

Empower Agents with APIs using MuleSoft for Agentforce: API Catalog - MSA002

OEM: MuleSoft • Code: MSA002

COURSE DESCRIPTION

Discover how to use MuleSoft Topic Center, to define Topics within API specifications to make it easier for Agentforce to parse and provide accurate and high-quality responses. In this 90-minute virtual workshop, learn how to create agent-enabled APIs using Anypoint Code Builder, synchronize MuleSoft APIs into API Catalog, and then activate agent actions in Salesforce. Unlock the full potential of agents with the knowledge they need to make meaningful decisions and actions using MuleSoft APIs.

AUDIENCE PROFILE

- This virtual workshop is designed for MuleSoft developers and Salesforce administrators who want to learn how to use MuleSoft Topic Center to create, manage and activate MuleSoft APIs to extend agent capabilities.

PREREQUISITES

- This section doesn't contain any content.

COURSE OBJECTIVES

By the end of this course, participants will be able to:

- Use MuleSoft Topic Center to create agent-enabled APIs.
- Synchronize APIs from Anypoint Platform to Salesforce.
- Invoke the MuleSoft operations using agent actions.
