COURSE CODE

COURSE OVERVIEW

This course provides a clear overview of how ISO 14001:2026 helps organizations improve environmental performance and resilience. Participants will learn how EMS frameworks address environmental conditions, integrate lifecycle thinking, and manage risks such as climate change and pollution. The training also introduces key concepts such as compliance obligations, operational controls, and performance evaluation, helping learners understand how EMS contributes to sustainability and ESG objectives.

WHO THIS COURSE IS FOR

- This training is intended for:
- Top Management
- EMS Managers and Officers
- EMS Internal Auditors
- Management System Professionals and Consultants
- Personnel responsible for legal compliance
- Anyone interested in Environmental Management Systems

PREREQUISITES

- No prior knowledge is required. This is a beginner-level course suitable for individuals who are new to Environmental Management Systems or want to gain awareness of ISO 14001:2026.

LEARNING OBJECTIVES

What You Will Learn

- Build a strong foundation in EMS concepts aligned with ISO 14001:2026
- Understand industry expectations related to sustainability and environmental performance
- Gain awareness of environmental risks, impacts, and control measures
- Learn the basics of performance evaluation and continual improvement
- Enhance career opportunities in EHS, sustainability, compliance, and ESG domains
