

Device Management

OEM: SAP • Code: IUT220

COURSE DESCRIPTION

Participants familiarize themselves with the basic principles of device management and the conversion of related key business processes in IS-U/CCS, as well as the interfaces of standard SAP components MM and PM. In addition to providing a theoretical overview, this course equips participants with the practical ability to install their own data constructs and customize the device management.

AUDIENCE PROFILE

- Project managers
- Project teams

PREREQUISITES
