

## **Broadcom Mainframe Academy Core 2 Training**

OEM: Broadcom • Duration: 3 Days (24 hrs) • Code: BC-250-576

### **COURSE MODULES & TOPICS**

#### **Advanced z/OS Mainframe Processing**

- Advanced mainframe processing concepts
- Advanced application development
- Systems programming concepts

#### **Advanced JCL and Procedures**

- Advanced JCL techniques
- Complex JCL procedures
- Job stream optimization

#### **Advanced REXX Scripting**

- Advanced REXX programming
- Complex data processing with REXX
- REXX integration with z/OS services

#### **Mainframe Application Development and Troubleshooting**

- Advanced troubleshooting techniques
- Application performance on z/OS
- Debugging mainframe applications

#### **Capstone Lab Competencies**

- End-to-end mainframe scenario completion
- Integrated system administration
- Capstone project deliverables
