14a-86
Configurable Bill Print Extract 14a-87
Bill Print Extract Record Types 14a-88
How is the XML Extract Constructed? 14a-89
Extending the XML Extract 14a-90
Bill-Print Intercept 14a-91
Online Bill and Bill Segment Display 14a-92
UI Interlude 14a-93
Bill Summary Differs for Open-Item Customers 14a-94
Bill Segments Differ for Accounts with Many Service Agreements 14a-95
Bill – Bill Segment for Large Accounts 14a-96
Other Places Where Bills Are Displayed 14a-97
Financial Information Dashboard Zone 14a-98
Online Bill Image 14a-99
Bill Info Is Constructed by a Plugin 14a-100
Warning: Demo Portals and Zones Ahead 14a-101
Bill History Zone on Control Central 14a-102
Bill Segment Calc Lines Zone 14a-103
View Bill Zone 14a-104
SA Billing History Portal 14a-105
SP Consumption Summary Portal 14a-107
Practice 14a-4: Examine a Large Bill 14a-108
Bill Print Groups 14a-109
Bill ERD 14a-111
Bills Are Presented in the Customer's Language 14a-112
Bill Segments Produced by Applying a Rate 14a-113
When the Flat File is Created, the Language Tables Are Accessed
to Download Language Dependent Values 14a-114

Reporting a Bill 14a-115
Reopening a Completed Bill 14a-116
Mass Reopen 14a-118
How to Avoid Reopening 14a-119
Freezing and Completing 14a-120
Closing Bills 14a-121
Closing Bills (... Bill Segments, really) 14a-122
Sequential Bill Numbers 14a-123
When Sequential Bill Numbers are Assigned 14a-125
Correcting Bills 14a-126
Correction via Cancellation 14a-127
Different Correction Methods 14a-129
The Cancel/Rebill Method 14a-131
Cancel Only 14a-132
Online Cancel / Rebill 14a-133
Mass-Cancel an Entire Batch 14a-134
Automatic Cancel Rebill 14a-135
Automatic Cancel Rebill: An Example 14a-137
Credit Notes 14a-138
Online Credit Note Creation 14a-139
Correction Notes 14a-140
Online Correction Note Creation 14a-141
Bill Segment Remarks 14a-142
Cancellations Prior to Completion 14a-143
Practice 14a-5: Cancel/Rebill the Electric Bill Segment 14a-145
Other Types of SA Have Other Types of Bill Segment Creation Plugins 14a-146
Checkpoint 14a-147
Billable Charges 14a-148
Billable Charges may have Bill Lines 14a-150
A Different Bill Segment Creation Algorithm 14a-151
Billable Charge ERD 14a-152
Billable Charges with Consumption 14a-153
Billable Charges with Service Quantities 14a-154
Billable Consumption ERD 14a-155
Billable Charge Bill Segment ERD 14a-156
Billable Charge With Read Details 14a-157
Billable Charge Read Details 14a-158
Billable Charge Read Details ERD 14a-159
Billable Charge Line Characteristics 14a-160
Billable-Charge Line Characteristics ERD 14a-161
Billable Charge Templates and Start Options 14a-162

Billable Charge Templates Save Typing 14a-163
How are Billable Charge Templates Used? 14a-164
Practice 14a-6: Add a Billable Charge for Yourself 14a-165
Billable Charge Upload or Billable Consumption Upload 14a-166
Billable Charge Upload Overview 14a-167
The Upload Processes 14a-168
Process X: Populate Upload Staging 14a-169
Process BCU1: Populate and Validate SA ID and Line Details 14a-171
Process BCU2: Create Billable Charge 14a-172
Purging Upload Records 14a-174
Strict and Wait Options 14a-175
Recurring Charge Service Agreements 14a-176
Recurring Charge SAs 14a-177
Recurring Charge Bill Segment ERD 14a-179
More to Come 14a-180
Review Questions 14a-181
Summary 14a-182

14bPart 2: Off Cycle Bill Generator

Learning Objectives 14b-2
Financial Transactions on Bills 14b-3
Off Cycle Bill Generator Overview 14b-4
Off Cycle Bill Generator ERD 14b-5
Off Cycle Bill Generator Lifecycle 14b-6
Creating the Bill 14b-7
Practice 14b-1: Examine the Off Cycle Bill Generator Business Object 14b-8
Off Cycle Bill Generator Portal 14b-9
Standard Bill Page 14b-10
Off Cycle Bill Generator Query Portal 14b-11
How to Access the Off Cycle Bill Generator Portal 14b-12
How to Create an Off-Cycle Bill Generator 14b-13
Realigned Standard Bill Page Functions 14b-15
Practice 14b-2: Create an Off-Cycle Bill 14b-16
Review Questions 14b-17
Summary 14b-18

14cBilling Part 3: Usage Requests

Learning Objectives 14c-2
Not Applicable to All Implementations 14c-3
Integration Overview 14c-4

BPEL Orchestrates the Transformation and Load of Payloads Between
CCB and MDM 14c-5

Billing Creates Usage Requests 14c-6

MDM Responds with Bill Determinants (or Errors) 14c-7

The Usage Object Generates a Bill Segment 14c-8

Billing for Service Agreements That Require Bill Determinants (BD) 14c-9

Usage Requests Are Not for Meters Only 14c-10

SA Type Controls Everything 14c-11

Get Consumption 14c-12

Scalar Processing Details 14c-15

Interval Processing Details 14c-16

Usage Request Example 14c-17

Bill Segment Creation 14c-18

Practice 14c-1: Examine the SA Type Configuration for BD-Oriented SAs 14c-21

Usage Business Objects 14c-22

Usage ERD 14c-24

Usage Request Business Object Lifecycle 14c-25

Creating the Outbound Message 14c-30

External Message Configuration 14c-31

Practice 14c-2: Review the Usage Business Objects 14c-32

User Interface 14c-33

Usage Request Portal (Request) 14c-34

Usage Request Portal (Response) 14c-35

Usage Interval Data Overlay 14c-36

Usage Request Portal (Exceptions) 14c-37

Usage Request Log 14c-38

Standard Bill Segment Page 14c-39

Usage Request Query Portal 14c-41

Practice 14c-3: View a Usage Request 14c-42

Corrected Reads 14c-43

Corrected Reads Business Object 14c-45

Corrected Read Business Object Lifecycle 14c-46

Viewing Corrected Reads 14c-47

Cancel/Rebill 14c-48

Navigating to MDM 14c-50

Review Questions 14c-53

Summary 14c-54

15 Managing Statements

Learning Objectives 15-2

Checkpoint 15-3

A Statement Consolidates SA FTs 15-4
Statements Can Also Be Used to Route Different Portions of a
Bill to Different Parties 15-5
An SA or Account Can Appear on Many Statements 15-6
Persons Receive Statements and Statements Consolidate SA Snapshots 15-7
A Statement Can be Constructed of FTs from SAs and Accounts 15-8
A Statement Is Constructed from SA Snapshots 15-9
Practice 15-1: Michelin Inc's Statement Construct 15-10
Statement Production 15-11
Statement Cycle 15-12
Statement Creation Time Line 15-13
The Statement Creation Process 15-14
Statement Production – Interesting Facts 15-16
Statement Routing 15-17
Online Statement Production 15-18
The Statement Download Process 15-19
Statement Printing – Interesting Facts 15-20
Statement Images 15-21
Practice 15-2: Michelin Inc's Statements 15-22
Review Questions 15-23
Summary 15-24

16 Rates: Calculation Rule-Based Rates

Learning Objectives 16-2
Checkpoint 16-3
The Basics 16-4
Before We Begin 16-5
Rate 16-6
The Components of a Rate 16-7
Structure of a Rate: Rate Schedule 16-8
Structure of a Rate 16-9
Rate Schedule ERD 16-11
Maintaining Rate Schedules 16-12
Rate Schedule Tree 16-13
SA Rate Schedule ERD (Expanded) 16-14
SA Type Configuration ERD 16-15
A Calculation Rule May Reference a Bill Factor 16-16
Bill Factor ERD 16-17
Summary 16-18
Practice 16-1: Explore Your Electric SA's Rate 16-19
Calculation Groups and Calculation Rules 16-20

A Calculation Group Contains Rules 16-21
Calculation Group Categories 16-22
Rates Best Practices 16-23
A Rule May Invoke a Calculation Group 16-26
Configuring Calculation Groups 16-27
Calculation Rules 16-28
There Are Many Different Calculation Rules 16-29
Calculation Rule Categories 16-30
Common Calculation Rule Configuration: Controlling If and How the
Line is Printed 16-31
Common Calculation Rule Configuration: Seasonal Charges 16-32
Common Calculation Rule Configuration: For Calculation Purposes
Only (FCPO) 16-33
Common Calculation Rule Configuration: Rounding 16-34
Common Calculation Rule Configuration: GL Account 16-35
Common Calculation Rule Configuration: Characteristics 16-36
Calculation Rule Category Type 16-37
Logical Cross-Reference 16-39
The Base Product Calculation Rules 16-40
Base Calculation Rules 16-41
Calculation Rules for Consumption 16-42
Refresher: Get Consumption Is Done First 16-43
Refresher: Bill Segment Consumption Snapshot ERD 16-44
Calculate Final Reading Converts Measured Consumption 16-45
Calculate Final Reading Values 16-46
Calculate Service Quantity Calculation Rule 16-48
Calculate SQ Rules Calculate Other UOMs 16-49
Calculate Service Quantity Rule Examples 16-52
UOM or TOU or SQI or All Three 16-53
Other Calculate SQ Rule Features 16-55
Calculate SQ Rule Summary 16-56
Practice 16-2: Examine a Calculation Group 16-57
Rules Used to Calculate Charges 16-58
Service Quantity (SQ) Calculation Rule 16-59
Stepped Service Quantity Calculation Rule 16-60
Item Type Charge Calculation Rule 16-61
Flat Charge Calculation Rule 16-62
Calculation Rules That Depend on Other Rules 16-63
Apply-To Calculation Rule 16-64
Minimum and Maximum Charge Calculation Rules 16-65
Summary and Simple Summary Calculation Rules 16-66

The Other Calculation Rules 16-67
Reusable Groups of Rules 16-68
Math Calculation Rule 16-69
Math Calc Rule – Example 1 16-70
Math Calc Rule – Example 2 16-72
Calculation Rule Eligibility Criteria 16-73
Eligibility Criteria Control Whether Calculation Rules Are Applied 16-74
Calculation Rule Eligibility Criteria 16-75
Practice 16-3: Examine a Few More Calculation Rules 16-77
Mapping Interval Measurements To Time-of-Use Periods 16-78
Time-of-Use (TOU) Rates 16-79
An Example of TOU Periods 16-81
TOU Maps and TOU Data 16-82
Time-of-Use Data Volume 16-83
Time-of-Use Maps 16-84
A TOU Map Has TOU Data 16-85
Calculation Rules for TOU Mapping and Pricing 16-86
TOU Mapping and Pricing 16-87
TOU Map Types 16-89
TOU Map Type Interval Size 16-90
Fallback and Valid TOU Map Templates 16-92
For More Information 16-93
Bill Factors 16-94
Refresher: A Calculation Rule May Reference a Bill Factor 16-95
When to Use a Bill Factor 16-96
Bill Factor Configuration 16-99
The Structure of a Bill Factor 16-100
Bill Factor Values are Retrieved During Rate Application 16-101
Team Practice 16-102
Miscellaneous Rate Schedule Features 16-104
Valid Meter Configurations 16-106
A Rate’s Frequency 16-107
A Rate’s Frequency Controls Proration of Time-Dependent Prices 16-108
\$10 Flat Charge on a Monthly Frequency 16-109
Other Types of Proration 16-110
Overriding Base-Package Proration 16-113
Disabling Proration 16-114
READ THE DOCUMENTATION 16-115
Team Practice 16-116
Rate Check 16-117
Rate Check Portal 16-118

Rate Check Input 16-119
Rate Check Output 16-120
Rate Check – Bill Determinants 16-123
Rate Check – Function Scripts 16-124
Sample Function Script 16-125
Start Options and Rates 16-126
Help Creating New Start Options 16-129
More Than Just Billing 16-130
Rates and Bill Factors Are Used in Many Places 16-131
Creating Bill Segments by Applying a Rate 16-132
Enabling Calculation Rule-Based Rates 16-133
Co-Existence of Calculation Rule-Based and Component-Based Rates 16-135
Practice 16-4: Rate Check 16-137
Business Object Definition 16-138
A Business Object Exists for Every Calc Rule 16-140
Calculation Rule Business Objects Are Simple 16-141
Calc Rule Schemas may be Simple or Complex 16-142
Read the Apply Calc Rule Algorithm Type Description 16-143
Creating New Calculation Rules 16-144
Apply Formula Service 16-146
Apply Formula Service: Inputs and Outputs 16-147
Variables Can Reference Set Functions 16-149
Formulas May Contain More Sophisticated Operators 16-150
Conditional Formulas Are Possible 16-151
Conditional Formulas Are Much More Sophisticated 16-152
Review Questions 16-154
Summary 16-155

17aPart 1: Payments

Learning Objective 17a-2
Checkpoint 17a-3
A Payment Is Distributed Among the Account's Services 17a-4
Payment ERD 17a-5
Practice 17a-1: Examine a Payment 17a-6
Payment Events and Tenders 17a-7
A Payment Event Has Payments and Tenders 17a-8
The Payor Tenders: The Payee's Debt Is Relieved 17a-9
An Event Can Have Many Payors and Payees 17a-10
Payment Event ERD 17a-11
Payment Event, Tender, and Payment Can Have Characteristics ERD 17a-12
Payment Event Allocation 17a-13

Payment Entry (System Default Event Allocation)	17a-14
Default Payment Amount	17a-15
Distributing a Payment Among An Account's Service Agreements	17a-16
Payment Distribution	17a-17
Payment Distribution Algorithm	17a-18
SA Type's Priority and Debt Age Determine Distribution	17a-19
Payment Distribution Errors	17a-20
Overpayments	17a-21
Keeping Overpayments on Another SA	17a-22
Pay Segment (PS) Type	17a-24
Practice 17a-2: Create a Payment for Your Account	17a-25
Making Payments Using Distribution Rules	17a-26
Payment Event Distribution	17a-27
Another Aspect of Using Distribution Rules	17a-29
Distribution Rule ERD	17a-30
Payment Event Quick Add	17a-31
Distribution Rule Configuration	17a-32
Feature Configuration Must Be Enabled	17a-33
Practice 17a-3: Make a Payment by Using a Distribution Rule	17a-34
Canceling and Transferring	17a-35
Cancellation	17a-36
Cancellation ERD	17a-37
NSF Charges	17a-38
Cancellation Due to NSF ERD	17a-39
NSF Cancellations and Credit Rating	17a-40
NSF Cancellations and Cash-Only Points	17a-41
Cash-Only Warning	17a-42
Transferring a Payment to Another Account	17a-43
Transferring Payments Using Distribution Rules	17a-45
Unbalanced Events and Cash Back	17a-46
Cash Back	17a-47
Most Events Are Balanced	17a-48
How Do Events Become Unbalanced?	17a-49
Tender Management and Workstation Cashiering	17a-50
Tenders Are Balanced Against an Expected Total	17a-51
Tender Source	17a-52
A Tender Source's Tenders Are Balanced in a Tender Control	17a-53
Tender Control Lifecycle	17a-54
An Example of Two Cash Drawers and Their Tender Controls	17a-55
A User's Default Tender Source Allows the System to Default Tender Control	17a-56

Practice 17a-4: Explore the Tender Control 17a-57
Deposit Control 17a-58
Tenders Are Ultimately Deposited 17a-59
Deposit Control Lifecycle 17a-60
An Example of Four Tender Controls Deposited Under a Single
Deposit Control 17a-61
General Ledger Distribution Code 17a-62
Distribution Code 17a-63
Automatic Payment 17a-64
Accounts Sign Up for Automatic Payment 17a-65
Practice 17a-5: Explore an Account's Auto Pay Options 17a-66
Auto Pay Option Control Tables 17a-67
Auto Pay Creation Control Tables 17a-68
When Are Auto Payments Created? 17a-69
Creation of Auto Payments at Bill Completion 17a-70
Creation of Auto Payments on Extract Date 17a-71
Auto Payment ERD 17a-72
Auto Pays Get Downloaded on Their Extract Date 17a-73
Auto Pay Activation Process 17a-75
Auto Pays Get Downloaded on Their Extract Date 17a-76
Payment Advice Versus Automatic Payment 17a-77
Payment Advice 17a-78
Single Euro Payments Area (SEPA) Direct Debit Payments 17a-79
Single Euro Payments Area (SEPA) Overview 17a-80
Single Euro Payments Area (SEPA) Direct Debit 17a-81
Single Euro Payments Area (SEPA) Overview 17a-82
Practice 17a-6: Explore SEPA Direct Debit Payments 17a-83
SEPA Direct Debit Mandate and Service Tasks 17a-84
Direct Debit Mandate Task Lifecycle 17a-85
SEPA Mandate's Relationship to the Account 17a-86
SEPA Direct Debit Payment Extract: New Batch Control (C1-SDDCE) 17a-87
SEPA Direct Debit Payment Extract: Other Features 17a-88
SEPA Direct Debit Configuration Requirements 17a-89
Practice 17a-7: Review the Key Configuration Points For SEPA Direct Debit
Payments 17a-92
Payment Upload (Standard) 17a-93
Upload Processes 17a-94
Process PUPL Is Sophisticated 17a-97
PUPL Can Post Payments to a Suspense Account 17a-98
Purging Upload Records 17a-99
Payment Upload (Using Distribution Rules) 17a-100

Upload Processes 17a-101
Payment Event Upload Staging Lifecycle 17a-102
Process C1-PEPL1: Upload Payments (Step 1) 17a-103
Process C1-PEPL2: Upload Payments (Step 2) 17a-105
Process C1-PEPL3: Upload Payments (Step 3) 17a-107
To Do Entries Instead of Exception Records 17a-108
Review Questions 17a-109
Summary 17a-110

17bPart 2: Credit Card Authorization (For On-Premise Implementations)

Not Applicable to All Implementations 17b-2
Case Study 17b-3
Payment Event Page Versus Payment Portal 17b-4
Payment Portal 17b-5
Add Payment Dialog Box 17b-6
If the Transaction Is Authorized 17b-7
If the Tender Is Subsequently Canceled 17b-8
Configuring Credit Card Authorization 17b-9
It Is Configurable 17b-10
Warning: CyberSource Specific Examples Follow 17b-11
Required Step 1: Set Up a Message Sender 17b-12
Required Step 2: Set Up Two Outbound Message Types 17b-13
Required Step 3: Set Up an External System 17b-14
Required Step 4: Set Up a “Dummy” User to Hold Merchant Information 17b-15
Required Step 5: Set Up a Tender Authorization Algorithm 17b-16
Required Step 6 17b-17
Required Configuration Is Complete 17b-18
Optional Configuration 17b-19
Configuring the User Interface 17b-20
UI Configuration Is Accomplished Via Business Object Options 17b-21
Tender Type-Specific Configuration 17b-22
Adding Card Number Format Validation 17b-23
Performing Additional Events If Denied 17b-24
An Aside: How the UI Map Morphs 17b-25
Optional Configuration If Manual Authorization Is Allowed 17b-26
Not Applicable to all Implementations 17b-27
Add Payment Dialog Box Changes 17b-28
If a Manual Authorization Code Is Entered 17b-29
Set Up Another Option on the Feature Configuration 17b-30
Review 17b-31
Summary 17b-32

17cPart 3:Non-CIS Payments

Learning Objectives 17c-2
Not Applicable to All Implementations 17c-3
Financial Example 17c-5
Payment Portal 17c-7
Practice 17c-1: Add a Non-CIS Payment 17c-8
Payment Templates 17c-9
Payment Templates Control What Happens 17c-10
Payment Template Business Object 17c-11
Payment Template Lifecycle 17c-12
Non-CIS Payment ERD 17c-13
Practice 17c-2: Examine Payment Templates 17c-14
Review Questions 17c-15
Summary 17c-16

17dPart 4: Alternate Currency Payments

Learning Objectives 17d-2
Not Applicable to All Implementations 17d-3
The Payment Portal 17d-4
Alternate Currency Payment: Overview 17d-5
Currency Conversion 17d-6
Currency Conversion: Example 17d-7
Introducing Custom Currency Conversion Logic 17d-9
Practice 17d-1: Alternate Currency Payments Overview 17d-10
Refresher: Managing Cash Drawers 17d-11
Managing Cash Drawers 17d-12
Tender Control Selection 17d-13
Tender Source ERD 17d-15
User Portal 17d-16
Practice 17d-2: Managing Cash Drawers 17d-17
Key Points 17d-18
Example: Multiple Currency Payments with Cash Back 17d-19
How to Enable Alternate Currency Payments 17d-20
Step 1: Set the Installation Options Flag 17d-21
Step 2: Set Up the Tender Sources 17d-22
Step 3: Set Up the Cashier's User Record 17d-23
Step 4: Set Up the Deposit and Tender Controls 17d-24
Step 5: Define the Currency Exchange Rates 17d-25
Practice 17d-3: Creating Payments in Alternate Currencies 17d-26
Review 17d-27
Summary 17d-28

18a Adjustments: Part 1 – Basics

- Learning Objectives 18a-2
- Checkpoint 18a-3
- You Can Adjust Any Type of Service 18a-4
- Adjustment ERD 18a-5
- Adjustment FTs Are Swept onto Bills 18a-6
- Adjustment Type 18a-7
- Adjustment Type Controls an Adjustment's Behavior 18a-8
- Default Adjustment Amount 18a-9
- Calculated Adjustments 18a-10
- The Construction of the FT 18a-11
- Two Types of Characteristics 18a-12
- Bill Print 18a-13
- Accounts Payable Interface 18a-14
- Practice 18a-1: Add an Adjustment 18a-15
- Adjustment Lifecycle 18a-16
- Additional Logic Can Be Introduced 18a-18
- Adjustment Profiles 18a-19
- Preventing Incorrect Adjustment Types 18a-20
- Practice 18a-2: Examine the Adjustment Types That Can Be Issued Against Your Electric SA 18a-21
- Adjustments and Aged Debt 18a-22
- Credit Adjustments Relieve Aged Debt 18a-23
- Debit Adjustments Increase Aged Debt 18a-24
- Practice 18a-3: Start Aging the Adjustment Immediately 18a-25
- Many Adjustments Are Created Behind the Scenes 18a-26
- Many Events Can Create an Adjustment 18a-27
- Transfer Adjustments 18a-29
- Transferring Debt or Credit from One SA to Another 18a-30
- Inter-Account and Intra-Account Transfers 18a-31
- Practice 18a-4: Transfer Debt 18a-32
- Adjustment Upload Process 18a-33
- The Upload Processes 18a-34
- Process X: Populate Upload Staging 18a-35
- Process ADUP1: Validate Staging Controls and Populate SA IDs 18a-36
- Process ADUP2: Create Adjustments 18a-37
- Adjustment Staging Control Lifecycle 18a-38
- Adjustment Upload Staging Lifecycle 18a-39
- Adjustment Upload Process – Suspense Adjustments 18a-40
- Suspense Resolution Is Part of the Upload Processes 18a-41
- If a Suspense Adjustment Is Created by the “Determine SA” Plugin 18a-42

The Resolve Suspense Batch Process 18a-43
If the Suspense Is Resolved by the “Resolve Suspense” Plugin 18a-44
Review Questions 18a-45
Summary 18a-46

18b Adjustments: Part 2 – Approval Prior to Freeze

Learning Objectives 18b-2
Some Adjustments Require Approval 18b-3
Multiple Approval Levels Are Supported 18b-4
To Do Entries Can Trigger Email Notification 18b-5
Adjustment: Approval Portal 18b-6
Practice 18b-1: Add an Adjustment 18b-7
Addendum: Freeze at Bill Completion 18b-8
Approval Profiles 18b-9
Approval Profile Business Object 18b-11
The Determine Approval Requirements Plugin Spot 18b-12
Practice 18b-2: Examine Approval Profiles 18b-13
Approval Requests 18b-14
Adjustment Approval Request Business Object 18b-16
Adjustment Approval Request Business Object – States 18b-17
Approval Request Timeout and Escalation 18b-18
Adjustment Approval Request Business Object – Rejection 18b-19
Review Questions 18b-20
Summary 18b-21

19a Monitoring Overdue Debt: Credit and Collections

Learning Objectives 19a-2
Credit & Collection 19a-3
Credit & Collection Versus Overdue Processing 19a-4
Collection Process and Collection Events: Overview 19a-5
Important Collection Process Concepts 19a-6
Collection Process ERD 19a-7
Practice 19a-1: Examine a Collection Process 19a-8
Important Collection Event Concepts 19a-9
Collection Process ERD 19a-10
Collection Process Template 19a-11
Collection Process Template ERD 19a-12
Background Processes for the Collection Process 19a-13
Overview: Three Background Processes Control Everything 19a-14
An Example: Day 1 – Feb 4 19a-15
An Example: Day 16 – Feb 19 19a-16

An Example: Day 17 – Feb 20 19a-17
Collection Event Lifecycle 19a-18
When Is an Account's Debt Reviewed? 19a-19
Restrict Collections by CIS Division 19a-20
Restrict the Collection Processes by CIS Division 19a-21
Updated: Background Processes Control Everything 19a-22
Review Questions 19a-23
Collection Class Control Defines Intolerable Levels of Debt 19a-24
Collection Class Control Defines Debt Thresholds 19a-25
The Definition of Overdue Debt Is Sophisticated 19a-26
Multiple Thresholds Can Be Defined 19a-27
Different Thresholds for Different Customers 19a-28
Different Thresholds for Types of Debt 19a-29
Different Thresholds for Special Criteria 19a-30
Collection Class Control ERD 19a-31
Collection Class Defines the Collection Method 19a-32
Practice 19a-2: Examine Collection Class Controls 19a-33
Automatic Cancellation of Collection Processes 19a-34
Cancellation of a Collection Process 19a-35
Cancellation at the Debt Class Level or Service Agreement Level 19a-36
Cancellation of a Collection Process 19a-37
Severance Process: Overview 19a-39
Important Severance Process Concepts 19a-40
Important Severance Event Concepts 19a-41
Severance Process ERD 19a-42
Severance Process Template 19a-43
Severance Process Template ERD 19a-44
Background Processes for the Severance Process 19a-45
Three Background Processes Activate the Events 19a-46
An Example: Day 1 – May 15 19a-47
An Example: Day 2 – May 16 19a-48
An Example: Day 3 – May 17 19a-49
Field Events Versus Office Events 19a-50
Severance Event Lifecycle 19a-52
Review: Automatic Field Activity Creation 19a-53
C&C Field Activities Work Just Like Those Created From Start/Stop 19a-54
Severance Criteria 19a-55
Different SA Types Have Different Severance Processes 19a-56
Different Processes for Special Criteria 19a-57
Rather Than Severing Everything in Arrears, You Can Nominate
a Single SA 19a-58

Severance Criteria ERD 19a-59
Practice 19a-3: Examine Severance Criteria and Processes 19a-60
Automatic Cancellation of Severance Processes 19a-61
Cancellation of a Severance Process 19a-62
Cancellation Algorithm 19a-64
Review Questions 19a-65
Payment Arrangements and Pay Plans 19a-66
Payment Arrangements Versus Payment Plans 19a-67
Payment Arrangements (Current Bill Plus) 19a-68
Payment Arrangements 19a-69
Payment Arrangement Request 19a-70
Payment Agreement on Control Central 19a-71
Payment Arrangement Request Eligibility 19a-72
Payment Arrangement Request Terms 19a-73
Review and Submit 19a-74
Payment Arrangement Request Type 19a-75
Lifecycle of a Payment Arrangement Request 19a-77
Payment Arrangements Are Service Agreements 19a-79
Adjustments Are Used to Transfer Delinquent Debt to a PA SA 19a-80
It Is the Transfer Adjustments That Stops the C&C Process 19a-81
Service Agreement Type Attributes 19a-82
Current and Payoff Balance 19a-83
Automatic Closing 19a-84
Breaking Payment Arrangements 19a-85
Practice 19a-4: View Payment Arrangement Creation 19a-86
Triggering Stricter Collection Processes After a PA SA Is Broken 19a-87
Pay Plans 19a-88
Pay Plan: Overview 19a-89
Pay Plan Tree on Control Central 19a-91
Pay Plan Maintenance 19a-92
Pay Plan Payer ERD 19a-93
When a PP Is Created, the System Attempts to Cancel Collection
and Severance Processes 19a-94
The ADM Uses Future Scheduled Payments to Temporarily Reduce
Aged Debt 19a-95
The ADM and the Override Debt Age Algorithm ERD 19a-96
The Pay Plan Monitor Keeps and Breaks Pay Plans 19a-97
The Pay Plan Monitor Keeps Pay Plans 19a-98
The PPM Looks for Payment Tendered by the Payer on Behalf of the
Payee ERD 19a-99
The PPM Breaks Pay Plans If Sufficient Payments Are Not Received 19a-100

When a Pay Plan Is Broken, the ADM Marks the Account for Review 19a-101
Optional Break Algorithms ERD 19a-102
Pay Plan and Automatic Payments 19a-103
Miscellaneous Pay Plan Info 19a-104
Practice 19a-5: View Pay Plan Creation 19a-106
Pay Plans and Alerts 19a-107
Alerts and Pay Plans 19a-108
Account Alerts ERD 19a-109
Alert Algorithm ERD 19a-110
Reconnects 19a-111
Reconnect “Severance” Processes 19a-112
Start Service if Payment Received After SA Expiration 19a-113
Review Questions 19a-114
Write Off Service Agreements 19a-115
Writing Off Delinquent Funds 19a-116
Need a New SA to Write Off Debt 19a-117
Write-Off Service Agreements 19a-118
Transferring Debt 19a-119
Current and Payoff Balance 19a-120
Service Agreement Type Attributes 19a-121
Write-Off Processes and Events 19a-122
Important Write-Off Process Concepts 19a-123
Write-Off Process ERD 19a-124
Important Write-Off Event Concepts 19a-125
Write-Off Event Process ERD 19a-126
Write-Off Process Template 19a-127
Write-Off Process Template ERD 19a-128
Practice 19a-6: Examine a Write-Off Process Template 19a-129
Review Questions 19a-130
Automating Write-Off Process 19a-131
Two Background Processes Control Write-Offs 19a-132
An Example: Day 1 – July 15 19a-133
An Example: Day 15 – July 29 19a-134
Write Off Event Lifecycle 19a-135
When Is an SA Reviewed by the Write-Off Processor? 19a-136
Write-Off Control Contains the Business Rules Used by the Write

Premise Management 24-3
Premise Management ERD 24-5
Model Complex Hierarchy 24-6
Practice 24-1: View Premise Management Relationships 24-7
Practice 24-2: Use Premise Management 24-8
Suggestions for Additional Practices 24-9
Review Questions 24-10
Summary 24-11

25 Case Management

Learning Objectives 25-2
Case Management 25-3
Case: Overview 25-4
Log Entries Are Combinations of System and Manual Entries 25-6
Practice 25-1: Review and Add a Case 25-7
Case Type Controls Everything 25-8
Person, Account, and Premise Applicability 25-9
Case Type Controls the Person, Account, and Premise Applicability
on a Case 25-10
Contact Information Applicability 25-11
Responsible User 25-12
Additional Fields 25-13
Business Objects Can Be Used 25-14
Access Rights 25-15
Access Rights ERD 25-17
Lifecycle 25-18
Lifecycle Definition 25-19
You Define the Lifecycle of Your Cases 25-20
Case Type Controls the Lifecycle 25-21
Practice 25-2: Review a High-Bill Case Type 25-22
Status-Specific Business Rules 25-23
Many Status-Specific Business Rules Are Configurable 25-24
Status-Dependent Scripts 25-26

Script-Launching Options	25-27
You Can Restrict User Groups to Specific Statuses	25-28
Status-Specific Business Rules	25-29
Auto-Transition	25-30
Online Auto-Transition	25-31
To Dos and Cases	25-32
Creating and Completing To Dos	25-33
Launching a Script when a To Do is Selected	25-34
Practice 25-3 and 4: Review Status-Specific Rules and Create a Case Type	25-35
Reports	25-36
Base Product Reports	25-37
Review Questions	25-38
Summary	25-39

26aSales & Marketing: Program Management – Part 1

Learning Objectives	26a-2
Sales & Marketing	26a-3
Definitions	26a-4
Practice 26a-1: Initiate Service Using an Order	26a-5
What Just Happened?	26a-6
Campaign	26a-7
The Order's Campaign Controls Many Things	26a-8
Campaign ERD	26a-9
Practice 26a-2: Explore a Campaign	26a-10
Package	26a-11
Campaign's Packages	26a-12
Package ERD	26a-13
Practice 26a-3: Explore a Package	26a-14
Numerous Business Process Flows Are Possible	26a-15
Business Process Flow Is Flexible	26a-16
Business Process Flow 1:	26a-17
Business Process Flow 2:	26a-18
Business Process Flow 3:	26a-19
Business Process Flow 4:	26a-20
Business Process Flows 5, 6, 7, and 8:	26a-21
Questions and Miscellaneous Fields	26a-22
An Order's Questions & Misc. Fields	26a-23
All Q&MFs Are Defined on the Campaign	26a-25
Q&MF Responses	26a-26
Q&MF ERD	26a-27
Groups of Columns	26a-28

Practice 26a-4: Explore Column Reference Information	26a-29
Use Cases	26a-30
Use Case 1: Marketing Surveys	26a-31
Practice 26a-5: Marketing Survey	26a-32
Use Case 2: Setting Up a Customer Prior to Start/Stop	26a-33
Practice 26a-6: Set Up a Customer Prior to Start/Stop	26a-34
Use Case 3: Setting Up a One-Time Charge	26a-35
Use Case 4: Creating Service Agreements and Service Points	26a-36
Eligibility Rules	26a-37
There Are Two Types of Eligibility Rules	26a-38
Package Eligibility Rules: Eligibility Groups Contain Criteria	26a-39
Schematic of a Sample Package's Eligibility Rules	26a-40
Eligibility Criteria	26a-42
Another Example	26a-43
Eligibility Criteria ERD	26a-44
Eligibility Group ERD	26a-45
Practice 26a-7: Eligibility Criteria	26a-46
Campaign Eligibility Rules	26a-47
Campaign Versus Package Eligibility Rules	26a-48
Campaign Eligibility Algorithms	26a-50
Lifecycles of Campaigns, Packages, and Orders	26a-51
Campaign State Transition Rules	26a-52
Package State Transition Rules	26a-53
Order State Transition Rules	26a-54
Questions and Miscellaneous Fields	26a-55
An Order's Questions and Misc. Fields	26a-56
Characteristic-Oriented Questions and Misc. Fields	26a-57
Column-Oriented Questions and Misc. Fields	26a-58
SA Creation Rules	26a-59
The "V" Is Created or Updated	26a-60
The Sequence of Events at Completion Time	26a-61
Designing Campaigns and Packages	26a-62
Reminder: Your Campaigns Can Do Many Things	26a-63
The Design Process Can Be Challenging	26a-64
