KOENIG SOLUTIONS · COURSE OUTLINE

ISO/IEC 27701 Practitioner

2 Days	4	17
DURATION	MODULES	TOPICS

COURSE OVERVIEW

The TRECCERT ISO/IEC 27701 Practitioner training program is designed to provide participants with a strong understanding of the core principles of privacy protection and privacy information management. This intermediate-level course focuses on the requirements of the ISO/IEC 27701 standard and introduces the structure and functions of a Privacy Information Management System (PIMS). Participants will gain insights into Annex A controls, privacy principles, and the role of PIMS in protecting personally identifiable information (PII), ensuring compliance, and fostering trust in the processing of personal data. What Makes This Program Unique: Clear introduction to ISO/IEC 27701 requirements and their application; Focus on understanding Annex A controls and PII controller and processor controls for practical implementation; Foundation for further studies in privacy information management; This program is ideal for individuals new to privacy management or those looking to gain a foundational understanding of PIMS principles.

WHO THIS COURSE IS FOR

- Privacy and Data Protection Officers
- Information Security and IT Professionals
- Compliance, Risk Management, and Governance Staff
- Legal Professionals involved in data protection and privacy
- Consultants supporting ISO/IEC 27701 or privacy-related initiatives

LEARNING OBJECTIVES

What You Will Learn
