

## **Implementing and Operating Cisco Collaboration Core Technologies Hybrid and Cloud Training**

OEM: Cisco • Duration: 5 Days (40 hrs) • Code: CLCOR-HC

### **COURSE MODULES & TOPICS**

#### **Course outline**

- Collaboration Solutions Architecture
- Cisco Collaboration Solutions Security Requirements
- IP Network Protocols for Collaboration
- Building Blocks of a Cloud Collaboration Solution
- User Management from the Cloud
- Cloud Messaging and Meetings
- Cloud-Connected Unified Communications Updates and Migrations
- Jabber to Webex Migration
- Cloud Device Provisioning Solutions
- Cloud Collaboration APIs
- Cloud and Hybrid Calling Solutions
- Deployment Scenarios for Local Gateways
- Cloud Calling Deployment from Control Hub
- IOS XE Router Settings for Cloud Calling
- Cloud Calling Features
- Quality Issues in Converged Networks
- QoS and QoS Models
- Classification and Marking
- Classification and Marking on Cisco Catalyst Switches

#### **Lab outline**

- Implement CA-Signed Certificates in Cisco Unified Communications Manager
- Configure Supporting IP Network Protocols
- Manual IP Phone Administration
- Explore the Configuration of Webex Control Hub
- Add Users to Webex Control Hub
- Manage Cisco Unified Communications Manager and Cisco Unity Connection from Webex Control Hub
- Configure Webex Calling Using Cisco Calling Plans
- Configure Webex Control Hub for Webex Calling

- [Configure Webex Calling Features in Control Hub, Part 1](#)
- [Configure Webex Calling Features in Control Hub, Part 2](#)
- [Configure QoS](#)
