

IBM DataStage-aaS Anywhere Developers Training

OEM: IBM • Duration: 4 Days (32 hrs) • Code: V010002G

COURSE MODULES & TOPICS

Objectives

- Introduction to Cloud Pak for Data
- Introduction to DataStage
- Parallel Framework
- Projects
- Stages, Links and RCP
- Invocation Id's
- Table Definitions
- DataStage Flow
- Compile and Run
- Adaptable Flows
- Subflows
- Multi-instance JobsImport and Export flows
- Sequential File Stage
- Data Set Stage
- Sorting Data
- Sort Stage
- Remove Duplicates Stage
- Aggregator Stage
- Combining Data
- Lookup Stage
- Join Stage
- Merge Stage
- DB2 Connector Stage
- HTTP Connector Stage
- Amazon S3 Connector
- Amazon RedShift Connector
- Microsoft Azure Connector for File Storage
- Microsoft Azure SQL Server Connector Stage
- Google Big Query Connector
- Snowflake Connector
- Transformer Stage

- Hierarchical Data Stage
- Introduction
- Pipelines Nodes
- Trigger Conditions
- Handling ErrorsRun Pipelines
