

Jira app admin: Standardize a site with schemes

OEM: Atlassian • Code: JIRA_APP_ADMIN_STANDARDIZE_A_SITE_WITH_S

COURSE DESCRIPTION

Configure, govern, and scale Jira Cloud — in this three-course series, an expert instructor will teach your team how to build a solid foundation so they can administer Jira Cloud with confidence. This is the second course in the series.

AUDIENCE PROFILE

- This course is designed for Jira Cloud app admins.

PREREQUISITES

- Before taking this course, your team should take "Jira app admin: Configure permissions and global settings" or have equivalent knowledge.

COURSE OBJECTIVES

By the end of this course, participants will be able to:

- Build a work type scheme
- Create global custom fields and add them to the catalog
- Build a field scheme and associate it with a space
- Create screens to manage what users see in work items
- Build workflows from business requirements
- Create a workflow scheme

COURSE OUTLINE

Module 1: Work types and work type schemes

Module 2: Fields and field behavior

Module 3: Configure screens and screen schemes
