

AB-6005-A: Introduction to supply chain management in Dynamics 365

OEM: Microsoft • Duration: 1 Day (8 hrs) • Code: AB-6005-A

COURSE MODULES & TOPICS

Introduction to supply chain management in Dynamics 365

Describe Dynamics 365 finance and operations apps

- Introduction
- Describe enterprise resource planning erp
- Describe use cases ai tools
- Explore user interface
- Knowledge check
- Summary

Describe reporting and integration capabilities in Dynamics 365 finance and operations apps

- Introduction
- Describe built in reporting
- Describe analyze data power bi
- Describe integration office 365
- Describe power platform integration
- Describe use cases business events
- Describe business documents
- Describe finance insights
- Knowledge check
- Summary

Describe shared features in Dynamics 365 finance and operations apps

- Introduction
- Describe security capabilities
- Describe workflow capabilities
- Describe concept batch jobs
- Describe organization legal entities
- Create maintain record templates
- Describe global address book
- Describe alerts
- Describe number sequences
- Describe attachment capabilities

- Knowledge check
- Summary

Describe core capabilities of Dynamics 365 Supply Chain Management

- Introduction
- Describe dynamics 365 supply chain management core capabilities
- Manage products released products
- Describe products product masters
- Describe product dimensions product variants
- Describe storage dimension
- Describe tracking dimension
- Describe item groups
- Describe item model groups
- Describe default order settings
- Explore copilot generate product insights
- Knowledge check
- Summary

Describe inventory management in Dynamics 365 Supply Chain Management

- Introduction
- Illustrate on hand inventory
- Manage inventory journals
- Explore inventory journal types
- Describe transfer orders
- Describe inventory blocking
- Ai assisted inventory insights
- Describe quality management
- Knowledge check
- Summary

Describe procurement processes in Dynamics 365 Supply Chain Management

- Introduction
- Manage vendors
- Describe trade agreements
- Describe procure to pay process
- Describe purchase requisitions
- Describe purchase orders receipts returns
- Describe charges
- Describe copilot support procurement
- Explain supplier communications agent
- Describe supply risk assessment
- Knowledge check
- Summary

Describe sales processes in Dynamics 365 Supply Chain Management

- Introduction
- Manage customers
- Describe trade agreements
- Describe order to cash process
- Describe sales order creation fulfillment returns
- Describe inter company orders
- Describe charges
- Describe copilot support sales scenarios
- Knowledge check
- Summary

Describe warehouse management in Dynamics 365 Supply Chain Management

- Introduction
- Manage warehouse layout
- Describe reservation hierarchies
- Describe unit sequence group
- Describe license plate
- Describe location directives
- Describe work templates
- Describe warehouse management mobile app
- Describe wave templates
- Describe cycle counting
- Describe replenishments
- Describe packing dimension containerization
- Knowledge check
- Summary

Describe manufacturing processes in Dynamics 365 Supply Chain Management

- Introduction
- Describe production types
- Describe boms formulas
- Describe bom types
- Describe routes operations
- Describe manufacturing modes
- Describe manufacturing execution
- Knowledge check
- Summary

Describe inventory costing and master planning in Dynamics 365 Supply Chain Management

- Introduction
- Describe costing methods use cases
- Describe resources
- Describe cost groups

- Describe cost management
- Describe coverage groups
- Describe master planning planning optimization
- Illustrate ai assisted demand forecasting
- Demonstrate landed cost scenarios
- Knowledge check
- Summary
