COURSE TABLE OF CONTENTS

Motorola Solutions ASTRO25 (APCO25/P25) and Dimetra (TETRA) Public Safety Communications

OEM: Koenig Original • Duration: 8 Days (60 hrs)

COURSE MODULES & TOPICS

Module 1: Introduction to TETRA

- TETRA system overview
- Basic radio concepts
- Trunked radio concepts

Module 2: TETRA Interfaces and Services

- TETRA interfaces
- TETRA services

Module 3: TETRA System Parameters

- TETRA system parameters

Module 4: TETRA Security and Encryption

- Security and authentication in TETRA
- Air interface encryption
- End-to-end encryption

Module 5: Dimetra IP System Overview

- Dimetra IP components
- Dimetra IP subsystems

Module 6: Dimetra IP Functions and Features

- Dimetra IP functions
- Dimetra IP features

Module 7: Introduction to APCO25

- APCO25 system overview
- Basic radio concepts
- Trunked radio concepts

Module 8: APCO25 Interfaces and Services

- APCO25 interfaces
- APCO25 services

Module 9: APCO25 System Parameters

- APCO25 system parameters

Module 10: APCO25 Security and Encryption

- Security and authentication in APCO25
- Air interface encryption
- End-to-end encryption

© Koenig Solutions

Module 11: ASTRO25 IP System Overview

- ASTRO25 IP components
- ASTRO25 IP subsystems

Module 12: ASTRO25 IP Functions and Features

- ASTRO25 IP functions
- ASTRO25 IP features
