COURSE OVERVIEW

Certified RWA Tokenization Expert™ Interactive Live Training is an instructor-led RWA certification programme designed to build practical and institutional-level knowledge of Real-World Asset tokenization. Real-World Asset (RWA) tokenization is evolving from an emerging blockchain concept into a key component of modern financial infrastructure, with banks, governments, asset managers, fintech companies, blockchain platforms and institutional investors exploring tokenized funds, government securities, private credit, deposits, commodities, real estate and other financial assets. This RWA Tokenization Course takes you beyond the fundamentals of converting real-world assets into blockchain-based tokens. Through live expert-led sessions, practical examples, institutional case studies and real-world workflows, you will explore the complete asset tokenization lifecycle, from asset origination and legal structuring to blockchain architecture, custody, investor onboarding, secondary-market liquidity, accounting, compliance and risk management. The training combines 6 hours of live instructor-led sessions across two days with 11 hours of self-paced content, downloadable resources and lifetime access to session recordings, equipping you with the technical, regulatory and commercial knowledge required to evaluate, design and manage institutional-grade tokenized asset structures.

WHO THIS COURSE IS FOR

- Working Professionals — Who prefer structured, instructor-led learning with real-time Q&A and accountability.
- Career Changers — Looking for guided, hands-on training with expert mentorship to break into a new field.
- Team Leads & Managers — Who need deep understanding to lead technology initiatives and make informed decisions.
- Entrepreneurs & Founders — Planning to build products or services and want expert guidance on implementation.

TOOLS AND REQUIREMENTS

- Basic understanding of technology concepts
- A computer with stable internet connection for live sessions
- Webcam and microphone recommended for interactive participation
- No prior specialized experience necessary - the program starts from foundations

- Students & Fresh Graduates — Seeking a competitive edge with a globally recognized, hands-on certification.
- Consultants & Advisors — Who need to quickly build expertise with structured, expert-guided training.

COURSE SYLLABUS

25 Modules, 100 Topics

MODULE 1

01

Foundations of Real-World Asset Tokenization

TOPICS

- Introduction to Foundations of Real-World Asset Tokenization
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 2

02

Asset Classes and Market Sizing

TOPICS

- Introduction to Asset Classes and Market Sizing
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 3

03

Legal Structure

TOPICS

- Introduction to Legal Structure
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 4

04

Title

TOPICS

- Introduction to Title
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 5

05

and Enforceability

TOPICS

- Introduction to and Enforceability
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 6

06

Global Regulatory Frameworks

TOPICS

- Introduction to Global Regulatory Frameworks
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 7

07

Blockchain Architecture and Token Standards

TOPICS

- Introduction to Blockchain Architecture and Token Standards
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 8

08

Privacy

TOPICS

- Introduction to Privacy
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 9

09

Confidentiality

TOPICS

- Introduction to Confidentiality
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 10

10

and Data Protection

TOPICS

- Introduction to and Data Protection
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 11

11

Issuance and Lifecycle Operations

TOPICS

- Introduction to Issuance and Lifecycle Operations
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 12

12

Accounting

TOPICS

- Introduction to Accounting
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 13

13

Audit

TOPICS

- Introduction to Audit
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 14

14

and Tax

TOPICS

- Introduction to and Tax
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 15

15

Security

TOPICS

- Introduction to Security
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 16

16

Upgradeability

TOPICS

- Introduction to Upgradeability
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 17

17

and Operational Resilience

TOPICS

- Introduction to and Operational Resilience
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

18

Secondary Markets and Liquidity

TOPICS

- Introduction to Secondary Markets and Liquidity
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

19

RWA Integration with DeFi

TOPICS

- Introduction to RWA Integration with DeFi
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

20

Risk Management and Case Studies

TOPICS

- Introduction to Risk Management and Case Studies
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

21**Institutional Infrastructure and Adoption****TOPICS**

- Introduction to Institutional Infrastructure and Adoption
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

22**The Buy-Side View****TOPICS**

- Introduction to The Buy-Side View
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

23**Business Models****TOPICS**

- Introduction to Business Models
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 24

24

Economics

TOPICS

- Introduction to Economics
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

MODULE 25

25

and Distribution

TOPICS

- Introduction to and Distribution
- Core concepts and principles
- Practical exercises and demonstrations
- Best practices and industry standards

WHAT IS INCLUDED

Everything You Need to Succeed

- Koenig course material for every module
- Delivery by certified instructors and subject matter experts
- Hands-on exercises throughout the course
- Course completion certificate from Koenig
