

Articulate Studio 360

OEM: Articulate • Duration: 3 Days (24 hrs) • Code: STUDIO360

COURSE MODULES & TOPICS

Introduction to Articulate Studio 360

- Overview of the suite: Presenter 360, Quizmaker 360, Engage 360
- When to use each tool
- Installing and setting up Studio 360
- Content Library 360: templates, characters, 13M+ assets
- Review 360: stakeholder collaboration and feedback
- LMS standards: SCORM, xAPI/Tin Can, AICC
- Publishing formats: HTML5 and Articulate Mobile Player

Presenter 360 — Building Courses from PowerPoint

- The Presenter 360 tab in PowerPoint
- Importing and working with existing PowerPoint files
- Slide Masters, layouts, and Content Library 360 templates
- Managing slide properties: navigation, branching, playlists
- Adding characters, images, and assets from Content Library 360
- Entrance, exit, emphasis, and motion path animations
- Slide transitions

Presenter 360 — Audio, Video & Annotations

- Recording narration directly in PowerPoint
- Importing and editing audio files
- Syncing animations with narration using the visual timeline
- Importing, cropping, and trimming video
- Recording webcam video
- Annotating slides: arrows, spotlights, check marks, rectangles
- Embedding web objects and interactive content

Presenter 360 — Interactivity, Player & Publishing

- Creating hyperlinks and branching scenarios
- Adding Quizmaker 360 quizzes to Presenter slides

- Inserting Engage 360 interactions into slides
- Customizing the course player: colors, fonts, sidebar, menu, glossary
- Attaching resources and notes
- Responsive player: mobile preview and device orientation settings
- Publishing to Review 360, HTML5, and LMS (SCORM/xAPI/AICC)
- Accessibility: Section 508, WCAG 2.0, screen reader support

Quizmaker 360 — Graded Assessments

- Getting started with Quizmaker 360
- Form-based vs. freeform question modes
- Graded question types: True/False, Multiple Choice, Multiple Response, Fill in the Blank, Matching Drag-and-Drop, Sequence, Numeric, Hotspot
- Freeform questions: Drag and Drop, Pick One, Pick Many, Text Entry, Hotspot
- Building branched scenarios with question routing
- Negative scoring and attempt tracking

Quizmaker 360 — Surveys, Media & Publishing

- Survey question types: Likert Scale, Short Answer, Essay, Ranking, Which Word
- Adding multimedia to questions: images, audio, video
- Customizing feedback layers per question
- Animations and slide transitions in quizzes
- Quiz player customization and responsive preview
- Publishing to Review 360, HTML5, and LMS with SCORM/xAPI tracking
- Exporting/importing quiz text for translation

Engage 360 — Building Interactions

- Getting started with Engage 360
- 20 interaction types: Accordion, Tabs, Timeline, Process, FAQ, Labeled Graphic, Conversation, Circle Diagram, Pyramid, Checklist, Guided Image, Image Zoom, Glossary, Media Tour, and more
- Adding text, images, audio, and video to interaction steps
- Customizing colors, themes, and animations
- Inserting characters from Content Library 360
- Setting interaction properties: step limits, auto-play, seek bar
- Publishing standalone or embedded in Presenter 360

Integration, Workflow & Best Practices

- Integrating Quizmaker 360 assessments into Presenter 360 slides
- Embedding Engage 360 interactions in Presenter 360
- Using Review 360 for version tracking and in-context feedback
- Final publishing workflow: from authoring to LMS deployment
- Accessibility compliance across all Studio 360 tools
- Best practices for PowerPoint-based eLearning design
