

Pressure Technology - Basics

OEM: Siemens • Code: SC-PI-P

COURSE DESCRIPTION

Participants will get basic knowledge on pressure measurement. The attendees will acquire knowledge about of the different types of pressure, how to find the suitable customer's solution using the catalog.

AUDIENCE PROFILE

- Sales personnel
- Users in the field of process instrumentation
- Configuring engineers

PREREQUISITES

- Basic knowledge of process instrumentation technology
- General knowledge of electrical engineering

COURSE OBJECTIVES

By the end of this course, participants will be able to:

- Participants will get basic knowledge on pressure measurement. The attendees will acquire knowledge about of the different types of pressure, how to find the suitable customer's solution using the catalog.

COURSE OUTLINE

Module 1: Basics pressure measurement

Module 2: The Siemens product portfolio SITRANS P and their technical specifications

Module 3: SITRANS P320 / P420 Measuring cells

Module 4: Ordering example
