

Windchill: Fundamentals of Product Structure

OEM: PTC • Code: WCFD-EBOM

COURSE DESCRIPTION

Learn to create, filter, and work with a product structure. You will use the Product Structure Browser (PSB) to create, edit, and manipulate a product structure. You will also identify how Windchill objects, such as end items and parts, make up a product structure.

AUDIENCE PROFILE

- Product Engineer
- Design Engineer

PREREQUISITES

- Windchill: Fundamentals Overview

COURSE OBJECTIVES

By the end of this course, participants will be able to:

- Describe how end items and parts make up a product structure in Windchill
- Create a baseline of a product structure
- Use the PSB to create and edit a product structure
- Manage part associations
- Apply the filter criteria to a product structure
- Generate BOM reports

COURSE OUTLINE

Module 1: Course Content

- Describe how end items and parts make up a product structure in Windchill
- Create a baseline of a product structure
- Use the PSB to create and edit a product structure
- Manage part associations

- Apply the filter criteria to a product structure
- Generate BOM reports
