COURSE OVERVIEW

Certified Claude AI Expert Interactive Live Training is a hands-on, instructor-led certification programme designed to help professionals master Claude AI by Anthropic - one of the world's most advanced AI assistants. This Claude AI Live Training equips you with practical expertise in prompt engineering, Claude Code, AI workflow automation, document analysis, productivity systems, generative AI applications, and enterprise AI implementation. Through live expert-led sessions, guided demonstrations, real-world case studies, and hands-on workflows, you will learn how to use Claude AI effectively across business, research, coding, marketing, communication, and operational environments. Gain expertise in Claude Projects, Artifacts, Connectors, Claude Code, advanced prompting frameworks, AI automation workflows, AI-powered research, productivity optimisation, coding assistance, and enterprise AI systems. Learn how to build scalable AI-assisted workflows, automate repetitive tasks, improve efficiency, enhance output quality, and integrate Claude into real-world professional environments. The programme combines 6 hours of live instructor-led sessions across 2 interactive days with 10 hours of self-paced content, giving you both guided instruction and flexible independent learning. Enrol now in the Certified Claude AI Expert ILT and become a future-ready AI professional capable of transforming Claude into a powerful partner for AI productivity, automation, research, and business growth.

WHO THIS COURSE IS FOR

- Working Professionals — Who prefer structured, instructor-led learning with real-time Q&A and accountability.
- Career Changers — Looking for guided, hands-on training with expert mentorship to break into a new field.
- Team Leads & Managers — Who need deep understanding to lead technology initiatives and make informed decisions.

TOOLS AND REQUIREMENTS

- Basic understanding of technology concepts
- A computer with stable internet connection for live sessions
- Webcam and microphone recommended for interactive participation
- No prior specialized experience necessary - the program starts from foundations

- Entrepreneurs & Founders — Planning to build products or services and want expert guidance on implementation.
- Students & Fresh Graduates — Seeking a competitive edge with a globally recognized, hands-on certification.
- Consultants & Advisors — Who need to quickly build expertise with structured, expert-guided training.

LEARNING OBJECTIVES

What You Will Learn

- Introduction to Claude AI
- Mastering Prompt Engineering
- Claude.ai Chat - Projects
- Artifacts
- Connectors and MCP
- Cowork - Document Analysis and Task Management
- Real-time problem solving with live instructor guidance
- Hands-on labs and collaborative exercises
- Industry best practices and real-world applications
- Exam preparation strategies and tips

COURSE SYLLABUS

14 Modules, 56 Topics

MODULE 1

01

Introduction to Claude AI

TOPICS

- Introduction to Introduction to Claude AI
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 2

02

Mastering Prompt Engineering

TOPICS

- Introduction to Mastering Prompt Engineering
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 3

03

Claude.ai Chat - Projects

TOPICS

- Introduction to Claude.ai Chat - Projects
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 4

04

Artifacts

TOPICS

- Introduction to Artifacts
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 5

05

Connectors and MCP

TOPICS

- Introduction to Connectors and MCP
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 6

06

Cowork - Document Analysis and Task Management

TOPICS

- Introduction to Cowork - Document Analysis and Task Management
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 7

07

Claude Code - Coding and Terminal Workflows

TOPICS

- Introduction to Claude Code - Coding and Terminal Workflows
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 8

08

Claude in Chrome

TOPICS

- Introduction to Claude in Chrome
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 9

09

Claude in Excel

TOPICS

- Introduction to Claude in Excel
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 10

10

Claude in PowerPoint

TOPICS

- Introduction to Claude in PowerPoint
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 11

11

Claude for Professional Workflows

TOPICS

- Introduction to Claude for Professional Workflows
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 12

12

Enterprise and Team Features

TOPICS

- Introduction to Enterprise and Team Features
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 13

13

Power User Strategies

TOPICS

- Introduction to Power User Strategies
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

14

Responsible AI and Staying Current

TOPICS

- Introduction to Responsible AI and Staying Current
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

WHAT IS INCLUDED

Everything You Need to Succeed

- Koenig course material for every module
- Hands-on exercises throughout the course
- Delivery by certified instructors and subject matter experts
- Course completion certificate from Koenig

ABOUT KOENIG

Who We Are

Established in 1993, Koenig Solutions is a globally recognised training provider with 35+ technology partnerships, 5,000+ training programmes and a network of certified instructors and subject matter experts, supporting individuals and enterprise teams worldwide.
